**W. T. H. Fenety**

**HOPSACK**

Jacket Cloths In Navy and Black.

**HOPSACK**

Dress Goods, in Navy, Bl'k & Colors.

**HOPSACK**

Braids for Trimming

—AT—

**DEVER :- BROS.**

### AGRICULTURE

#### Notes and Suggestions of Practical Utility,

FOR THE FARM, FIELD, GARDEN AND DAIRY.

Cleanings of Interest for Our Country Readers.

Save the best for seed.  
Destroy the fall webworms.  
Cut bushes on low land first.  
Improve the pastures this fall.  
Pack apples tightly in barrels.  
Breed sheep new for early lambs.  
Spread manure from the cart or wagon.  
Do not feed pigs more than they will eat.  
Long acres can be tended most economically.  
Do not burn potato tops unless they are rusty.  
Begin now to feed the turkeys for Thanksgiving.  
Taking time to do a job well saves time in the end.  
Cows and fattening stock must be fed well every day.  
Sell off surplus stock before the late fall rush comes.  
Save all the apples and feed out such as will not keep.  
Small fields make short furrows and many needless turns.  
If a pig will not eat raw pumpkins or beets, sell him alive.  
Do not let your wife cook with green wood another summer.  
Have all animals on the farm tame, especially breeding sows.  
Set a few blueberry bushes in the garden this year for a trial.  
Dig the holes to set the shade trees in on the knoll in the pasture.  
The grub is often the cause of the flowers plants turning yellow.  
If potatoes show any sign of rot in the bin, sift dry lime on them.  
Animals are like cars; it takes much to stop them on a down grade.  
Look at the fences again before the cattle and sheep get to ranging.  
If you get a new idea, experiment on it and let the neighbors laugh.  
Turnip leaves make good food for sheep that are in short pastures.  
Do not farm by the acre any more; tons and bushels are what count.  
Do not waste time and fuel cooking food for pigs, unless it is potatoes.  
Move away the old useless walls and turn the vermin out of their holes.  
A slight neglect may destroy all profits and waste the labor of production.  
From beginning to end the most money is in the finest quality produced.  
Feed the growing pigs so as to keep them growing to fatten in the spring.  
During winter, dry quarters for stock are almost indispensable to health.  
Never burn waste matter on a pile of rock where the ashes will be wasted.  
Good care is cheaper than medicine and requires less skill to administer it.  
As long as you have good stock you have a good market for your fodder crops.  
Seed potatoes will not be injured by exposure to the sun until they turn green.  
Do not be afraid to spread the manure in the fall unless the ground is very steep.  
Keep sick animals away from others unless you know the disease is not contagious.  
Remember that what you are doing is your work for the time, and do it properly.  
Autumn walks in the woods have an attraction for a boy that should be heeded.  
A sheep that has become very fat in the pasture will never be worth so much again.  
Some people think that a hog is so hoggish that his appetite will regulate itself. It is not so.  
With breeding out of vitality comes disease. Hence the danger of too close inbreeding.  
Every farmer should learn to look after details. Many a large job is useless until it is finished.  
A little care with colts will make considerable difference in their value when they are grown.  
Some big crops may cost more than they are worth, but there is wrong calculation somewhere.  
It is said that red pepper sifted on cabbage will kill the green worms. Remember this for next year.  
Clean away that old culch behind the barn and put in some blackberry bushes in place of burdocks.  
Let the boy go running if he wants to, but teach him to spare the small birds and harmless squirrels.  
Breeding from animals that have mean dispositions for a few generations establishes the trait with them.  
When "doctors" tell farmers at random to sell the poorest and buy the best, how can all

follow instructions!

The old turkeys which shed their feathers late in the fall should be kept, for they will lay early next spring.

Do not neglect to raise a good calf because it was born in the fall; you have more time to care for them in winter.

Do not raise a calf because it is customary, when you can see by figures that pigs would pay better for the milk.

Get some wire fencing and make a moveable pen for the calves and put them in good feed and give them all the dry hay they want.

Are you going to drive your plow and mowing machine around that rock down there in the field another year? If not, go at it now.

Many bushes in wet land can be pulled up as fast as they can be cut, and this takes out the roots and leaves the land in shape to take grass seed.

You can get experience with a few trees, plants, hens or sheep as well with more, if the same conditions are given, and mistakes will not be as costly.

One of the most common and most disastrous errors is letting ice and ticks remain on fowls and stock. Fight them until they are killed. You can do it.

One Honest Man.

TO THE EDITOR OF THE GLOBE:

Please inform your readers that I will mail free to all sufferers the means by which I was restored to health and many vigor after years of suffering from Nervous Weakness. I was robbed and swindled by quacks until I nearly lost faith in mankind, but thanks to heaven, I am now well, vigorous and strong. I have nothing to sell and no scheme to extort money from anyone whomsoever, but being desirous to make this certain cure known to all, I will send free and confidential to anyone full particulars of just how I was cured. Address with stamp:

MR. EDWARD MARTIN (Teacher),  
P. O. Box 143, Detroit Mich  
May 20-4m.

#### A LAKEPORT MIRACLE.

#### AN EXPERIENCE FEW COULD PASS THROUGH AND SURVIVE.

Broken down by Congestion of the Lungs and La Grippe—Weariness Months of Sleepless Suffering—A Narrow Escape.

From the Colborne Enterprise.

The village of Lakeport in the county of Northumberland is beautifully situated on the shore of Lake Ontario, two and a half miles from the town of Colborne. The location of the village is picturesque and healthy, and as a rule the inhabitants of Lakeport are a vigorous people, with very little troubled sickness. But there are exceptions, and even in this healthy locality occasional cases of suffering and long months of weary sickness are found. Among those thus unfortunately has Mrs. Milo Haight who for nearly two years was a great sufferer, sickness having made such inroads in her constitution that she was almost a complete wreck physically. Although a young woman her system had run down until life had become almost a burden. She had consulted physicians and tried many remedies, but no relief was found. Her attention was finally directed to Dr. Williams' Pink Pills for Pale People and having read of the many wonderful cures accomplished through the use of this great life-saving remedy, was induced to give them a trial. The result exceeded her fondest expectations, and before long she was restored to her former health and strength. Having heard of this case the Enterprise reporter called on Mrs. Haight, and enquired into the facts, which are given almost verbatim in the following statement: "I was ill for about twelve weeks in the latter part of 1891, while at home with my father in Trenton. I came to Lakeport, but was here only a few weeks when I was taken with inflammation of the bowels. After I sufficiently recovered I returned to Trenton. I had not been at home long when I was attacked with la grippe, which nearly brought me to death's door. A physician was called who said my system was badly run down. This was in February, 1892, and I was under his care for some twelve weeks before I was able to get out of doors. When I was taken down congestion of the lungs and spine set in and then the trouble went to my throat, and lastly to my ear, causing an abscess which gathered and broke three times, leaving me quite deaf. I suffered the most excruciating pains, sleep left me and I could not rest. I suffered continually with cold chills and cold hands and feet and severe headaches. The doctor gave me no hope of recovery. As soon as I was able I returned to Lakeport, but did not improve in health and I felt that death would be a relief. In June, 1892, I began using Dr. Williams' Pink Pills and had not been taking them long when the chills left me, my appetite improved, and sleep returned, something I had not enjoyed for many long weary months. After using the Pink Pill for some weeks I began to feel as though I could stand almost anything. In the month of June, 1892, I weighed 114 pounds, and in April, 1893,

#### PERFECTLY WELL.

John H. Varney,  
St. Bath, Me.

Was all run down, poor in flesh, could not sleep, his food distressed him, and he felt tired all the time. He took

**Skoda's Discovery,**  
the great nerve and tissue builder, and SKODA'S LITTLE TABLETS, that cure dyspepsia, indigestion and headache. He says: "I am perfectly well."

MEDICAL ADVICE FREE.

SKODA DISCOVERY CO., LTD., WOLFVILLE, N. S.

weighed 151 pounds, my greatest weight. I took the Pink Pills for about four months, but I now resort to them for any trouble, even a slight headache. I truly believe that Dr. Williams' Pink Pills are worth their weight in gold, and I owe my health and strength, if not my life to them. My eyes were weak at the time I was sick, but I have had no such experience since I began the use of Pink Pills. I take great pleasure in thus making known my case, hoping that some fellow creature may be benefited thereby. I allow no opportunity to pass without speaking well of Dr. Williams' Pink Pills, and I know of several persons who began their use on my recommendation and were greatly benefited by them: My father, who is some seventy years of age, is receiving great help from their use. I can truthfully say I cannot speak too highly of Pink Pills, and I would not be without them in the house under any circumstances.

Mrs. Haight's husband is also taking Pink Pills for rheumatism, and being present during the interview gave his testimony to their benefit to him. Mrs. Haight's present appearance indicates the best of health, and on one who did not know of her long suffering would imagine from her present appearance that she had never been sick. Her case is one that cannot but give the strongest hope to other sufferers that they too may be cured by Dr. Williams' wonderful Pink Pills, whose action upon the human system seems almost magical.

Dr. Williams' Pink Pills for Pale People are manufactured by the Dr. Williams' Medicine Co., of Brookville, Ont., and Schenectady, N. Y. Pink Pills are not a patent medicine, but a prescription. An analysis of their properties show that these pills are an unfailing specific for all diseases arising from an impoverished condition of the blood, or from an impairment of the nervous system such as a loss of appetite, depression of spirits, anaemia, chlorosis, or green sickness, general muscular weakness, dizziness, paralysis, loss of memory, locomotor ataxia, sciatica, rheumatism, St. Vitus' dance, the after effects of la grippe, scrofula, chronic erysipelas, etc. They are also a specific for the troubles peculiar to the female system, correcting irregularities, suppressions and all forms of female weakness, building anew the blood and restoring the glow of health to pale and sallow cheeks. In the case of men they effect a radical cure in all cases arising from mental worry, overwork or excesses of any nature. These pills are not a purgative medicine. They contain only life-giving properties, and nothing that could injure the most delicate system.

Dr. Williams' Pink Pills are sold only in boxes bearing the firm's trade mark and wrapper, (printed in red ink.) Bear in mind that Dr. Williams' Pink Pills are never sold in bulk, or by the dozen or hundred, and any dealer who offers substitutes in this form are trying to defraud you and should be avoided. Ask your dealers for Dr. Williams' Pink Pills for Pale People and refuse all imitations and substitutes.

Dr. Williams' Pink Pills may be had of all druggists or direct by mail from Dr. Williams' Medicine Company from either address, at 50 cents a box, or six boxes for \$2.50. The price at which these pills are sold make a course of treatment comparatively inexpensive as compared with other remedies or medical treatment.

After Breakfast

To purify, vitalize and enrich the blood, and give nerve, bodily and digestive strength take Hood's Sarsaparilla. Continue the medicine after every meal for a month or two and you will feel like a new man. The merit of Hood's Sarsaparilla is proven by its thousands of wonderful cures. Why don't you try it?
