HALIFAX ABLAZE.

Valuable Warehouses Along the Water Front Totally Destroyed.

The Firemen Unable to Cope With the Flames.

Whited Spread North and South With Great Rapidity.

A most disastrous fire occurred at Halifax, Thursday night last. The fire broke out in Merlin's planning mill on Taylor's wharf, between ten and eleven o'clock, and fanned by a gentle breeze from the north, spread with such rapidity that in a short time Merlin's planning mill, Wilson's blacksmith shop, John Taylor & Co's fish warehouse (filled with pickled fish) Brookfield Bros.' lumber warehouse and yards, all on Taylor's and Brookfield's wharves, were totally destroyed.

About midnight the fire was again with frightful fury, a quarter of a mile of the harbor front being a vast sheet of flame. The firemen did all in their power but the fight was unequal owing to the large number of casks of oil stored in the warehouses. Over 1,500 barrels were thrown in the water, many bursting and catching fire, the water being for nearly a mile a roaring mass of flames.

Hundreds of people are homeless. The loss will amount to a half a million dollars. The militia and royal engineers were called out and assisted in getting the flames under control.

The latest reports state that no lives have been lost.

A Letter. To the Editor of the Fredericton GLOBE.

DEAR SIR:—I read with a great deal of interest an editorial in your last issue respecting Government house and a Summer Hotel and have come to the same conclusion, viz:—that a summer Hotel at the place mentioned and under proper management would pay a handsome profit. There is no doubt whatever, that the citizens of Fredericton do not take advantage of the many opportunities given them, and that if a company was formed here and would undertake to boom the town as a summer resort, American citizens would come here in very large numbers. Our beautiful river itself would be a very strong inducement to travellers and therefore if the people here will take hold in earnest and bring the place under the notice of the American public we will get them here.

Thanking you for your space, and hoping to see your suggestions acted upon.

I remain yours, etc., TOURIST.

She was found tied to the post naked with the exception of an under garment, which was turned over her head. Her body was torn from head to foot as if by a knife, while across her abdomen was a gash twelve inches long and so deep as to leave the bowels exposed, and scattered around were the great hickory switches with which the woman had been flogged. No one knows who composed the mob nor whence they came. The community is enraged that such a thing should have happened in their midst.
