Wonderful Brant Shooting.

Mr. John Loggie, of Black Brook came into town yesterday, with 57 brant just shot by him. He sold them to Mr. E. Strang, who displayed them before his door in the afternoon, to the evident wonderment of the town folk.

wife of Mr. James Buckley, died. She had been laid up a long time with Rheumatism, but was out and better than for a long time Saturday last. She was buried yesterday, and a large number of people followed the remains of a good and charitable woman to the grave. The afflicted family have our sympathy.

# Parochial residence.

We are pleased to learn Rev. Father Doucett, has just had finished a fine residence in his parish at St. Margaret's. It will be remembered the reverend gentleman lost his house by fire last spring. The dimensions of the new house are 25x36, and one and ahalf stories high. Mr. James Phelan was the contractor; and his work is credibable to him.

# An Apology.

An apology is due to Mr. D. T. Dwyer of St. Stephen from this office. have been sending his paper the last few months with the following address:

REV. D. T. DWYER, St. Stephen, N. B.

Mr. Dwyer bore with us a long while. At length he became indignant, and yesterday sent us the following on a postal

"MR. EDITOR .- Please address my STAR without the Reverend, as I have never had the honor of receiving holy Yours truly,

D. T. DWYER." If we have been styling any more of our lay readers as "Rev." they will oblige us by sending us word as Mr. Dwyer has done; or if we have addressed any Rev. as "Mr." we ask also to be set on the proper path.

### The Epizootic.

As we predicted in our last the horse ail has reached Chatham; and is now located in several parts of the town and country. Mr. Wm. Dickens of Richi bucto Road has already lost one horse; and Mr. Henry Sergeant of Escuminac has lost another. Several in Bay du Vin are sick with it. We promised a "cure" in the last STAR. The following recipe "brought round" the Moneton Times' horse nicely:-

Ground ginger, 1lb. Powdered gentian, ½ 1b.

Black antimony, 4 lb. Mix well and give two tablespoons morning and evening in warm bran mash. If the horse is very bad, smoke him over burning tar until he coughs clear and runs at the nose.

The Nova Scotians prefer the follow. ing compound; but any of our readers are welcome to use both-but not to- \$30. gether.

Ground ginger pure, two tablespoonfuls; German condition powber, one tablespoonful, put in a common-sized teacup, and fill up with molasses, and mix with the horses oats or other food. Give morning and evening until the cure is effected

-It is thought there will be no election on Tuesday, but that the same will be deferred for two or three weeks owing to an informality in posting notices. There will be a meeting of the people inthe Masonic Hall probably; when no doubt an understanding will be arrived at.

Mr. Thompson, Clerk of the Peace called upon the defendant, Joseph Grattan, to plead to the charge of Bastardy brought against him. Mr. Lawlor for the defendant objected and moved for the discharge of the defendant; on the ground that the magistrate who issued the warrant had no jurisdiction. It was necessary under Chap. 21, Act of 1879, that one of the overseers of the Poor of the Donald Loggie Parish should request the Justice to issue his warrant for defendant's arrest and no such request appearing in the complaint | Wm Anderson the defendant should be discharged and the bail bond given up. Mr. Thompson was heard in reply and contended the Anastaze St Cour proceedings need not disclose such a request and he would on the trial of the cause prove the request was duly given. Wm Rousselle His Honor intimated that the objection was well taken, but being a new and important question, he would reserve his decision until Saturday next.

Mr. Tweedie, counsel for defendant. James Perley objected to his client plead. Oliver Giroir ing to the charge of bastardy on the ground that the warrant issued for Thadee Lov defendant's arrest did not disclose any Wm Cassidy request for its issuing as required by law.

#### A WEEKLY FAIR IN CHAT HAM.

Since coming here it has struck us several times how inconvenient it must be for farmers to straggle into town with meat, vegetables, hay, oats or Eph'm Robicheaux wood, having no particular place to go, but obliged to hawk their cargo through the streets. On the other hand it struck us as being just as inconvenient for those who buy; because they do not know when or where to go to purchase what they want. This state of affairs is owing to the fact that the town is not incorporated, and a public market can not well be had.

MR. SNOWBALL'S TYRANNY SMALL-MINDEDNES3.

Set a beggar on horse-back, and he'll ride to H-I .- OLD PROVERB.

To the Editor of the STAR, - Dear

article in your paper, written a day or two after Mr. Snowball expelled me from his premises, there have been so many different stories told about the matter, and my friends have asked me so many questions, that I have decided to place it before the public through the medium of your columns, with your permission. To make it fairly understood, and to show the only reason that Mr. Snowball can have for such petty spleen, I must go back to the summer of '78 previous to the "memorable 17th of September.' During that summer and the winter still previous, I was clerk in the employ of one Michael Graham of Kent county, one of Snowball's middle men who got about ten millions of lumber on the Tabusintac, that year. I had no very fancy job either, earning about \$30 per recommendation of Snowball's head clerk that I got the situation.

In August of that summer, Snowball met me in his store, and told me he was inder the impression, that the way Mr. Graham was doing business at Tabusintac, was likely to operate against him, (Snowball) at the election, and asked me to counteract it as much as possible. I said All right, Sir I wilt do as much as I can. He did not ask me to vote for him, in fact that was all the conversation we had concerning election matters, at all. He took it for granted, no doubt, that because I was earning my living through him indirectly, that my soul and body were his. PORK, FLOUR AND MOLASSES ARE HIS POLITICS. Mr. Desbrisay made answer that he did not think Snowball would notice me at all.
