**Body of Montgomery Not Yet Recovered.**

The body of Edward Montgomery who disappeared so strangely at Spruce lake St. John, this week while fishing had not yet been found. The Sun says:—It is alleged William Prime, who accompanied Montgomery to Spruce lake, tells different stories concerning the disappearance of the young man, but those who have conversed with Prime are inclined to the belief that he is telling as near as he can, all he knows about the affair. The young man was terribly excited and worked up over the disappearance of his companion when he reached Carleton Wednesday evening. Thursday Prime, in company with John Montgomery, father of Edward, went to Spruce lake, but Prime's memory as to the exact locality where he last saw Edward Montgomery appeared defective. The father of the young man, feeling that Prime was not telling all he knew about the disappearance, had Prime taken in charge by the police, for the purpose of having him examined before Police Magistrate Ritchie. The latter questioned the young man, and answers which appeared quite satisfactory were given and Prime was allowed to go, the magistrate having no power to hold him, as no information had been made. Prime afterwards returned to the lake and with others continued the search until dark.

The lake has been pretty thoroughly searched and the failure to find the body has been the means of putting in circulation a number of stories.

A very sad drowning accident occurred last week at Lot 11 shore, by which two young men named Crossman and Peters lost their lives. It appears that they left Milligan's lobster factory Thursday afternoon in a sail-boat, with the intention of going to Crossman's house, Raynor's Creek, Lot 17. Nothing further was known of their whereabouts until the body of Peters was picked up on the shore Saturday in a nude state. It is supposed that the boat swamped, and they were drowned in the attempt to swim ashore. Crossman has not been found up to latest accounts.—Ch'town Guardian.

Congratulations have been pouring in to Mr. Cleveland from all parts and from persons in all positions in life.

The heavy maned and long tailed horse belonging to a few St. John gentlemen will be put on exhibition at Charlottetown on July 1st. The Democratic National convention at Chicago selected Grover Cleveland as their standard bearer. The only ballots taken resulted as follows:—

Whole number, 902 1/2  
Necessary for choice, 607.  
Cleveland, 617 1/2  
Hill, 112  
Boies, 102  
Gorman, 36 1/2  
Stevenson, 16 1/2  
Morrison, 5  
Campbell, 2  
Pattison, 1  
Whitney, 1  
Russell, 1.

A motion was made and carried to declare Cleveland nominated by acclamation.

Mr. Cleveland made the following statement after his nomination: "I should certainly be chargeable with dense insensibility if I were not profoundly touched by this new proof of confidence and trust of the great party to which I belong and whose mandates claim my loyal obedience. I am confident our fellow countrymen are ready to receive with approval the principles of true democracy and I cannot rid myself of the belief that to win success it is only necessary to persistently and honestly advocate those principles. Differences of opinion and judgment in Democratic conventions are by no means unwholesome indications, but it is hardly conceivable, in view of the importance of our success to the country and the party, that there should be anywhere among Democrats any lack of unanimous and active effort to win the campaign which opens before us. I have therefore no concern on that subject. It will certainly be my constant endeavor to deserve support of every Democrat."

Lieut. Governor Angers of Quebec, has donated \$100 towards the Sir John Macdonald national memorial in Kingston and will inscribe his signature in the autograph album: Sir Leonard Tilley has also contributed, and the autograph album will be sent to St. John, N. Lady Somerset will shortly start a newspaper called the White Ribbon, devoted to the elevation of womanhood, to the advancement of temperance, and to the labor question. The arrangements for the paper are complete, and the capital of £10,000 has been subscribed. Lady Somerset will be editor in chief, assisted by the Duchess of Bedford, Lady Carlisle, Mrs. Pearsall Smith, Miss Frances Willard, and other women prominent in the cause of reform.

Lady Somerset has given a number of delightful teas since her return, some time ago from America. At these teas she entertained her friends between cups, with the stories of her strolling in New York, and of the hunger and misery she witnessed there. These stories have given a stimulus to the jaded appetites of a number of the listeners, and are said to be quite a cure for dyspepsia.

A terrible accident occurred on board the new French cruiser Dupuy de Lome, 6,500 tons. Orders had been given for the vessel to make a trial of her machinery, and while this was in progress the end of one of the boilers was blown out. The fire room immediately became filled with scalding steam and suffocating smoke caused by the water reaching and extinguishing the fire under the boiler. To make the situation worse the electric lights went out and the fire room was left in darkness, all the furnace doors being closed. The engineers, who were in the fire room at the time, and the stokers were unable to escape until the chief engineer and outsiders rushed down the fire room ladder and broke open the door of the compartment. Then a most horrible and sickening sight presented itself. Men were lying on the deck delirious from the pain caused by the terrible injuries they had received. Fifteen were dying when removed to the ship's hospital and many more will die.

After losing their vessel the men drifted around three days and nights with no food. They had given up all hope when they attracted the attention of the crew of the French fishing schooner Florence of St. Pierre, and were taken on board.

### HOW TO KEEP FROM DROWNING.

**Some Practical Hints which may be Useful in an Emergency.**

If you cannot swim, and should fall overboard, stand in an erect position and "read water." To do this, use your legs precisely as though you were walking up stairs. You should also paddle slowly up and down, alternately, with your hands. In case it should be necessary to remain in the water a long time this operation may become tiresome, in which case you may rest yourself by lying flat upon your back with your legs close together, and arms extended at full length backward until your hands touch. This position can be maintained almost indefinitely without appreciable effort. Above all, keep your mouth shut, and preserve your presence of mind.

Rev. D. Chapman of Marysville, and Rev. Messrs. Weddall, McConnell and Gough left Tuesday to attend the N. B. and P. E. I. Methodist conference at Charlottetown.
