NOMINATION DAY

THE GOVERNMENT SOLID YORK.

Messrs Blair Wilson Anderson and Colter

Will Address the Electors at the City Hali this Afternoon.

Everything points to an easy victory for the government candidates of this county, while the province throughout will undoubtedly are for Cash Only. return enough government supporters to give a good working majority. The Blair administration, since taking the reins of goverment. nine years ago, has been heartily endorsed by the people of this county three times, while the province hes given a verdict twice that leaves not a doubt about their confidence in the present government. York has good Happenings of the Week Throughout the reason to be proud, and is proud, of the fact at she can hold the premiership of the province, and it is not at all likely, because some parties through spite and jealousy, desire to oust the Attorney General from power, that the sensible and true friends of the county are going to put in their votes for three candidates and a crank, who, as Mr. Allen, one of the opposition candidates, stated at the City Hall, Wednesday night, did not propose to show their hand to the people, before the people put them in power. The electors of this constituency are not to be caught by any such chaff as the opposition party have to offer in the shape of reform. Mr. Allen has twice before been refused by the electors, and as a man, we have nothing to say against him personally, but the election on the 22nd will, without doubt, be another defeat added to his list. Captain Howe may, and probably is, a good man as far as we know, in his proper element, but in offering himself as a candidate to represent this constituency, he is aspiring like Hood's Sarsaparilla, to effect a cure. to a position that, if indications point to any-

Mowatt, on a certain 5th of November, to the orangemen, and when asked to publish it refused, using words to the effect that the orangemen were a "drunken pack" and he wanted nothing to do with them. Both as orangemen and temperance men, the two government candidates, Messrs. Wilson and Colter, are equal in every and superior in a great many respects, to the man who has always supported the government, and thinks by this move to pull the wool over the eyes of the electors.
