

THE WORLD OVER

The Spirit of the Press of all Countries

A Synoptic History of the Times.

Revised and Arranged for every-day Convenience.

A double murder occurred in an old hotel near Brighton, a suburb of Rochester, N. Y. The hotel had been set on fire and two persons burned to death. The house which had long been deserted had been used as a boarding house for a gang of Italian laborers. The row began in a drunken carousal Sunday, during which one Italian was shot and is supposed to have been killed. The fight was resumed Monday night and one of the combatants was stabbed. The building took fire at 7 Tuesday morning and burned like tinder. Two of the boarders are missing and it is believed their bodies are in the ruins.

A train on the Lake Shore road was held up near Kendallville, Ind., late last Monday night by a score of masked men. They shot and seriously wounded the engineer of the train when he refused to throw up his hands. Dynamite was exploded under the express car, while armed guards were placed at the door of each car of the train. The messenger of the express car was beaten into insensibility, the safe blown open with dynamite and it is said the robbers carried away \$250,000 in gold that was being shipped east by a Chicago bank. None of the passengers were molested. The express car was the one used by the United States Express Co.

The New York Herald's cable from Montevideo, Uruguay says: "The Brazilian naval rebels are having a hard time of it. Hemmed in within the Bay of Rio they fear to run the gauntlet of forts and torpedoes at the entrance and put out to sea, and an attempt to land has been repulsed with considerable loss of life. The English consul has warned all British vessels of the risk of putting into Rio."

Fire in the lumber yards of the Pullman Palace Car Company in the town of Pullman, this week, caused a loss of a quarter million dollars. Twenty acres were burned over and between nine and ten million feet of lumber destroyed.

M. V. Cannon, president of the Irish National League of America, is in Chicago. He says the alleged manifesto sent out from New York city on Sunday night never came from the executive committee of the league and he repudiates it altogether.

Dick O'Brien, welter weight of Maine, knocked out Maffit Flaherty Monday night at the Cribb Club Boston in the second round.

Rev. G. P. Regaris, a prominent Dunkard preacher, aged sixty years, hung himself at Salemville, Pa., on Monday morning. He held the service the previous evening and appeared to be then in the best of spirits.

Lord Hannen, who was on the Behring Sea arbitration, has definitely resigned as Lord of Appeal in Ordinary, and Sir Charles Bowen has been appointed to succeed him. Sir Charles, who was regarded as one of the soundest lawyers at the bar, was made a Judge at the Court of Queen's Bench in 1879 and in 1882 a Lord Justice of the Court of Appeal. The vacancy will be offered to Sir Horace Davey, C. C., the off-defeated Liberal politician, who is now on his way home from South Africa.

Mrs. Halliday, who killed the two women and her husband at Middletown, N. Y., recently, is believed now to have fired the barn in which her stepson was burned. She told her late husband that she had killed her first husband, and described the way she did it; but he did not believe her. He told his son of it, however. That the woman has a terrible thirst for blood is certain, and there is a most ingenious theory in some of the papers by which it is sought to connect the activity of her passion with the fact that it had the fiercest hold upon her at times when she expected to become a mother.

In every Episcopal church in Washington on Sunday prayers were offered for the recovery and health of Mrs. Cleveland and her youngest daughter. At Epiphany, the largest Episcopal church in the city, every pew was filled, and when the priest began the eloquent invocation every head was bowed, and, but for the sound of the voice of him praying, a stillness of death existed. For several seconds after the conclusion no one of the kneeling figures stirred, and the vast congregation seemed rapt in silent prayer. In Washington Mrs. Cleveland is loved as few wives of presidents have been; and though a Presbyterian, and a strict member, yet the Episcopal church paid her a pretty testimonial affection.

A fragment of bas-relief discovered in Egypt has shown how the obelisks and other large monoliths were transported from the quarry to their site. The stone is depicted upright on a great galley or vessel, which is being towed by a number of small boats alongside. This method of detaching a monolith from the mother rock is also explained by a semi-detached block in one of the quarries of Syene. After having been hewn clear on three sides, a deep groove was cut into the side still attached to the rock, and holes were pierced into which dry wooden pegs were driven. The pegs were then wetted, and the wood in swell-

ing broke off the monolith from the quarry.

A despatch from Paris says: General De Mirabel was thrown from his horse at Hauterive this week and received injuries which caused his death.

There has been a severe outbreak of cholera in Leghorn. 285 cases and seven deaths were reported one day this week.

A new estimate of the British wheat crop for 1893 has been published. It puts crop in round numbers at 54,000,000 bushels, which is slightly under the last estimate given out. The imports continue large, and the receipts from Canada are expected to be greater. With a British consumption of 220,000,000 bushels from all sources it is believed there is a possibility of higher prices.

For Sunday Contemplation.

No man shall ever be poor that goes to himself for what he wants.

Good manners is the art of making people easy with whom we converse.

He that rebukes a private fault openly betrays it rather than reproves it.

People who blow their own horns seldom furnish good music for other folks.

Those who are formed to win general admiration are seldom calculated to bestow individual happiness.

A little love rapidly develops the sensibilities and intelligence of women; it is through the heart that they ripen or mold.

A man is relieved and gay when he has put his heart into his work and done his best but what he has said or done otherwise shall give him no peace.

A man can carry his mind with him as he carries his watch; but like the watch to keep it going he must keep it wound up.

The manly way is to treat lightly the judgements passed on us by others, but to be honorably sensitive about the judgements we are compelled to pass on others.

No man ever realizes how poor a son he was until he gets into his father's place by becoming a father himself. Then he finds how much love and thought and toil were expended upon him, which he took as a thing of course, and with hardly a thought of thankfulness.

In no way is self-mastery more distinctly shown than in a diminishing self-consciousness. Many good men are hampered and distressed by self-consciousness: by the fatal intrusion of self at the moment when a clear field and a clear vision are necessary.

Men can be as original now as ever if they had but the courage, even the insight. Heroic souls in old times had no more opportunities than we have but they used them. There were daring deeds to be done—are there none now? Sacrifices to be made—are there none now? Wrongs to be redressed—are there none now?

Don't sit down with a long face and "hope for something to turn up." Spring to your feet! Grapple with every adversary, and never fear to give battle in duty, virtue, truth and justice! I hope that something will turn up! For shame! Nothing will "turn up" till you turn it up! Go at your work with a will, with an indomitable determination and make dust fly from obstacles, then things will have turned up to your satisfaction and you will have results to show.

One Honest Man.

TO THE EDITOR OF THE GLOBE:
Please inform your readers that I will mail free to all sufferers the means by which I was restored to health and manly vigor after years of suffering from Nervous Weakness. I was robbed and swindled by quacks until I nearly lost faith in mankind, but thank to heaven, I am now well, vigorous and strong. I have nothing to sell and no schemes to extort money from anyone whomsoever, but being desirous to make this certain cure known to all, I will send free and confidential to anyone full particulars of just how I was cured. Address with stamps:
MR. EDWARD MARTIN (Teacher),
P. O. Box 143, Detroit Mich.
May 20—4m.

ERIE MEDICAL CO., Buffalo, N. Y.

SISTERS OF PROVIDENCE.

A Chat with the Secretary of St. Mary's.

She explains why the Sisters and their Pupils are so Healthy—Due to strict Rules of Hygiene and the Medicine used in the Home—Insomation of Valneto Everybody

From the Terre Haute, Ind. Express.

Four miles to the northwest of Terre Haute, lies the beautiful and picturesque village of St. Marys. This is Roman Catholic institution which has attained something more than national celebrity. Fifty years ago it was established by six sisters of Providence who came from the shores of France to lay the foundation for this great charitable order. It now consists of the home of the Sisters of Providence, known as the Providence House; a large female seminary, one of the finest chapels in the United States, and a Rectory in which the priests make their home.

A reporter of the Express while being shown through the establishment recently asked Sister Mary Ambrose if there was any apparent reason for the good health with which the sisters and their pupils are blessed.

The answer was that particular attention is paid by the sisters in charge to the health and happiness of the students. Bodily ailment, she said, "cannot help but have its effect on the mind. In order to keep the mind bright and active and perfectly clear at all times, the student's condition must be as nearly perfect as possible. Some time ago there was more or less ailment noticeable among the sisters and students, which was probably due to atmospheric causes, though of course I do not know just what its origin really was. Shortly after this became noticeable a friend highly recommended a medicine called Dr. Williams' Pink Pills for Pale People and so urged upon me to give them a trial that I ordered some of them and they have been used in the institution ever since. A few days ago the manufacturers wrote me for an opinion of Pink Pills and my reply was as follows:

RESPECTED SIRS—In answer to your kind request for our opinion of Dr. Williams' Pink Pills, are pleased to say that these pills were so highly recommended to us that we were induced to try them and we think our repeated orders for them are sufficient evidence that we find them all they are represented, a good blood builder and an excellent nerve tonic.

Yours very respectfully,
SISTER M. AMBROSE,
Secretary for Sisters of Providence.

Medical scientists concede that weak blood and shattered nerves are the fruitful cause of nearly every disease to which human flesh is heir, and if Dr. Williams' Pink Pills is, as Sister Ambrose says they have found it, "a good blood builder and an excellent nerve tonic," the source of good health at St. Mary's is easily traced. Sister Ambrose said they are never without Pink Pills, and that now they order a gross at a time.

This is certainly a very high recommendation for the medicine, for there is probably no class of people that gives more attention to the physical health and welfare of its members than the Sisters of Providence, and they would not use anything in which they did not have unbounded faith.

Dr. Williams' Pink Pills are truly one of the greatest medical discoveries of the age. They are the beginning of a more healthful era. Every day brings reports of remarkable cures that have resulted from the use of this wonderful medicine. In many cases the good work has been accomplished after eminent physicians had failed and pronounced the patient beyond the hope of human aid. An analysis proves that Dr. Williams' Pink Pills contain in a condensed form all the elements necessary to give new life and richness to the blood and restore shattered nerves. They are an unfailing specific for such diseases as locomotor ataxia, partial paralysis, St. Vitus dance, sciatica, neuralgia, rheumatism, nervous headache, the after effects of la grippe, palpitation of the heart, that tired feeling resulting from nervous prostration; all diseases depending upon vitiated humors in the blood, such as scrofula, chronic erysipelas, etc. They are also a specific for troubles peculiar to females, such as suppressions, irregularities, and all forms of weakness. They build up the blood and restore the glow of health to pale or sallow cheeks. In the case of men they effect a radical cure in all cases arising from mental worry, overwork or excesses of whatever nature.

These pills are manufactured by the Dr. Williams' Medicine Company, of Brockville, Ont. and Schenectady N. Y., and are sold in boxes (never in loose form by the dozen or hundred) at 50 cents a box, or six boxes for \$2.50, and may be had of all druggists or direct by mail from Dr. Williams' Medicine Company from either address. The price at which these pills are sold makes a course of treatment inexpensive as compared with other remedies or medical treatment.

McMURRAY & Co.

HAVE JUST RECEIVED
