TEACHER'S COLUMN.

Devoted to the Interests of the Provincial Teachers.

In Which We Publish the Entrance, Monthly and Final Examination Papers Used in the Normal School.

This Column is Open For Communications, and Will Contain Articles of Special Interest to Every Teacher.—Teachers Wishing for Information on Any School Question Can Obtain the Same by Enquiring Through This Column.

The trustees of school districts requiring teachers will find it to their advantage to advertise for same through these columns.

The new school building on York street is now completed and will be occupied at the re-opening after the holidays. The building although not so large as some others in Canada is finished throughout in the best possible manner, and reflects great credit upon the contractor, Mr. J. Limerick. The architect, Mr. J. C. Dumaresq, of Halifax, pronounces it one of the best finished school buildings in the

The Normal School opens the 1st of September. The student teachers especially the ladies, will receive a hearty welcome on their arrival in the celestial.

Inspector George W. Merscreau, of Doaktown, is taking a short course in the military school here.

Owing to a shortage in the number of ladies Journals received last month we were unable 'to supply all our subscribers who are entitled to them. They will be forwarded immediately.

#### SUMMER SCHOOL OF SCIENCE

The Last Session the Best in Every Respect The Summer School of Science began its old shed. The prompt action of a few people career at Wolfville seven years ago. It was intended to provide instruction in the natural and physicial sciences adapted to the needs of our provincial teachers and incidentally to make them better acquainted with each other and with the geography and resources of our provinces. These ends it has successfully accomplished with an ever increasing thoroughness. If has since met in Pictou, twice in Parsborro, in Antigonish, in St. John and lastly in the fair town of Sackville. In point of attendance and enthusiasm the sessions just closed has surpassed all the other sessions. The registered attendance was 105, representing Nova Scotia, New Brunswick and Prince Edward Island, Newfoundland and Masschu- John is equalled by the pleasing and picsetts. The retiring president of the school, Dr. Hall, of Truro, has been a large factor in its success. He has been ably seconded by the retiring secretary, W. T. Kennedy, Halifax and Professor Andrews, of Sackville, the local director, The authorities at Sackville afforded the school every facility for their work. The university building, with its valuable apparatus and collections, was freely used for classical purposes, while the academy and ladies' college were used for residence and Call on Anderson & Walker and examine | board. The school has thus been better domiciled than ever before, and, as a consequence, done more effective work The school, in addition to thorough class work, enjoyed the following excursions: A drive over the Tantramar marsh; an all-day excursion to Fort Cumberland or Beausejour and Amherst, where the overflowing hospitality of that enterprising town was thoroughly enjoyed, the factories visited and the new academy building inspected. On that occasion luncheon was served in the assembly hall of this new building and an address of welcome was given by the mayor, and suitable replies returned by the faculty of the school. Another excursion was taken to the Joggins, where, under the direction of Professors Andrews and Caldwell, the classes explored the carboniferous strata, collecting representative fossils and otherwise acquainting themselves with the characteristics of the carboniferous age. In the afternoon, all who wished went down into the coal mine on the incline 1,900 feet, with a vertical depth of about 600 feet. This was a novel experience to most of the school, and was thoroughly appreciated. On another afternoon the school visited Dorchester and were shown through the penitentiary buildings by the warden and his assistants. The "at home" or receptions given by Dr. and Mrs. Allison, Dr. and Mrs. Borden, were most enjoyable affairs; in fact, the heads of the several institutions, Dr. Allison,

ever on the alert to contribute in any way to the success of the present session. The school received several invitations for next year, one from Amherst, from Bridgewater, Fredericton and from Charlottetown After canvassing the matter somewhat, it was decided to go to Charlottetown next year with the expectation that the prominent island teachers will attend and that the government will furnish a small grant. Of the instructors eight are from Nova Scotia and five from New Brunswick. The president and secretary both belong to Nova Scotia. For the next session The Hayes property at St. Mary's presented to be opened in Charlottetown on July 4th,

Dr. Borden and Principal Harris, and their

estimable wives, were constantly showing kind-

ness to the school, and their attentions will

not soon be forgotten. Prof. Andrews was

Notes from Gagetown.

Numbers of summer tourists are paying us visits. The beauties of the St. turesque situation of our village, and both call forth admiration from all comers. Last week the Florenceville paid us a visit with its blithe company, and judging from the sounds 'floating on air' in the quiet evening we should say they were hard at work enjoying themselves.

A large number of McCaulay Bros. & Co's employees and their friends stopped at one of our popular boarding houses during the last week. Their outing seemed to be much enjoyed.

Ever and anon the popular insurance agent, Mr. Lee, pays us a visit. He is an energetic worker, and his company loses nothing when he is around.

We regret to chronicle the death of Mr. David Ebbett of Lower Gagetown Deceased was a bachelor gentlemen of sixty three. He was deservedly popular and will be much missed in the community. Mr. Thos. Williams lost his house by

Rev. William Hollinshed

"Unasked I deem it my duty to a suffering

humanity whose bodies and souls I would

have healthy, to tell them of the value of Hood's Sarsaparilla. While living in Ohio one of my children was greatly

Afflicted With Boils

having 30 on her limbs, and being unable to

walk. I had heard of Hood's Sarsaparilla,

and bought a bottle, half of which cured en-

tirely. Two years after, another child was

afflicted as badly. I used the other half

bottle of Hood's Sarsaparilla with like re-

sults. About four years after, the child first

afflicted was again tormented like Job, and I

bought a bottle (on Sunday at that) and

again a cure. I gave some of the medicine to

a poor woman and two children; they were

helped as were mine. Through a testimo-

nial sent to C. I. Hood & Co., inquiries came

from all the country, asking if it was a 'bona fide' testimonial, and of course I wrote all that it was, and have the knowledge of

Scores and Scores

Of persons helped or cured by Hood's Sarsa-

parilla. Mild cases of rheumatism have

yielded to it. Biliousness and bad liver have

been corrected in my own family. This is

the only patent medicine I have felt like

praising. I speak not for C. I. Hood, but for

the Jobs who are impatient and are tor-

mented beyond endurance. Nothing I know of will cleanse the blood, stimulate the liver, or clean the stomach so perfectly as

Hood's Sarsaparilla
