

Partial Paralysis.

A Severe Cold Brings a Wife and Mother Low.

Partial Paralysis Accompanied by Fainting Fits Follows—Doctors Fail to Bring Relief—Dr. Williams' Pink Pills Restore Health.

Brookholm, a suburb of Owen Sound is fairly vibrating with interest in the wonderful cures effected in that place by the use of Dr. Williams' Pink Pills. A newspaper man of Toronto, spending some time in the vicinity was directed to a house on a hill overlooking Owen Sound's beautiful bay, and was told that there he would learn something about a cure effected by Dr. Williams' Pink Pills. The hill was climbed and it is to Mr. J. F. Goodfellow, the genial owner and occupant of that pleasant home, that he is indebted for the following facts:—"On the 12th of July 1895, Mrs. Goodfellow went on an excursion to Collingwood by boat and came home with a severe cold, which developed into a partial or slight attack of paralysis in the left side and limb. In addition, at times she would be seized with a dizziness which often resulted in sudden and severe falls. The paralysis made her unable to lift any weight with her left hand. She called in medical aid and for some months followed the advice and took the medicines prescribed. But it was only money wasted as she did not get any better. As Mrs. Goodfellow has three children and her husband to care for it was a deep trouble to the family for her to be so afflicted. For eight months these dizzy spells and the paralysis continued. Then some friend asked her to try a box of Dr. Williams' Pink Pills. To please the friend she consented to purchase a few boxes. When these had been taken she felt decidedly better. The fainting spells came less frequent, her strength returned to her side and arm and she was delighted with the result. After taking about six boxes and feeling quite well again, she discontinued the use of the pills for a time but later felt some of the old symptoms returning. She again secured a supply and recommended their use, and was overjoyed to find that these valuable little pellets again gave relief. She continued taking them until she felt that she must certainly be over the effects of the trouble when she again ceased to take the pills. That is over a year and a half ago, and only once or twice since has she had any slight symptoms of the old trouble, and then a few doses of the pills would give full relief. Mrs. Goodfellow is decidedly of the opinion that she owes her present health to Dr. Williams' Pink Pills, and is most enthusiastic in her recommendation of them to her friends and acquaintances.
