FARMERS' INSTITUTE.

An Epitome of Meetings Held Last Week

In our last issue we gave a report of the excellent Farmers' Institute meetings at Audover. The addresses delivered there would be somewha similar to those delivered at the subsequent meetings so we do not give the latter in full.

The first meeting in Carleton wa held in Phillip's Hall, Bath. Chas. Gallagher presided and there was fair attendance, including Messrs. R. Phillips, M. Bohan, Glud Perry, P O'Neal, J. McCready, Gilbert Giberson, John Haley, Hanford Squires, J. B. Squires, and many other ladies and gentlemen.

After the addresses by the Hon Commissioner and his staff, there was a discussion upon turnip growing and other matters participated in by Messrs. Squires, O'Neal and others.

On Thursday night a meeting was held at the school house, Hall's Cor ner, Holmsville, at which there was a large attendance. C. Tompkins Esq. presided and there was an interesting discussion.

On Friday evening the meeting was at the old church, Johnville, and a good crowd gathered to hear the addresses. Patrick Gorry occupied the chair and ably introduced the subject for discussion and the various speakers.

THE FLORENCEVILLE MEETING. There was a good gathering in the Temperance Hall. W. J. Webb was adapted to stock raising than Carlethere were present John Holmes, H. and more water. It was quite a N. Shaw, David Shaw, Wm. Jewett, in it here. He had always been W. A. Taylor, Thos. McCain, D. N. frigtened of summer pasturage on Robt. Hunter, Robt. Hamilton, Carey Laughlan, H. B. Taylor. cuss the question of stock-raising as pigs over every six months in W. B. Fawcett of Sackville, to open keep more stock whether it was beef the discussion. He said no one would stock, cows or pigs. country was full of good feed for Agricultural Society. cattle, and it was, in his opinion, a mistake to send this out in the raw state. Feed off this feed to your cows for dairying and raise the calves and fatten the steers and cows that you turn off. Do not sell them at this time of year to butcher at 4 cents per lb., only half fat, but put them up and make them fat. Sell them fo them and a good market for your hay and grain. Will this pay? Well, in Westmoreland some men did. They found they could get \$5 per ton for their hay, 8 to 10 cents per bushel for their turnips and market prices for their grain, bought or raised. In his did not agree with the idea of keepown business he had kept accounts ing steers till it was three or four to see. When he bought cattle in years old. His idea would be to the fall he found he could count on keep the steers no longer than two raising the price of the weight in years. Cheap labor was most imthese animals 2 cents per lb., and add portant in making beef. We had

It was stated that if we all went into beef-raising our market would was adapted to beef-raising. He be ruined and we would go back to could not manage to keep cattle in stagnation like we had a few years the summer time but he could keep ago. He did not think this would be sheep. He was thinking of just keepso because conditions in the West ing one cow and keeping up his land were very different. Then we had a by turning under green crops. much about the beef business, but to pasture though his fields there would his mind a very different kind of cattle to those now on hand were wanted for profitable beef produc- ture it rather than cut the hay. tion.

H. B. Taylor said he had been much interested in Mr. Fawcett's ad dress. He had always thought that Carleton was making too much of a specialty of selling hay and grain. Our farms must be going behind when we are selling off so much raw material. He thought, however, that Westmoreland County was better H. McCain, M. P. P., Samuel McCain problem to get a pasture with water Estey, Henry Palmer, Geo. Hunter, account of the trouble of getting water. He thought he could keep Estey, Geo. Brittain, C. T. Hendry, cattle cheaper in winter than in Richard Wheeler, Otis Shaw, Scott summer. Still he thought there Bell, Chas. Crabbe, David Hamilton, should be more cattle . raised. Ten Geo. Curran, James Jewett, Chip. year- ago, when Carleton began to Hunter, John Hamilton, Scott Darkis sell hay it was \$8. to \$10. per ton and by the scarcity of news, is again R. Hamilton, Jr., Mrs. Alfred Estey, if we were to go into beef exclusively aroused by the intelligence of the Miss Estabrooks, Mrs.N.D. Estey, L. no doubt hay and grain would come Smith, W. L. McCain, John Mc. up again. He thought he could raise pork just as cheaply as beef and he W. W. Hubbard said hat the meet- could feed pigs everything he grew ing was called that afternoon to dis- except timothy hay and turn his a means of marketing the field crops stead of waiting three or four years of Carleton county, and he introduced for his money. However we should gainsay the importance of supplying H. L. Scholey said he thought Mr. heavy. D E MORGAN & SON.

F. B. Carvell, M. P. P., said he had always been informed that the more stock we kept the better off the country would be. He observed that the men who were dairying or beefraising were doing better than the others.

John McLaughlan said the question was: Will the stuff we have got in our barns make economical beef? He would not undertake to make beef, butter, or pork, with oats at 25 cents per bus. The great difficulty in stock raising was to keep the cattle through the summer months. He an average of a hundred pounds in here to compete with the lumber weight to each animal. He did not woods where all the available labor

British Victorious—Canadian Boys Arrived.

The latest news from South Africa as we go to press is somewhat more exciting than any that has been received for sometime. The people's interest, which had abated not a little heavy fighting which is now going on at the seat of war.

On Tuesday there was a desperate fight at Modder River at which the British gained a great victory. The battle commenced in the early morning and after 10 hours hard fighting the Boers were forced to retreat. At present it is not known how great the losses are, but they must be very
