One hundred million tons of water pour over Niagara Falls every hour. This is said to represent 16,000,000 horse-power. Some idea of this enormous amount of water may be had by understanding that all the coal produced in the world would not make enough of steam to pump a stream of equal size.

There are at least 10,000 homeless and hungry people in East Carroll, Moorehouse, West Carroll and Madison parishes, Louisiana, and the sufferings and privations they are undergoing are appalling. THE CATTLE TRADE.

Matters are Looking Blue But an Improvement is Expected.

The Montreal Daily Star says:—Matters are looking decidedly blue in the live stock export business at present. The first shipments to the Old Country have all lost money, some losing even freight and expenses. Glasgow has been the worst market so far, although all have been bad enough. There are no signs of improvement as yet, but the cattle continue to go forward. The distillers however, are being held back as late as possible this spring in the hope of an improvement in the market. Rates have been 45 shillings, but some of the lines are talking of an advance for June. One steamship company notified its customers that the June rates would be 50 shillings and the first result was 175 spaces thrown back on its hands, but June space to London is said to have been offered at 45 shillings. Shipments of cattle out of this port last week were 2,769 head, which is a falling off from the previous weeks. Nearly half of these cattle are going to Glasgow, the port which has shown the worst results so far. The total shipments to date this season are 13,136 cattle. The cattle exported last week were distributed as follows:

Table with columns: Destination, Head. Rows include: Steamship, Scilla, to Bristol (324); Sarnia, to Liverpool (357); Lake Nepigon, to Liverpool (334); Buenos Ayres, to Glasgow (679); Hestia to Glasgow (621); Monte Videau, to London (454); Total (2769).

The Students Celebrate.

The U. N. B. students certainly had a gay time of it Thursday night. After the usual closing ceremonies at the university the boys proceeded to "raise Cain" generally. Three heavy charges were fired from their own cannon on College hill, while horns of every imaginable size and shape were continually sending out the most blood-curdling shrieks. Not satisfied with their own cannon they managed, in a way known only to themselves, to get off one of the guns in the barrack yard, the shock from which smashed a number of windows in the C. R. I. hospital, one of the boys immediately afterwards sounding the bugle call. The students must certainly have had a good general—perhaps Prince Napoleon—to succeed in getting ready a gun and firing it, while a sentry paced his beat not thirty yards distant.

Mr. S. G. Derry of Providence, R. I., widely known as proprietor of Derry's Water-proof Harness Oil, tells below of his terrible sufferings from Eczema and his cure by Hood's Sarsaparilla.

HOOD'S Sarsaparilla

"Gentlemen: Fifteen years ago I had an attack of inflammatory rheumatism, which was followed by eczema or salt rheum, breaking out on my right leg. The humor spread all over my legs, back and arms.

A Foul Mass of Sores, swollen and itching terribly, causing intense pain if the skin was broken by scratching, and discharging constantly. It is impossible to describe my suffering in those years of agony and torture. I spent

Thousands of Dollars in futile efforts to get well, and was discouraged and ready to die. At this time I was unable to lie down in bed, had to sit up all the time, and was unable to walk without crutches. I had to hold my arms away from my body, and had to have my arms, back and legs bandaged by my faithful wife twice a day.

Finally a friend who was visiting at our house, urged me to take Hood's Sarsaparilla. I began by taking half a teaspoonful. My stomach was all out of order. But the medicine soon corrected this, and in six weeks I could see a change in the condition of the humor which nearly covered my body. It was driven to the surface by the Sarsaparilla, the sores soon healed, and the scales fell off. I was soon able to give up bandages and crutches, and a happy man I was. I had been taking Hood's Sarsaparilla for seven months; and since that time, nearly two years, I have worn no bandages whatever and my legs and arms are sound and well.

The Delight of myself and wife at my recovery it is impossible to tell. To all my business friends in Boston and over the country, I recommend

Hood's Sarsaparilla from personal experience. S. G. DERRY, 45 Bradford street, Providence, R. I. If you are Bilious, take Hood's Pills.
