

An Operation Evaded.

Mr. R. A. Size, of Ingersoll, Ont., Tells How It Was Done,

Symptoms of Appendicitis—The Way They Were Relieved—The Sufferer Now Well and working Every Day. From the Chronicle, Ingersoll, Ont.

In February, 1898, Mr. R. A. Size was taken very ill, and was confined to his home for several weeks. We heard that he was to go to the Hospital to have an operation performed but the operation never took place, and as he has started to work again and in apparently good health we investigated the case and found that he has been using Dr. Williams' Pink Pills for Pale People. Mr. Size is a highly respected citizen of Ingersoll, having resided here for over 30 years and has been a faithful employee at Messrs. Partlo and Son's flouring mills for over nineteen years. When asked by a Chronicle reporter whether he would give an interview for publication, telling the nature of his disease and his cure, he readily consented. Mr. Size gave the details of his illness and cure as follows:—

"In February I caught a heavy cold which seemed to settle in my left side. The doctor thought it was neuralgia of the nerves. It remained there for some time and then moved to my right side, in the region of the appendix. We applied everything and had fly-blisters on for 48 hours. They never even caused a blister and did the pain no good. The doctors came to the conclusion that the appendix was diseased and would have to be removed. The pain was very great at times and there was such a stiffness in my ankles also in my hand, and pain all over my body. The day and date was set for an operation and I was reconciled to it. About a week before I was to go to the Hospital my wife was reading the Chronicle. She read an account of a man who had been cured by the use of Dr. Williams Pink Pills. The symptoms of the disease were so much like mine that she became interested and wanted me to give the pills a trial. I had little faith in the pills but as my wife seemed to be anxious that I should take them, I consented. The day for the operation had now arrived, and I told the doctor that I did not think I would go to the hospital for a while as I was feeling better. I continued to improve, and have long since given up all idea of an operation. When I started to use the pills I was unable to walk and suffered something awful with the pain in my side. It was just five weeks from the time that I started the use of the pills until I was able to walk again and I had been doctoring three months before that and I have been working ever since. Altogether I have taken sixteen boxes of the pills, and they have done me more good than all the doctor's medicine I ever took in my life. I have now every confidence in Dr. Williams' Pink Pills and think that they are the best medicine in the world today. Certainly had it not been for them, I would have had to go through the ordeal of an operation and

perhaps would not have been living now. I hope that by making this public it will be of benefit to others, as it was through one of these articles that I first learned of the unequalled qualities of the pills.

The public is cautioned against numerous colored imitations of these famous pills. The genuine are sold only in boxes, the wrapper around which bears the words "Dr. Williams Pink Pills for Pale People." If your dealer does not have them they will be sent postpaid at 50 cents a box, or six boxes for \$2.50, by addressing the Dr. Williams' Medicine Co., Brockville, Ont.

A Clever Boy.

"Now" said the schoolmaster, as he displayed a bright five-shilling piece between the tips of his thumb and finger, "the first boy or girl that puts a riddle to me which I cannot answer will receive this as a gift."

"Any more?" he asked as soon as silence was restored and no one had claimed the coin.

"Yes sir," sang out a little fellow from the farther end of the school "Why am I like the Prince of Wales?"

"The Prince of Wales?" said the master, thoughtfully. "The Prince of Wales? Really Johnnie I see no resemblance in you; I'll give it up."

"Because," replied the lad, joyfully; "I'm waiting for the crown."

Accommodating.

One hot summer's day a gentleman who was waiting for his train at one of our country stations, asked a porter who was lying on one of the seats, where the station master lived, and the porter lazily pointed to the house with his foot. The gentleman very much struck with the man's laziness, said: "If you can show me a lazier action than that, my good man, I'll give you two-and-six-pence." The porter not moving an inch, replied: "Put it in my pocket gov'nor."

On the Wrong Man.

Bret Harte is so frequently complimented as the author of "Little Breeches" that he is almost as sorry it was ever written as is Colonel John Hay who would prefer his fame to rest on more ambitious work. A gushing young lady, who prided herself up on her literary tastes, said to him once: "My dear Mr. Harte, I am so delighted to meet you. I have read everything you ever wrote, but of all your dialect verse there is none that compares to your 'Little Breeches.'"

"I quite agree with you, madam," said Mr. Harte, "but you have put the little breeches on the wrong man." — San Francisco Argonaut.

What the Separator Has Done.

The separator has done more to stimulate dairying than all else combined, and now statistics show it to be one of the greatest industries in the United States. The dairy interests stand preeminent. For the year 1898 over \$900,000,000 was distributed among milk producers and has helped a great deal to overcome the depression which came on in 1893. It is also shown in reports that 1,000,000,000 would be nearer correct or over twice the value of all the wheat crop of the entire country.
