lightning struck and tore off the pine-apple and three top stories, but this injury was repaired as soon as possible afterward and the building would doubtless have survived for centuries longer had not the Taiping rebels destroyed it in the year mentioned in the opening.

THE RING.

McAuliffe and Bruce.

The New York Press of the 27th says: The articles of agreement for the fight between Jack McAuliffe and Dick Burge, for which the Coney Island Athletic club have offered the unprecedented purse of \$45,000, are not satisfactory to the principals and new articles will have to be drawn up. The representatives of the men were to have met last night, but both parties wanted more time to consider and the meeting was postponed until to-day.

The Burge men object to posting such a large amount as \$10,000 as a forfeit, which McAuliffe requires, but are willing to post \$2,500 as a guarantee of good faith and that their man will appear in the ring. The officials of the Coney Island Club say they are satisfied with the smaller amount, so there is not much doubt but articles which are mutually agreeable will be signed to-day.

The officials of the Coney Island Club think as long as they have offered such a large purse they should have something to say about the arrangements, which the principals seem to take into their hands entirely. The club will present articles to-day, which the men will be obliged to sign or the match may be declared off.

There are no signs of relief from the horrors of a hard winter. In Sebastopol he learned that cholera is raging severely on the Circassian shore. Hundreds of deaths have been reported in the last fortnight. The Eppendorf hospital is treating 38 cases of cholera, of which eight are of an exceedingly virulent type. There was one death from cholera at the hospital. Without doubt the disease is making steady, although slow progress. General uneasiness prevails, especially in mercantile circles, which are still under the burden of last fall's losses.
