Chicken Chatter.

Sunflower seed is splendid for fowls during molt. It adds luster to the plumage.

Do not crowd the fowls in their winter quarters. It is better to give too much rather than too little room.

Pullets are commencing to lay. Good, comfortable houses and substantial feeding will keep them at it all through the winter.

Use board floors in all your houses. Dirt floors are dangerous and cause many complaints that could be easily avoided.

The litter on the floors of the house and scratching shed should be knee deep, and all grain should be scattered in it. Don't be afraid of the grain being wasted. The fowls will find each tiny kernel.

Fresh green bone is considered by many a perfect food for hens. Some farmers buy fresh meat all through the summer and have more or less fresh bone that could be profitably ground for the poultry if they had a mill. The butcher who drives his wagon to your door will also supply you plenty of bones at small cost.

If the flock is kept confined, the food must include meat or scraps. Wheat and barley are good grain, but a variety should be given, and a good way to do this is to mix several kinds and let them pick out what they want. Hens are early risers and want to be fed as soon as they come down from the roost. See that they are well supplied with clean water and a box of ashes or dry earth to dust themselves in. To keep off lice soak the roosts with kerosene, and with a garden syringe throw hot lime wash all over the inside of the building.—Feather.

ACTIVE SOLICITORS WANTED EVERYWHERE for "The Story of the Philippines," by Murat Halstead, commissioned by the Government as Official Historian to the War Department. The book was written in army camps at San Francisco, on the Pacific with General Merritt, in the Hospitals at Honolulu, in Hong Kong, in the American trenches at Manila, in the insurgent camps with Aguinaldo, on the deck of the Olympia with Dewey, and in the roar of battle at the fall of Manila. Bonanza for agents. Brimful of original pictures taken by Government photographers on the spot. Large book. Low prices. High profits. Freight paid. Credit given. Drop all trashy unofficial war books. Outfit free. Address: F. T. Barber, Secretary, Star Insurance Bldg., Chicago.

The Present Month of the Closing Year. Must End the Lives of Many if they Fail to Banish Disease

Paine's Celery Compound, Earth's Great Medical Prescription, "Makes Sick People Well."

Another short month and the year 1898 will come to a close. As the year ends many loved and dear ones will pass away, severing ties and associations that will bring untold sorrow, agony and mourning. The victims will come from all classes and conditions of our population.

While it is true we must all leave this transitory life, it ought to be well understood that our years on earth should be threescore and ten or fourscore years.

When young and middle aged men and women fail to reach a good old age, the fault is theirs in ninety cases out of every hundred. It is safe to assert they have violated the laws of nature and have allowed disease to enchain them.

Years ago the attention of that celebrated medical expert, Dr. Phelps, was specially directed to the class referred to who die in middle age. He realized the fact that something far beyond the ordinary remedies and prescriptions of the day was required to meet the varied conditions of suffering humanity. His wonderful life giving prescription, Paine's Celery Compound, was the boon bestowed on the hosts who suffer from the common diseases—penalties of nature for transgressions of its wise laws.

Dr. Phelps found that nervous diseases blood troubles, liver and kidney complaints rheumatism, neuralgia and dyspepsia were dragging thousands to the grave every year, notwithstanding all the well directed effort, of conscientious medical men.

This marvellous prescription of Dr. Phelps was a revelation to the world, in that it cured desperate and long standing cases of disease that had baffled the best medical skill.

Since its advent, Paine's Celery Compound has saved thousands, and is still conquering disease every day. No other medicine known to man has ever received such flattering notices and testimonials from prominent men and women and from the entire press of the land. It is the one and only life saver in every case of disease and suffering; it defeats death when the physician is unable to save.

It is to this marvellous banisher of disease—Paine's Celery Compound—that we would direct the attention of all who are run down, tired, sleepless, nervous, debilitated and weak—symptoms of the diseases we have referred to above. It will quickly give to every ailing man and woman that vigor, strength and perfect health that insure and guarantee a happy old age.
