Vandals have been at work of late in the
cemetery of the Methodist and St. John's
Presbyterian churches at Chatham. They
have upset and removed no less than eleven
headstones from their places, breaking some
and defacing others. The job is of a piece
with the wanton stoning of inoffensive peo-
ple passing along the road not far from this
resting place of the dead the other day.

Very few people are aware that the
pearl oyster is not in any way like the
oysters which we eat. It is of an entire-
ly different species, and as a matter of
fact the shells of the so-called pearl oys-
ter are of far more value to those engag-
ed in pearl fishing than the pearls. There
are extensive pearl fisheries in the gulf of
California, and some of the finest pearls
have been taken from those waters. In
1891 one pearl—a black one—was sold
for \$10,000 and every year since that time
many pearls have been taken from the
beds in the California gulf valued at over
\$7,500 each.

With the present week the National
Reformer will cease to exist. This week-
ly was established thirty-three years ago
by the late Charles Bradlaugh, M. P. It
was the medium of his fusillades against
the church and state. At one time its
circulation was a quarter of a million
weekly. Its decay is attributed partly
to the decrease of its founder, partly to the
dwindling of the atheistic element and
partly to the fact that the English Radicals
prefer to take their politics straight
rather than to have them mixed with
iconoclastic irreligion.

seventy-nine were living three weeks
