WANTED:—A smart active agent to canvass Victoria Co. in the interest of the ADVERTISER. Address, Fred H. Stevens, Hartland N. B.

A. Thornton is erecting a building opposite Carr's store, to be used as a sample room for the convenience of guests of the Riverside Hotel.

Hartland pays higher prices for produce than Woodstock does, according to the market reports published in the local papers. In Hartland oats bring three cents a bushel more than they do in Woodstock.

The ADVERTISER wants an intelligent and newsy reporter in each of the following places; Centreville, Bath, Florenceville, Wicklow, Avondale, Jacksonville, Knowlesville, Glassville, Andover, Perth Grand Falls, Fort Fairfield, etc. We pay our correspondents. Write for terms.

The attention of the ADVERTISER has been called to the difference in prices of produce in Woodstock and in Hartland. Hartland's prices are the higher. The most noticeable difference is in oats, Hartland paying 2 to 3 cents more than Woodstock buyers. "Comparisons are odious" but the farmer who trade at Hartland ought not to think so.

During the past year there has been considerable agitation for Hartland's incorporation. The place is rapidly forging ahead and is becoming of much commercial importance. Already it stands second as an export station north of St. John; every week at this season of the year sees several cars going out from here. We understand several new buildings are to be erected this summer. The growth of the place demands a more vigorous municipal government than can be got from the county council. The streets are a disgrace and the sidewalks are worse. Local affairs need the toning up all along the line that a local board of councillors could give. It is to be regretted that at the present session of the legislature no action is to be taken.—Telegraph.
