Monday last the Kent election campaign was opened at Richibucto by the Attorney General. The government candidate, Mr. Legere, is opposed by Mr. Goguen, who was defeated in the last local election in the county. This election seems to be creating considerable feeling, and an extra effort will be made by both parties to secure the seat for their candidate.

Our citizens were rather surprised at the very small number of excursionists who came over from Calais, on the Calais Band Excursion yesterday. This excursion from Calais has been talked about for several years and it was expected that it would be a mammoth affair, but the Band was accompanied by barely more than come in on an ordinary passenger train any day. For running excursions, Fredericton can beat them all.

Things are now commencing to hustle for the exhibition which is sure to take place here this fall. The people generally are taking an interest and assisting the committee in their work. The committee appointed for the purpose met the government last Thursday night, and were told by the Attorney General that the grant of \$1,000 would be given them, and the sale of cattle and sheep would be held here while the exhibition was in progress.

GOOD PROSPECTS
For an Exhibition to be Held Here this Fall.
The second meeting of the Agricultural Society No. 34 and the Fredericton Board of Trade was held in the city hall Wednesday afternoon, and was fairly well attended. The main business was the reports of committees appointed in a previous meeting to canvass the city by wards for subscriptions towards a prize light. Their reports brought the aggregate amount subscribed thus far up to the magnificent sum of \$865, the amount being obtained without any trouble. The committee expect, with a more thorough canvass, to push the amount into four figures, and this, together with a government grant of \$1,000, will defray all necessary expenses.

A committee was appointed to confer with the committee of the city council regarding their expected grant of \$250. At the last meeting of the council the aldermen seemed doubtful about giving this grant, it being then thought by the board that the government did not intend to aid the enterprise. Since the government had signified their intention to recommend a grant, the face of the matter has changed, and it is more than probable that the city council will, on a reconsideration of their action, grant the \$250 asked for. Provided they do this, there will be no trouble about finances.

A prominent merchant who takes a deep interest in this movement, says, that with the funds at their disposal the agricultural society, with careful management, ought to come out of the exhibition with a surplus of \$1,000. It is considered that the sale of government stock will greatly add to the attendance from neighboring agricultural districts, and this, combined with the horse races and other prominent features of such a show, will no doubt draw an immense crowd to Fredericton, especially since there has been no such show here for some years past.

No date has been definitely decided on, but it is thought the exhibition will be held the 6th, 7th and 8th of October next. The building and show grounds of the Fredericton Park Association will be utilized for the event, and, with a few additions and improvements, answer very well for the purpose.

Barker's Point.
BARKER'S POINT, Aug. 21st. The farmers have finished haying and all say that the cut this year is larger than for many years. The oat crop promises to be a good one, but the appearance of rot indicates a shortage in the potato crop.

Married Under an Elm Tree.
On Wednesday last, at the residence of Mr. James A. Young, Nashwaak, the marriage of his daughter, Leah, to Mr. Gordon Grant, of Southampton, was solemnized under one of the large elm trees on the lawn. The Rev. Mr. Mullin, of Stanley, performing the ceremony, the guests being so numerous that the house would not accommodate them. The bride was the recipient of a large number of costly presents. The couple left immediately for their future home at Southampton. The "Globe" extends congratulations.

Meeting Thursday Night at Marysville to Organize a Trotting Association.
A meeting was called at the Marysville rink Thursday night for the purpose of organizing a trotting association. Mr. Gibson offered to give the land and the lumber required to fence it. The offer was of course received as a bonanza, and the work of construction will go on at once. The track will be on the opposite side of the river on what is known as the brick hill. There are some fast horses in the town and this will give an impetus to the work of breeding besides adding to the attractions of the place.

Considerable excitement was created in Ireland Sunday by the sudden death of Canon Carleton while preaching in Kilkenny Cathedral. The Rev. gentleman had progressed to some extent with his sermon when he was suddenly observed to reel and fall. A number rushed to his assistance but he passed away almost instantly. The cause of his death was heart disease.

The launching of the armored battle ship "Scyllia" at Venice last month added another floating monster to Italy's navy. It is but eleven feet shorter than the "Sargolga," launched last year in Spezia and said to be the biggest war ship in the world, and is almost the exact counter-part of the "Re Umberto," launched in Naples three years ago. The "Scyllia" carries an armor fourteen inches thick and has forty-eight great guns. The speed of the new battle ship is eighteen knots. It has cost more than \$5,000,000, has been building since 1885, and will not be fully equipped for action before the summer of 1894.

CHICAGO'S BABY SMOKER.
The Parents of a Little Victim of Tobacco To Be Prosecuted.
At Chicago the Illinois Humane Society has decided to prosecute the parents of Leonard Turner, aged two years, who, it is alleged, was taught by his father to smoke, beginning when the child was two months old. The child has now become so accustomed to the weed that he cries for his pipe and tobacco.

Got a Shock.
While some workmen were engaged Thursday in the erection of a new building on Notre Dame street, Montreal, they happened to swing the boom of the crane against an alternating wire, as it is called, of the Royal Electric Company. The end of the boom was of iron and the wire rope attached to it formed a conductor for the electricity. A workman who was at the crank of the crane, was instantly struck and in a moment his arm was paralyzed.
