CHATHAM, N. B, July 13,1881 J. E. COLLINS..... EDITOR

A BIRDS WING.

[St. Nicholas.]

wing carefully and try to find man's neck, and would have out out from it the way in drawn him overboard had not which it is used? People usu- one of his companions severed ally suppose, either that a bird the arm from the body. The that residents of the French flies because it is lighter than monster is a cephaloped mol.. air, like a baloon, or that it rows lusk, having a round purse-like itself along as a boat is rowed body about a foot and a half through the water. Neither of long. It has eight arms or ten.. these suppositions is true. A acles, measuring twelve feet bird is not lighter than the air, from the tip of one tenacle to the nor does it float; for when a tip of another. It has no fins, bird is shot on the wing it falls and swims backward and forto the ground just as quickly as the squirrel. On the contrary, something after the manner of a bird flies on its own weight, the jellyfish. and could not fly at all if it were not heavier than the air.

Look at a quill-feather, and you will see that on each side of the central shaft or quill, there is a broad, thin portion, which is called vane. The vane on one side of the shaft is quite broad and flexible, while that on the favour. other side is narrow and stiff; and by looking at a wing with the feathers in their places, you will find that they are placed so that they overlap a little, like the slats on a window blind. Each broad vane runs under the narrow vane of the feather beside it, so that, when the wing is orite summer shawls. moved downward, each feather is pressed up against the stiff, narrow vane of the one beside it, and the whole wing forms a solid sheet like the blinds with solid sheet like the blinds with the slats closed. After the down stroke is finished and the up able wool are worn more than the prossure is ever.

White dresses of soft, crush—lumbago and any kind of pain or ache. It will most surely quicken the blood, and hear as its acting power is wonderful. Brown's large and any kind of pain or ache. It cares pain in the slate, back of bowls, sore throat, rheumatism, toothache, lumbago and any kind of pain or ache. It will most surely quicken the blood, and hear as its acting power is wonderful. Brown's stroke begins, the pressure is ever. taken off from the lower surface of the wing, and begins to act a novelty fabric for travelling the world, should be in every family handy on the upper surface and to wear. press the feathers downward instead of upward. The broad list of popular materials for travanes now have nothing to support them, and they bend down and allow the air to pass through the wing, which is now like a blind th the slats open. By these two contrivances—the shape of the wing, and the shape and arrangement of the feathers season. —the wing resists the air on its down-stroke and raises the bird ing novelty in little dogs for wide and constant use for nearly an entire a little at each flap, but at each fashionable women. up..stroke allows the air to slide off at the sides, and to pass through between the feathers, travelling outfit. so that nothing is lost.

A PAGEANT IN SIAM.

[Rev. J. Wilson, Siam.]

The rice crop this year is a bountiful one, and the people are rejoicing over it. The second on Sabbath morning. He had the Mother Hubbard cloak. been out on his fields threshing his rice. Returning, he arranged composed of small squares of for the yearly procession that is mull, edged with lace ruffles. made at the close of the harvest. The first gong had rung for our religious service just as the procession reached the lower compound. The noice of bells on the elephants, and the chant.. ing of the riders, together with without any visible seam. the music made by the king's
