

The Kitselman WOVEN WIRE FENCE :- The BEST and CHEAPEST Fence on the Market.

THE KITSELMAN FENCE IS SOMETHING ENTIRELY NEW in the line of woven wire fencing, having a straight wire running lengthwise through every mesh or diamond, the mesh wires being twisted round each other as well as a round the straight or parallel wires, forming the **Strongest Woven Wire** network ever produced—in fact it is so far ahead of any other netting for beauty strength durability and general utility that a fair comparison can not be made. Every wire and every twist in this **Fence** is a brace to all other wires to all other twists the full height of the fence. The combined strength of the straight and mesh wires is more than double that of a fence made without straight wires. This fence obviates the very objectionable feature of sagging which is the fatal fault of all old style netting. **OURS is the Only Machine** that you can take on the field or any place and make a **Woven Wire Fence**.

Do You Want to Make Money? :-

If so, purchase a right for operating a machine in your parish or county. With one of these Machines you can get more fencing to do in your own neighborhood than you will be able to do with one machine. There is no fence on earth that will take like this one. You will, therefore, see that there are few enterprises that you can invest many times the amount in and make as much out of, as **EVERY MACHINE** will earn easily \$20.00 a day for its owner.

A report comes from Ottawa that Parliament will meet on Jan. 18 or 25, and that the proposed remodelling of the tariff will not commence until the members of the House reach Ottawa.

It is the opinion of certain of the foreign residents of India that the native population is growing more than ordinarily restive under British rule, and that it would only take a small spark to kindle a fire of revolution, far-reaching in its consequences.

A popular clubman is now being sued in the New York courts for divorce by his unhappy wife, who alleges cruel treatment as a reason why her petition should be granted. As a sample of this, she alleges that her husband on one occasion came home one morning at 4 o'clock, after having played poker at his club all night, and although he owned up to having won \$4,000, he only gave her \$10 of it. Let the decree be promulgated.

The Glebe House at Church Point, Digby, and the residence of the professors of St. Anne's Catholic College, was burned on Saturday night, together with the college library, the private libraries of the professors and valuable historical papers and documents of the college. The priests, professors and lay brothers, ten in number, barely escaped with their lives in their night clothes. The loss is about \$10,000, which is partially covered by insurance.

In the Russian army there is one particular regiment of infantry of the guards formed by Emperor Paul, the men of which are recruited, not so much with regard to their height or the color of their hair and complexion as to the shape of their noses. Emperor Paul had a typical Kalmuk nose, of the most exorbitantly up-tilted pattern, and since then, out of compliment to him, all of the officers and men of this particular regiment have noses of the same shape, the sight they present on parade being somewhat startling.

Ben Kennedy, who killed John O'Connor at Reed Island B. C. in June last, and afterwards led the police such a chase, has been sentenced to life imprisonment, the jury finding him guilty of manslaughter.

E. P. Barnard, an old and highly esteemed citizen of Toronto, Kansas this country, shot and instantly killed his wife, daughter and himself on Sunday. He was 80, his wife 63 and daughter 36. No cause can be assigned.

A London despatch says President Peixoto, of Brazil, has bought nine torpedo boats in Europe. They are guaranteed to steam 28 knots an hour and will start for Brazil at once.

The Herald's Montevideo cable says: Of the boats Peixoto has just purchased five were brought in Germany and are of the double-rammed class.

On Saturday night the home of a negro named Evans at Bardston, Ky., convicted of rape, was blown up with dynamite. Evans's aged mother, his wife and daughter who are known to have returned there on Saturday night, are nowhere to be found and it is believed they were blown to atoms.

The officers of the barque Wolfe, which arrived at Halifax a few days ago from Santos, say the reports about the fever at that place were greatly exaggerated. Among the crew of the Wolfe are a couple of seamen who were in gaol for some offence in Santos. They say the treatment of foreign prisoners is barbarous. For eight days one of the two was left without food. To keep from starving he watched the rat holes and caught and killed the rodents whenever he could. The prison floor is of earth. On this he would build a small fire and cook the loathsome food.

The will of the late Charles E. Brown, of Halifax, leaves all his estate to his wife and children. There are no bequests to charities. The estate is valued at \$100,000.

The Church of Notre Dame de Lourdes, at Fleet River, Mass., was destroyed by fire at an early hour Monday morning. Loss \$30,000, insurance \$16,000. The police think the fire incendiary, but have no clue.

The fourteen members of Princess of Wales Rifles, Kingston, prosecuted for disobeying orders, were tried at Montreal Monday and fined \$1 apiece.

Rev. Dr. Morrison, founder of the Scotch Evangelical Union Church, died at Glasgow Monday.

John H. McLaren, the greatest English authority on fire insurance, London, died at Birkenhead, Monday.

Three thousand of the striking miners in Lancashire resumed work Monday morning at the old rate of wages.

Henry Labouchere, in a letter to the press, declares the killing and wounding of 3,000 Matabeles by the British is but a disgrace to the government to permit such wholesale murder.

Actor E. J. Henley, whose wife is suing for divorce in Boston, is a member of A. M. Palmer's company, now playing at Hooley's Theatre. Mr. Henley was seen at the Tremont House and asked regarding the rumor that his wife, Mary Hampton, had in her complaint named as co-respondent a certain prima donna. Yes, it is true, and it is an infamous outrage, said Mr. Henley as he paced up and down his room. My wife and I separated about 15 months ago on account of incompatibility of temper. If she wanted to mention instances of infidelity on my part

she could easily have found them. It wasn't necessary to slander this young lady. She has the best reputation of any woman on the stage, and it is the vilest calumny to mention her name as has been done in this suit. It makes me furious, and if I was where this started I am afraid I'd do something dangerous.

Mr. Robert L. Reade and his wife, who was formerly known as Josie Mansfield, have agreed to separate. Mrs. Reade will remain in Paris and her husband will return to New York. It was on her account that Edward S. Stokes killed James Fiske Jr., on the stairs of the Grand Central Hotel. Reade and his wife have placed their differences in the hands of New York lawyers for the purpose of arranging an equitable financial basis of their separation. Mr. Reade has expressed a willingness to make a handsome provision for his wife.

There is trouble in the ranks of the Tenth regiment, Royal Grenadiers, in Toronto, over the prospective promotion of Major Mason to the colonelcy. The Toronto News says: "Than Major Mason there is no more capable officer in Canada but if all the talk in town is to be listened to he is guilty of a heinous crime in being a Roman Catholic. The fact that many of the most gallant officers who ever fought for Britain have been Roman Catholics does not seem to have entered into the discussion, for it is said without reserve that if Major Mason becomes colonel a large proportion of the men will leave as soon as they can." Some orators are urging their brethren to stay in the ranks on the ground that if they resign their places will be filled by Catholics.

Boston Herald: The fact that Dr. Playfair, of London, who is a brother of Lord Playfair, has lately received a fee of \$12,000 for attendance upon a royal patient, is being extensively commented upon over there as a very pretty fee, but it is not so large as is frequently paid for similar services by less distinguished persons. There is a lady in this city who entered into an arrangement a short time ago with a London physician for his exclusive services for a period of six months, for which she agreed to pay him the magnificent sum of \$100,000. He performed his part of the contract, but the lady, for reasons which she deemed sufficient, failed to carry out her agreement, and the case was lately compromised here by the payment to the physician of \$25,000. Probably this is the largest fee ever paid in Boston for medical attendance for third period of time.

One Honest Man.

Men who are weak, nervous, broken down; men who suffer from the effects of over-work, worry, from the follies of youth or the excesses of manhood; men who have failed to find a cure, **do not despair, do not give up!**

A Sure Cure for Billiousness.

Mr. M. Rooney, a well known Halifax merchant, writes: I am using Hawker's Liver Pills and can recommend them as a sure cure for billiousness. What Mr. Rooney says is endorsed by thousands who have tried these pills. Once tried they are always sought for when the trouble recurs. They are easy to take, exceedingly mild in their action and effective in a marked degree.

TARIFF REFORM IS NEAR.

McKinley Must Give Way Before the
New Bill.

WASHINGTON, November 11. Ten days or a fortnight will probably see the new Democratic Tariff Bill given to the public. The policy of a revenue tariff will be pretty closely adhered to in dealing with raw materials and partially manufactured goods, and considerable cuts will be made on finished products. There are reasons for saying that the Democratic members will embody in the Bill substantially all the "pony" tariff bills which passed the House in the Fifty-second Congress—providing for free wool and reduced duties on woollen goods, free silver ores, reduced duties on tin plates, free cotton bagging and free tin; the free schedule may be slightly modified in the definitions of goods, but it is believed that the duties will remain substantially the same, the maximum being forty per cent, and the ad valorem rates below that figure being generally reduced five per cent. The provision regarding silver and lead ores will be substantially that enacted by the fifty-second Congress, that lead ores shall pay one and one-half cent per pound, but that ores in which the value of the silver is greater than that of the lead shall be considered silver ores and exempt from duty. The duty on tin plate is likely to be reduced two and two tenths cents to one cent per pound for the present, with perhaps a reduction after a few years to the free list. The bills which passed the House in the last Congress regarding cotton bagging and binding twine made both absolutely free of duty, but there has been some opposition to these provisions on the grounds that they were not in harmony with other parts of the tariff and a moderate duty may be retained. Block tin will probably be made free of duty, as was unanimously voted by the Ways and Means Committee in the last Congress at the demand of the tin plate manufacturers. The chinaware schedules will probably be reduced 10 per cent on the existing rates of 60 and 55 per cent. The McKinley bill restored the duty on coverings, which are a large element in the cost of chinaware, and practically made the increase in duty much greater than the apparent change in the ad valorem rate. The silk interest may not suffer much of a cut and the duties may be left at 50 per cent as under existing laws. The iron schedule will, it is believed, give the committee a good deal of trouble because of the conflict of interests between the New England members, who desire free ores and free coal, and the Democrats from Northern Alabama and Eastern Tennessee, who desire the retention of the duty. The threatened deficit in the revenue will be met by an income tax, if some of the Democratic members of the House who are urging the proposition are to be believed. The pressure has been strong to impose a moderate tax upon incomes above \$25,000 in preference to putting duties back on tea, coffee or sugar. Tom Johnson (Ohio) has protested very earnestly against restoring the sugar duty, and has had the support of other Western members in preferring a moderate income tax to a renewal of the customs duties on the necessities of life. The exact rate of the income tax has not been determined, but it will apply to all incomes above the amount named, with certain allowances for house rent and for losses through fire or other causes. It is calculated that an immense revenue can be derived from a very small tax upon the incomes earned by professional and business men throughout the country, and this will equalize the disproportionate burden imposed upon the poor by some of the tariff duties. The adoption of the income tax will practically settle the question of increases in the international revenue taxes on whiskey, beer and tobacco. It is possible that a very small increase will be made on whiskey, but the rates on tobacco are likely to be left untouched.

WHITWAY WELCOMED.

The Successful Premier Back to St. John's.

St. John's, Nfld., November 11.—The latest election returns show that Fortune Bay and St. Mary's have returned Opposition members, making the count stand thus:

	Seats.
Government.....	20
Opposition.....	11
Independent.....	1
Total.....	32

Probably the remaining four seats will go the government with one exception, leaving a good work majority for the Whitwayites.

Sir William Whitway returned here from Trinity yesterday. He met with a grand reception. Amid the music of bands and the shouts of the populace the horses in his carriage were detached and their places filled by men who hauled Sir William to his destination.

All the heads of the executive departments were returned except Mr. O'Dwyer the Receiver-General, who contested Placentia. Mr. Fox, the member for St. John's East, is expected to be O'Dwyer's successor as Receiver-General with an executive seat.
