

SPECIAL UNION MEETINGS.

The pastors in the different churches in our village are endeavouring to arrange, on behalf of their respective communions, for an united and special effort in the interest of the work of God. The spiritual advancement of the Church is looked forward to, and it is confidently expected, that not only will these union services result in the mutual edification of the Churches, but that many who are now indifferent, will be led to recognize and discharge their obligations to God. The attention of the Christian people of the community is called to the importance of a prayerful and trustful and active expectancy.

If the arrangements referred to above are completed the work will be carried on under the direction of the Rev. Mr. Corbett a special worker of recognized usefulness whose presence will permit of the pastors discharging their duties in their other appointments without even temporary discontinuance of the special services. Announcements will be made in due time from the pulpits of the several churches.

NEW POSTAGE STAMPS.

The new postage stamps are fine specimens of the engravers art. The colors are delicate, and the stamps most commonly used are the prettiest. Formerly the threes and ones were the shabbiest of the whole set. The new three is a fine carmine and the one a beautiful green. The design is plain but appropriate—the portrait of the Queen being as she appeared this year. Maple leaves adorn the corners of the stamps.
