### THE LIBERAL CONVENTION.

The GLOBE is pleased to note the fact ance on the opening day. that the York County Liberals are to hold a convention in the Temperance Hall a week from to-day, for the purpose of electing delegates to attend the coming convention of Dominion Liberals at Ottawa in June. It is important that the to visit the United States have arrived at liberals of New Brunswick, as well as Porto Rico. those of every other portion of the Dominion, should be carefully alive to the interests of their party, and of the interests of their party, and of the Dominion as a whole, and there is no way in which interest in these matters than by appoint- caused the crisis. ing two prominent and able liberals, regardless of their position in Local affairs who could and would undertake to repre sent this section of the country independently, ably and fearlessly; and who would not be too much controlled by the opinions and actions of others.

It is very probable that Hon. F. P. Thompson, as the defeated Liberal candiwill be one and the leader of the deleafraid that the almost inevitable bitterness of feeling which his selection will vent a wise and intelligent choice of colleagues to accompany him. There are four to be chosen besides Mr. Thompson, a number which ought surely to give of the party to secure a thorough representation. There are plenty of able, intelligent and experienced men in the county to choose from, and if a wise of the convention. The objects for which the Ottawa convention is called are most essential and vital to the interests of the

Dominion Liberals. general election Mr. Laurier and other against a run of bad luck. They lose leaders of the party have, with commendable foresight, decided to obtain the views of the representative delegates from all sections of the Dominion regarding the policy of the party, and the best and most efficient way of organizing, so

as to insure success in the coming struggle. The outlook for the Liberals is unusually bright at present. The government has so far admitted the reasonableness of their contention in favour of tariff reform as to announce their intention of appoint ing a commission to ascertain the opinions of the leading men of the country upon this all important question, with view to amending the tariff to a very considerable degree next session; and the country to feel the pulse of the people have their eye upon the government at the noxt session. There is very little expectation of the government redeeming their promises for a tariff reduction beyond a very small degree. Consequenty they will have to face this argument at the next election; and it will then have received double force because of their own admissions in its favour. All that the party needs to do is to organize thoroughly, to remodel their policy intelligently, and to fight with all their vigour in the coming struggle, and victory will be theirs.
