**Run Over.**

A little fellow named Hughey was run over on King Street Monday last by a resident of St. Mary's and was very badly hurt his ribs being broken besides receiving other injuries. It is an everlasting disgrace on the part of the police authorities of Fredericton this reckless driving is allowed on our public streets. Several hair-breadth escapes have occurred during the last few weeks and this latest accident will surely cause the police magistrate to have a stop put to it.

Mooney & Sons of St. John have obtained an order from the county court Judge under the absconding debtor's act, authorizing them to seize all his property, real and personal, unless he returns within three months and discharges his debts. Messrs Mooney & Sons' claim is understood to be in connection with the building of the station for the New Brunswick Electric Light Company in which Mr. Calkin was largely interested. Mr. Calkin went away about three or four weeks ago, and is believed to be with his brother in Bangor.

On Oct 15, plaintiff said she was in her back garden, when a large baboon, which had broken loose from defendant's yard sprang upon her. The animal gnawed her head, and bit and scratched her arms, hands and back. She was under medical treatment five weeks, and was still deaf from the effects of the injuries. The same monkey had, it was said, on different occasions attacked other women, and one of them deposed that it sprang upon her in her back yard in Whitechapel in May last. The jury found for the plaintiff, giving £10 damages.

**REV. MR. ADAMS APOLOGIZES.**

**For the Language Used Last Sabbath Evening Respecting the Naval and Military Officers.**

Rev. Mr. Adams, of the First Baptist church at Halifax, last Sabbath evening used very strong language in speaking of the Military and Naval officers at that place. He stated that the officers at Halifax had been so contaminated by contact with them that decent young men had to go to some other place to find themselves wives. He has since changed his mind and published the following apology in the Halifax Mail:

Sir—I have awakened to the serious nature of the remarks I made last Sabbath evening, in the heat of a temperance meeting, and wish first to say that no one but myself is responsible for the statements I made in that five minutes speech. The First Baptist church, of which I am pastor, in no way or degree endorses those statements, and I hope to not suffer through my mistakes. My statements of last Sabbath evening were made from hearsay, for which I have no facts. In the fervor of the meeting I became excited, and without thinking of my grounds, uttered rash words, involving the reputation of many. To-day I have learned many good things, from those who know, of the military, which I never knew before, and which disprove my statements of last Sabbath evening. With the conviction that I made a grave mistake in speaking as I did in the excitement of the moment, without facts, and now possessing knowledge which proves my statements untrue, I must humbly apologize to all persons attacked in that speech for misrepresenting them, and ask their forgiveness.

H. G. Adams.

Yesterday afternoon our streets presented a very gay appearance, the fine weather and excellent sleighing bringing out nearly every available horse and sleigh in the city.

The death of Mr. Frank Gillman, of Bangor, which occurred on the C. P. R. on Tuesday last was a great shock to his many friends in Fredericton, and expressions of sympathy were freely bestowed on his afflicted wife and children by all classes of our citizens. Mr. Gillman was a good man in every sense of the term, upright and honest in all his dealings, and kind hearted in the extreme.

At Ottawa the public accounts of the last fiscal year were issued Thursday. The total debt of the dominion is put at \$289,899,229, the assets at \$52,090,199, and the net debt at \$237,809,030, an increase during the year of \$275,818. The net rate of interest was 2.93 on total payments of \$9,354,136. The receipts on account of consolidated fund were \$38,579,310, a decrease of \$1,520,000, while the expenditure reached \$36,343,567, an increase of \$350,000. The surplus on the year is placed at \$2,235,742. The receipts from taxes were \$30,314,151, of which the customs contributed \$23,399,000 and excise \$6,914,850.

The Globe last week gave a forecast of the probable result of the aldermanic elections, and its predictions turned out to be precisely correct. It anticipated the likelihood of one or the other of the "ticket, Messrs. Randolph and Richey "getting left," and such was the result, Duffie leading the poll and Randolph next.—Mr. Richey, who made every inducement to bring out a third candidate being the sufferer thereby. Aldermen Walker and Farrell each led in their respective wards with a big majority. Mr. Everett takes the place of ex-Alderman Estey, defeating M. S. Hall by a few votes. The new council then will have only two changes from last year, viz. Messrs. Duffie and Everett who take the places of Messrs. Richey and Estey.

The estimated cost of a heavy freight and passenger bridge between St. John and Carleton is about \$500,000, including expenses and the land damages. The city of St. John's share would be \$250,000, the interest for which would be \$10,000. The "Sun" says: "The deficit of the ferry is about \$12,000 per year, and therefore by relieving the city of the burden of maintaining the ferry, a free bridge might be maintained and a sinking fund kept up without increasing the burden of taxation. In fact, as in a few years the ferry steamers will have to be rebuilt or re-placed, the annual expenditure will be greatly increased. Thus, from a financial point of view, the bridge would be economical for the city. It also would be in the interest of the C. P. R., as that road now pays a very large sum to the bridge company for the use of the bridge at the falls. The sub-committee were instructed to continue the negotiations and report on specific proposals.

**How Tommy Callaghan was Knocked Out Last Wednesday Night.**

The international featherweight contest Wednesday night, at the Olympic club, between Tommy Callaghan of England, and Cal. McCarthy of New Jersey, was witnessed by about three thousand people. The men fought for a purse of two thousand dollars of which fifteen hundred goes to the winner and five to the loser. Five-ounce gloves were used. The fight was a hot one all through both giving and receiving heavy blows. The first knock down was scored by the Englishman, who sent his opponent to the floor twice in the second round, while the first to bring blood was the New Jerseyite, who tapped the other's nose in round ten. The fourteenth round witnessed the end of the fight, McCarthy, who acted all round, on the defensive, knocking Callaghan completely out by a left-hand upper cut in the stomach. Callaghan fought the whole time with one hand and only a few times attempted to use his right which was badly broken six weeks ago on young Dwyer's head. He put up a wonderful fight and won the admiration of the crowd by his clever ducking and gameness. The winner will now be matched with George Dixon for the world's championship of bantam weights. The battle will likely take place in the Olympic club arena next October. The purse will be five thousand dollars, with a side bet of three thousand.

Authentic information was received at Ottawa from England that the Chilean government has purchased the new cruiser now being built at Armstrong's shipyard, Newcastle, and that her completion is being rapidly pushed. According to reports just received, the locusts are marching southward without abating the line of the Cordillera, or approaching the centre where there are important crops. All the settlers and the caciques were soon to collect together in order to form a body of 4,000 or 5,000 men, with the object of attacking the insects and destroying them with fire.

**CURLING FOR A BRIDE.**

A Father Offers his Daughter's Hand as a Prize in a Muscular Contest.

The game of curling is, without exception, one of the most exciting and interesting played. The following story is told:—

"A laird in Strathaven, who owned a quarry and was reputed to be worth a' gey twa-three hawbes besides" was playing one day, and his foreman, whose name was Lawrence, was playing with him on the same side. The laird was very anxious he should take a certain shot, and he cried out in this fashion:—"Noo, Jock Lawrence, d'ye see whaur my broom is! **Twenty-fifth Anniversary.**

The observance of Bishop Neely's twenty-fifth anniversary took place at the Cathedral Portland, Me., on Monday last. It was marked by the elaborate ceremonies, by the display of clerical vestments and the other insignia used in Cathedral worship. The special services began at 9 a. m., when prayer was said, the services being choral with a full choir. The service of prayer was conducted by Bishop Neely, Canon Sills, and Bishop Kingston. At 11 a. m. the doors of the vestry opened, and the procession emerged, the cross and labarum of St. Luke's in the van, followed by the boys of the choir arrayed in their familiar cassocks of black and surplices of white. Following them came a procession of the clergy. In the foremost rank was Bishop Neely, attended by Coadjutor Bishop Kingston of this city. Bishop Neely wore the black robe and full white lawn sleeves distinctive of a Bishop of the American church. Bishop Kingston, however, comes from the Canadian church, whose ceremonial are probably much nearer those of the Established Church of England; and he wore a striking robe of scarlet instead of the black robe of the American church. Bishop wears also the knee breeches which are characteristic of the bishops of the English church.
