County Court. The York county court met on Tuesday morning at immediately adjourned as there was no business of any kind to transact. This is the third successive term that this court has been without a case before it, which speaks well for the morals of the county, but is not so well liked by the lawyers.

Smashed a Window. Last Thursday evening about 10.30, two soldiers were enjoying themselves in the Barker House Alley, when, for some cause, one of them deliberately threw a stone through one of the large panes in the dining room window of the Royal Hotel. They were both pretty well under the influence of the ardent.

Handsome Groups. A group composed of the senior class of the Normal School can be seen at Harvey's studio. The picture is an elegant one, being 20x24, and handsomely framed. It will be placed in the library at the school. Mr. Harvey has also just finished a large picture of the I. S. C. base ball team, and one of the graduating class of the U. N. B., both of which he might well be proud of.

Madpad Concert Co. This popular organization is to appear here during this month, and it is hoped that our citizens will turn out and give them such a house as a company composed of such artists deserves. Every seat should be filled on the occasion of their visit here, otherwise we cannot expect to be favored with such class of entertainments as these artists are capable of presenting.

St. Mary's Firemen. Tuesday evening next the St. Mary's firemen will hold a dance in the field at the end of the bridge. Elsewhere in this issue we republish an article from the Hamilton Times relating to the wonderful cure of a gentleman in that city, who had been pronounced by physicians incurable, and who had been paid the \$1,000 total disability insurance granted members of the Royal Templars. The well known standing of the Times is a guarantee as to the entire reliability of the statements contained in the article.

New Time Table. The new time table of the C. P. R. which came into effect on Monday morning is not nearly so convenient either for our mail correspondents or the travelling public as the old arrangement. By it the first mail for St. John leaves at 8 a. m., and the other at 10.30 a. m. There is no mail to St. John after this hour, so that a letter arriving by the morning mail cannot be answered until the following morning.

The services at the Cathedral were conducted by the Most Rev. the Metropolitan and Canon Roberts. Six sides-men of the Cathedral, Messrs. The ceremony took place at the residence of the bride's father, and was performed by Rev. Mr. Chapman, in the presence of a large gathering of invited guests. Miss Merritt, the groom's sister, Miss Alma Gibson and Miss Annie McConnell, all beautifully at- ticed, acted as bridesmaids. Edward Merritt, brother of the groom, was best man. The bride wore a handsome dress and was given away by her father. The bridal presents were numerous and of unusual elegance. The happy couple took the 4.15 train for a trip to Boston and New York.

W. A. A. Concert. The concert under the auspices of the Wo- men's Association of England on Tues- day evening last was a most attractive one. The programme consisted of the Rev. Mr. Fenety's singing of the "Auld Lang Syne" and other popular songs. The singing was done by the Rev. Mr. Fenety and his daughter.

Three young sports went to Bonney River on Monday for a day's fishing. They made a big haul, landing about one hundred and fifty fish. When they came to examine the fish, they found that there were only four trout among them, the remainder consisting of chubs. They now say there is not much sport in catching chubs.—St. Croix Courier.

While Martin Stewart was returning home from Robert Hanson's, of the Nashwaak, on horseback, the other evening, he was attacked by a wolf. Mr. Stewart soon became alarmed at the ferocity of the animal and put spurs to his horse and went at full speed for nearly a mile with the wolf in close pursuit, when the animal turned off and seated himself on the side of the road.

The arrival of a vessel at St. John last week that had lost two men, the captain and mate, from yellow fever, gave the people of that city by the sea something to talk about for an hour or two. Yellow fever, however, is not a disease that is likely to flourish in New Brunswick, especially in St. John. A few hours of genuine St. John fog would soon stay an epidemic of yellow Jack.

Leonard Grace, one of the workers in Risteen's sash and door factory above town, met with a bad accident, that will lay him up for some time. He was working at a circular saw, Wednesday afternoon, when his left hand slipped and came in contact with the saw, one finger being almost severed. He called on Dr. Vanwart who dressed the wound, and Leonard is now doing as well as possible under the circumstances.

John Kirkpatrick, foreman of the Courtney Bay cotton mill, while walking along the City Road about nine o'clock Wednesday evening, was stabbed in the face by a man who was passing. He received three severe cuts on the right cheek. He says he was walking quietly along, when he met the man coming the other way. As he was passing, he staggered up against Kirkpatrick and slashed at him with a knife. The wounds were dressed by Dr. Simon.

Judge Wetmore, who has been visit- ing St. John for the past couple of months for the benefit of his health and medical treat- ment, returned home early this week by steamer. His many friends in this city will regret, however, to hear that the change has not been of any noticeable benefit, and his illness is of quite sufficient seriousness to cause anxiety.

It is settled now as nearly as it can be that Mrs. W. J. Florence will return to the stage in the summer of 1892. Her husband will then have completed his last tour with Joseph Jefferson. Mr. and Mrs. Florence will start from Frisco, where Mr. Jefferson will stop, and play Eastward over old territory. For further particulars, address Charles Insole Pardee, A. M., Secretary. To the Editor of the GLOBE, Sir.—When returning from Forest Hill Cemetery lately, I noticed a large number of trees which were planted by Mr. George Botsford some 28 years ago, and intended as a hedge, have been all cut down, and also a number of trees on the road have been de- stroyed, and I take this opportunity of call- ing the attention of the cemetery authorities to the matter. By what authority were these trees removed? It certainly does not add to the approach to the cemetery, nor does it do to the appearance of the grounds surrounding the new deaf and dumb institution. Thank- ing you for this space.

Yours truly, SALAMANCA. June 5th, 1891.

THE WORLD OVER.

The Spirit of the Press of all Countries.

A Synoptic History of the Times. Itemized and Arranged for every-day Convenience.

The population of Winnipeg is placed at 25,000. Three hundred and nineteen persons died of influenza in London last week. An unsuccessful attempt was made this week to steal the body of P. T. Barnum at Bridgeport.

The Marshall, Mich., national bank has closed its door. Cashier Kirby is missing and is supposed to have stolen from \$25,000 to \$50,000 of the bank's funds.

Two men were killed outright and three others have since died from injuries by the explosion of a saw mill engine six miles west of Bedford, Ind., yesterday.

A conflict between anarchists and police took place in a narrow street in Rome. Twelve shots were exchanged and several persons were wounded. It is stated Landi has been arrested.

The county infirmary, five miles east of Munsie, Ind., was totally destroyed by fire. There were 45 regular inmates in the home, many in a helpless condition. It is reported several of the inmates per- ished in the flames.

An alarming epidemic of grip is sweep- ing over Newfoundland. Hundreds of people are affected, the doctors are unable to attend the victims, and in some cases the doctors themselves are sick. The mortality at Burin, Placentia and Fortune Bay is really terrible and grief prevails in almost every household.

Lieut. Grant, who showed such skill and bravery in defending an intrench- ed position near Thobal, with 50 Sepoys and 40 Ghoorkas against almost the en- tire Manipuri army, has been decorated with the Victoria cross, and has been promoted to the rank of major.

In the baccarat scandal trial last Thurs- day the cross-examination of Arthur Stan- ley Wilson was concluded. During examina- tion the fact was elicited that the counters used at the baccarat games at Tranby Croft were the property of the Prince of Wales, and were a set carried about by him when visiting county houses for the indispensable baccarat.

The people of Holbrook, Mass., are in a state of great excitement, owing to con- tinued raids of burglars. Extra night police have been appointed, and nearly every citizen has armed himself for pro- tection against highwaymen and burglars. It is thought a band of robbers is located in the woods between Avon and Brook- ville, and there is talk of organizing a force to search the place.

The Bank of England reserve to-day is between £17,000,000 and £18,000,000. In ordinary times this would mean a two per cent. rate, but it is expected that under existing financial conditions the bank will announce a four per cent. rate. The bank has reduced its rate of discount from five per cent. to four. Rate of dis- count in open market for both short and three months' bills, 3 1/2 to 3 3/4 per cent. Money, 3 to 3 1/2 per cent.

Struck by an Engine. As two mill hands were going to their work at Spurr's Cove, St. John, on Monday last they found the horribly mutilated body of a man on the railway track about two miles above South Bay station. The head was crushed to a jelly and partially severed from the body. One leg was taken off below the knee, and both arms crushed. His watch- chain was hanging to his vest but the watch was missing. The letters C. R. P. on his shirt was the only clue that could be found to his name. He was identified by a sectionman as a stranger that he had noticed acting suspiciously on Sunday afternoon. He gave his name as Wm. Barnett and said he belonged to Calais, and had lately married a St. Stephen girl, but she had eloped and the trouble drove him crazy.

Dissolution. Since the publication of our last paper a change has taken place in the proprietor- ship, and in future the business manage- ment of the "Globe" will be conducted by Mr. A. J. Machum of the late firm, Mr. C. S. Crockett having withdrawn from it. The present proprietor takes the opportu- nity of thanking the patrons of the "Globe" for their encouragement during the first year of its existence, and will endeavour by strict attention to the management of the paper to give its read- ers good value for their money, and to in- crease its circulation three-fold within the next six months. The job work de- partment of the Frederickton Globe office is a special feature and the plant and necessary material for turning out first- class work at reasonable prices, cannot be surpassed in the city.

Alarm of Fire. Yesterday about a quarter to one an alarm of fire was given, caused by the discovery of a slight fire on the roof of the Frederickton depot. The firemen were given a run but had no work to do, the fire being put out before they got there.

James D. Fowler, OPTICIAN. Queen Street, (Opp. Post Office) Fredericton, N. B. BARKER'S POINT, June 3rd. If you want to have a good time go to a dance in the Jubilee hall. The young men of this place held a dance there Wednesday night, and it eclipsed anything of the kind that has ever taken place there. Many young gentlemen and ladies came over from the city to trip the light fantastic and while away the pleasant hours of the evening. Mr. John Bartlett provided music for the occasion, and there are few that can surpass him on the violin. Mr. George Blaney has one of the finest gardens in this section of the country. Mr. Blaney is a young and energetic farmer, and has made gardening a specialty. During the winter months he has made over one thousand strawberry boxes, and as soon as the strawberries are ripe, he will be able to supply his many customers. He has also three hundred gooseberry bushes which give promise of an abundant yield. Mr. Wm. Rice, who has just returned from a hunting trip, reports trout very plentiful on the Noonan Brook. Here is an opportunity for Fredericton sportsmen. Unless the June showers are frequent the hay crop promises to be a poor one, but it is rather early yet to judge accurately concern- ing it.
