WONDERS OF THE BICYCLE.

On September 9th, at Springfield, Mass. a bicycle rider named Zimmerman, smashed the records of bicycle riding into smithereens by making a mile 2.6 4-5. On a previous attempt on the same day and track, he made a half mile in 1. 1-5. These records put Zimmerman so conclusively at the head of the procession of the world's bicycle riders that his time must be compared with something else to show just how fast it really is.

trotting horse in the world, and yet Zimmerman on his bicycle has made a mile in one-fifth of a second less than she has trotted a mile on a regulation, that is an elliptical track. It seem hardly possible that a man mounted on a seat between two wheels in the same Fredericton has to boast of. plane should be able to propel himself faster than the speediest trotter in the world has gone, but the record is indisputable.

tomed to see boys and young men perched above a high wheel with a smaller much danger attendant upon climbing so high, and the frequent "header" was a thing not to be despised. Now, nearly property is in a condition to delight the the eye. every corner we turn we come across sanitary inspector but your neighbor's The left leg being more frequently the of men. Indeed, in the American cities. ladies are among the most delighted and enthusiastic riders of safeties, and children learn to ride them almost as soon as they can walk alone.

military manœuvres, in the mail carrying service and in a variety of ways, until their usefulness has become an establishat the same time, and this is preminently the case with the safety bicycle. All riders cannot be Zimmermans, but all can derive a vast amount of healthful and pleasurable exercise from the wheel.

THE EXHIBITION.

As the time approaches for the holding of our exhibition people are beginning to take quite an interest in it and it is ex- Tribune-just as the choir was singing able prizes for the Agriculturist's brightest pected that this year's will be a greater success than that held last year by the Agricultural Society. Upon the success of an exhibition depends very largely the adds two thirds at least to a successful aunt by saying: show. It is to be hoped therefore that the gods will favor us on October 5th, 6th, and 7th and the sun will shine forth in all its glory on those days.

The management of the exhibition will have everything arranged in the best of order and the programme of amusements already drawn up promises to surpass anything in the amusement way heretofore presented for the entertainment of our visitors. It is expected that several thousand people will be here during exhibition days. We predict success and Hadson River had never seen the famous competition line that we have ever placed behope to see our predictions verified.

THE ELECTIONS.

the Legislature has yet been made. Both government and opposition supporters are south end, and one in the middle, and as the train approached each would notify the other so as to secure a good look at the wrong words will simply not be fore another session. The opposition are apparently preparing themselves for any immergency and already a number of tickets have been formed. It is, we are vince. The government are as confident artless, pretty manner. of success as ever and a hard determined fight will be the result.

The committee appointed at the recent Board of Trade Meeting have been canvassing the town during the past week as he told the story in confidence. and have met with fairly good succes. There does not appear however, to be tion to secure the right to run a line of miles.

teamers on the St.. Jonn River and their idea would be to make connection with their line at St. John and bring Americans up the river, selling tickets direct from Boston to Fredericton and return. Such a move would be an admirable one and the benefits to be derived from such as arrangement would be great. We only hope that some definite plans will be de cided upon and that next seson will see a superior line of steamers bringing hundreds of american tourists to our beruti-

The sentences passed upon the desperadoes "Buck" and "Jim" by Judge Fraser, at Dorchester, on Thursday were such as the circumstances of the cases would call for, and although the extreme penalty of the law was passed upon both prisoners they richly deserved it and could not expect it to be otherwise. There is no doubt that both "Buck" and "Jim" have been desperate characters for years past and dangerous ones to be at large. They have come to that end which all such characters must come to sooner or later and their fate should, and undoubtedly will be, a warning to others who are following in their footsteps.

The roadmaster has been having a number of our shade trees, on the differ-Nancy Hanks is probably the fastest ent streets, trimmed this week and good judgement has been used in the removal of those branches which hung too low and in many cases spoilt the appearance of these beautiful elms. We are glad to see that an interest is taken in our trees as they are the greatest attraction that

Domestic, Social and Literary

The early Celts worshipped the dawn and the sunrise. It is more than probable, therefore, that their liking for the color green, which we see in their flags sashes, etc., arose from a mistake among those who had lost a thorough knowledge of the Irish language. The Sun, in Celtic, is called by a word pronounced exactly like our word "green," and it is likely that the Irish fondness for that color arose words. In the same way when we talk about a greenhouse we think they are so called because plants are kept green in them during the winter; yet it is far more probable that the word is derived from the old Celtic word for the sun, because greenhouse are so built as to catch the

for future use. At a cricket-match played in the park of a well-known baronet in Sussex there the Governor General, Ottawa, Canada. was a scarcity of available tallent. It was necessary, in consequence, to secure the services of one of the footmen of the hall as umpire. In due course the baronet his master, went in, and the village bowler was put on. The second time he owled, the baronet stopped the ball with his leg, and the cry of "How's that?" was

rays and heat of the sun and store them

It was the footman who had to answer, and, turning to his master, he exclaimed, n a half-apologetic tone, "I'm afraid I must say 'Not at home,' Sir George." "Not at home!" cried the baronet,

What do you mean?" "Well, then, Sir George," James made answer, "If you will have it, I mean that you're hont!"

The fact that people lost on a desert or will not be fooled and which makes no in a forest invariably walk in a circle is infection. This is the first and great in 55 per cent, the left leg was the longer. The result of one limb being longer than You must keep yourself away from the other will naturally be that a person one trailing behind it, but the sport was cholera. To do this be clean, be sober, will unconsciously take a longer step not in the best of repute. There was too be cam. Do not run away at the first with the longer limb, and consequently whis er of danger, for fright is one of will trend to the right or left, according as the last conductors of disease known to the left or right leg is the longer, unless the d ctors. See not only that your own the tendency to deviation is corrected by
