St. Andrews Church Servic's.

We are requested to state by an officer of the above Church that Rev. Mc. Anderson will preach to morrow, at morning and evening in St. Andrews Church.

That Drain.

The Board of Health, as will be seen elsewhere, has moved. They have so far prevailed upon the commissioner that a drain is to be opened from the slough near the Star office to the river.

More Diphtheria.

Herbert, son of Mr. Alexander Bald win of the upper end of town, died this morning of Diphtheria. He was a fine promising of fifteen years. We sympathtze with the parents in their loss.

The Crops.

The report from the crops everywhere through the country is very encouraging. The wet weather has been in good sea- 5th to the 10th, excessive heat will conson, and the alternating shower and sun- tique with frequent and severe storms of shine have caused all garden and field wind, hail, and thunder, during which products to thrive well.

The Pay of the Thief.

We plagiarized an item from the News in last issue to the effect that Lord Elphinstone and Sir John McNeill were fishing on the Miramichi. The statement was not true; and now we must bear the untruth as the reward of our theft. Honesty is the best policy.

Fast Sailing.

The barque "Premier Mackenzie," Captain Elder, cleared from St. John, N. B., the 19th April for Cork, arrived here the 29th inst., making the trip in seventy days. She loads with Mr Muirhead. The owner, Mr. C. C, Watt, deserves credit and we wish him success and prosperity with his vessels.

Dominion Day-

Yesterday was the anniversary of the confederation of some of the B. N. American Provinces. It was therefore a Union holiday; many of the shopkeepers closed their places of business, and several went to the excursion in the "An dover" to Redbank. A large number also went down in the excursion train to see the Review at Sussex.

A Nervous Contemporary.

The Advocate is sometimes nervous, and during these turns it imagines things and states them as facts. For example it stated that the Chatham people went down with axes, etc., to cut the smallpox ship adrift, so great was their ex citement. Now this is not true. Noth ing of the sort happened. "There is evidently some hoaxer abroad." Dixet Antonius Amicus, "I thank thee Jew for teaching me that word."

A Strange Occurrence

Mr Hugh McDougall, who fishes salmon for Mr. W. S. Loggie at Point aux Car, reports that one day this week a large salmon struck his net, which lay on a muddy bottom. When he raised the net the salmon was there, and he threw it into his canoe, but what was his astonishment to find that thirty four eels had eaten into the belly of the fish, not breaking the skin, but filling out the fish as if it had not been touched. Mr McDougall exhibited some of the eels in town.

Our Harbor

Our Harbor Master Mr. Johnson is to be congratulated on the zeal and activity he has lately shown in harbor matters. He has just visited all the ballast quays in the port with one of our first-class pilots taking soundings and examining the river, etc. on examination they found the Hutchinson wharf in the scandalous condition in which we have represented it. The harbor master condemned it. He ordered that no more ballast be put upon it till the necessary repairs and improvements be made upon it. The same order was made with respect to the England ballast wharf; while the proprietors of the Canda Ballast wharf nave been notified to plank the upper end of the whart, to prevent sand from sitting through.

Honors for New Brunswick Ladies.

On the 23rd inst., at the distribution of prizes in the Convent of Notre Dame, Costigan, won fresh laurels, bearing away nearly all the prizes in the school. Miss Teresa Costigan who last year carried Personal, off the Governor Generals silver medal, took the gold medal and diploma on the The only mill shut down yesterday in 23rd, the highest distinctions ever conferred by the institute. She also took the silver cross medal for moral instruc tion and punctuality to religious exercises, presented by the chaplain Rev. J C. Smith; silver medal for portrait drawing; 1st prize for perspective drawing; prize for choir singing; prize for music and special premium for French language. A crayon portrait of Mr. Costigan, M. P. executed by Miss Teresa was much admired as also "E ce Homo" In the superior course Miss Bertha Costigan car ried off the 1st prize for plain sewing and fancy work; the 2nd prize for etymology; 1st prize for arithmetic and algebra; 2d prize for music; 1st prize for French composition; 1st prize for French elocution and 1st prize for English grammar and map drawing. This is indeed a creditable record; and it will be observed too that some of the prizes taken are for practical studies. Would there wer to be found in our New Brunswick schools a little of the practical, with so much of the visionary; something of the realities of life, with so much that is mere cloudland theory.

A month of heat and storms.

Vennors predictions for July are just published. He says that July, though probably entering cool and showery is most sections, will rapidly merge into sultriness and excessive heat shortly after the 4th or 5th of the month. From the casualties from lightning are much to be feared. Between the 10th and 15th of the month similar atmospheric conditions are likely to continue with thunder and lightning, storms of almost daily occurrence and hurricanes of heated winds. Approaching the 20th, heavy showers, often accompanied by hail, will occur more trequently, with very sultry and muggy intervals. In the neighborhood of the 21st and 22nd days, torrents of rain will likely fall in Western Ontario and throughout a large portion of the United States, while in the Western and South-western States, in particular, cyclones, hurricanes and most destructive hail storms are likely to cause wide spread havoe and loss of life and property. Unsettled and stormy weather with intervals of great heat will occur up to the 25th of the month, after which a decided and cooler change may take place, with cool to cold nights about the 27th and 28th Hot weather, however, will again set in toward the last day of the month, or entry of August.

A TOUR THROUGH IRE-LAND.

DESCRIPTION OF THE O'CONNOR CASTLE.

THE EVICTORS AT WORK.

(From Cor. Montreal "Witness.")

Mrs. McDougall thus describes the route on her way to O Connor Castle: A place on the road where the French had surged up from Killala and met and fought with the Eiglish, was pointed out to me. "Here they were defeated. thin French." On the bay here in the old times lived a wild chieftain, son of O'Connor, a man with a strong hand and strong will. This gallant chieftain, out in the early morning by the waters of the bay, saw the loveliest creature of

On one occasion the youngster of the enquiring mind spoke above their breath, but our woman said to his mother, "What a beautiful thing was that which I saw my father hiding in a certain place!" The silent mother went to the place found her long lost head dress, and a still brighter beauty, flushed her fair face. "Come an ear for it. Look here," she said, hither, my sons," she said, "I will not leave behind me any of the sea lineage." She touched each of the boys, so young and so princely, that they became three the ground; they're cryin' up to God WANZER SEWING MACHINES big stones, .ying head to head in a group against it. We saw and voice of music was seen no more. The poem looked still more beautiful after looking at the lone tower -all that was left of Castle Connor, and hearing of Anthenry, where the battle was fought and the standard lost; so we give a sigh to Connaught Moran, and O Counor's child. Every little distance brings us to the locality of some tradiuon or legend attached to some old ruin or lovely glen. We passed the place where lived from colt.100d to glory the celebrated

the "Girraund Bawn." This horse, a racer, "bate" all Ireland in his day, and was ridden without a saddle or bridle. Mayo was very proud of this racing steed, so much so that when horses were seized and impounded for the county cess, a farmer who had received his mare back again, considering that it would be a dis grace if the king of horses were left in the pound, returned to Castle Connor to type. the pound, left his own horse there and released "Rie Girraun." This celebrated horse was stolen it appears. After some time a troop of dragoons were quartered in Mayo, whose commanding officer rode a horse suspiciously like "Rie Girraun." The servant man who had ridden and cared for the white drew inconveniently near to the soldiers from sea Thursday, reports having had noyed at the man intruding where he mast, jib-boom and main t' gallant mast. was not wanted, asked him what business he had there. He said, "The horse your honor rides was stolen from this place, and I was looking at him to be sure. He is the famous white horse of Mayo." He was asked to prove it, which Boy 1, 395; Dall, Ardrossen, Wm. Muir he undertook to do if the owner would head. alight, which he did. The peasant, then, hidden behind a stone ditch, called to the horse in Irish, asking ham if he would have a glass of whiskey. The horse Elder, Cork, Wm Mairnead. had been accustomed to get this when he had won a race, and knew the taste of poteen. He pricked up his ears and galloped round, looking for the voice. On the words being repeated two or three times, he vaulted over the stone wall and came to his old friend hidden behind. The officer would not part with the horse, but he paid liberally for him so it seems the white horse of Mayo end ed his days in the service of royalty. The grandson of the possessor of the white horse of Mayo was the other day fined £6 for possessing poteen and was unable to pay it. Listening to these stories we came up with the police, who nad alignted from their cars and were going throug , their exercise preliminary to the march. We made our way through the cars, our driver challing a lit le with the drivers of the other cars. Just opposite where the police left the cars was the most utterly wretched house that I had yet seen.
