John T. C. Carr.

The Adventists' Version.

Of the Discussion at Andover.

Last week the ADVERTISER published an item relating to a discussion on the public platform between Adventist evangelists of Perth and Rev. S. B. Hillock, Episcopal clergyman at Andover. This report was ostensibly from the side of the Episcopalian, so it is only justice to the Adventists that they should be given space for their story. A letter just received says:

DEAR SIR—I noticed a clipping in your paper that is slightly misleading. Please allow me to correct it.

Speaking of the work of some Adventists in Perth, it was stated that "they had challenged discussion—that Mr. Hillock had accepted the challenge and that at a meeting arrangements were made for debate. But it seems the Adventists are withdrawing from the debate."

Allow me to state that such was, and is, not the case.

First—No challenge was given, therefore Mr. Hillock did not take up the gauntlet. He simply challenged the Adventists publicly three different times, which was taken up by the Adventists after careful consideration.

Second—No definite arrangements were made for debate.

Third—The Adventists are awaiting the further pleasure of the challenger.

Hoping this may appear in your next issue,

I am yours truly,

D. A. JORKHAM.

Dominion Day.

A paper has been circulated among the business men of the village upon which all have agreed to close their places of business on Dominion day, which is three weeks from today. People in the surrounding districts would perhaps save disappointment by making observance of this and not come to the village expecting to make purchases on that day.

Breach of Promise.

There is rumour of an interesting sensation up in the parish of Kent. A young woman of Bristol, for damages done her heart's ardent affections is suing a young man of Glassville. These young people had plighted their troth to each other, but an old flame reappeared and the faithless swain was not proof against her smiles and he forsook his affianced for the old love.

Now for fun in the County Court.

Strawberries.

On Wednesday the ADVERTISER was shown a cup of ripe strawberries that had just been picked by Mrs. T. O. Boyer. Ripe strawberries were also brought into the office on May 30th, which is certainly very early.

The Starch Factory.

Scheme Should be Kept Alive.

It is not a good thing to let the starch factory agitation die out without looking into the chances for the success of the enterprise. As has been suggested by different correspondents, it would be a good plan to call a meeting for the purpose of seeing what can be done toward the organization of a company. Then a committee should be appointed to enquire into the various details, as for instance, the cost of equipment, the capital required, the cost of material, the market for the product, etc.

There may be nothing in the venture but it won't do any harm to investigate just what there is in it.

At any time the columns of this paper are open for discussion on this matter or anything else of public interest.

Archibald Belyea.

Archibald Belyea died on Tuesday at the residence of C. B. Snow. The remains were brought to Hartland and taken to Rockland for interment. Deceased was 73 years of age and unmarried. He had been in the employ of Mr. Snow for a long time, while the latter kept store at Rockland. He was very well known and highly respected throughout this section of country.

Centreville Wedding.

There was a bridal party on Wednesday's southbound express, which consisted of A. A. Campbell of Bristol, and Bessie, youngest daughter of the late Charles A. West of Centreville. The young couple will visit different provincial towns and finally make their home in Woodstock.

Want a Free Ferry.

The people at Bath are asking when steps are to be taken towards procuring a free ferry between that village and Wicklow. It is said such a thing could be maintained very cheaply and a thriving place like Bath deserves such a boon.

A Wonderful Season.

In more than one way this is a remarkable season. April and May were exceptionally dry months, and though the snow was slow going cropping was through with early. The farmer never had a more favorable season, and rain came just at the right time and in the right manner. Grass is in exceptionally good condition.

Horse Dropped Dead.

William Leonard of Johnville, drove to Bath on Tuesday evening with his fine driving horse. When near Phillips store the horse fell dead in the shafts from no apparent cause whatever.
