THE FISHERY TROUBLES WITH THE UNITED STATES.

In another column will be found an article upon this subject which we copy from the Montreal Witness.

That the fishermen of the United States will be satisfied with anything else but the liberty to fish when, how, doubt. If the fisheries of this country are of as little value to the Americans as they attempt to make it appear, what is the use of them making such a fuss about the matter. Why do they not stick to their own valuable waters and leave the worthless waters of Canada to be fished by its own people. The real facts are

CAN THE FISHERY TROUBLES

BE SETTLED.

It will not be long before the fishery question, which has been such a fruitful source of international trouble between Great Britain and the United States, will again come up for settlem-nt. The Washington treaty settled, or rather was intended to settle the matter for twelve years, at the end of which time if either nation had given six month.' notice of its desire to eud it, it was to terminate. Ten of the twelve years have now gone order to the termination of the treaty.
