A Marvellous Cure.

A person in Chatham who has all his life been subject to epileptic fits, learned some time ago that a gentleman living in some part of the States, while experimenting in the interests of medical science, had compounded a cure for fits. He sent for a bottle of the preparation getting it for its actual cost, and it has wrought a perfect cure in him. Others similarly affected have sent for the same medieine.

Death of Mrs. Haddow

Many of our residents will regret to hear of the death of Mrs. Haddow, (mother of R. B. Haddow, Esq., Collector of Customs, Newcastle, and Geo. Haddow, Esq., M. P. for Restigouche) which occured at Dalhousie on Monday last. The deceased lady was very highly esteemed in this section of the Province, and was for many years a resident of Chatham, where she had many warm friends. The remains will be interred at Dalhousie this afternoon, -Ad. vocate.

OUR CHATHAM BUSINESS

HOUSES. M. & J. HICKEY.

There is not a better known or more widely respected establishment in the line of its trade than the above popular firm. About 14 years ago Messrs. M. & J. Hickey, then both very young men. and both belouging to Chatham, opened business here. Since the commencement the same marked success has always followed them, and they now rank among the most firm of our Chatham business houses. They deal in boots and shoes, in general clothing, hats and caps, of first class quality, while their stock of wines and liquors is not anywhere excelled. We wish them a long continuance of their good fortune.

OUR BOARD OF HEALTH.

To the Editor of the Star.

SIR, -- After the Local Government had appointed Messrs. Benson, Griffin, Davidson, Tweedie and Coleman, a Board of Health for the Town of Chatham, these gentlemen went not only round the wharves but into all the nooks and out of the way corners of the town hunting up nuisances and ordering the owners of the various properties upon which they were to have them at once removed. For this they were commended by the whole town, and if they had continued to pursne the same course and not only order but see that the rest of the nnisances in and around the town were removed they would have earned and received the heartfelt thanks of the inhabitants of Chatham. This, I am sorry to say, they have not done, as they have left stand-Today we publish 'Notice to the ing one of the greatest and most offensive nuisances of the town, and one too that has been the cause of more cases of typhoid fever than any of the others that they have put a stop to. The nuisance that I refer to is that poisonous and filthy cess pool hard by the Star office on Water Street, and to which their attention has been called by a Requisition signed by over twenty of the merchants and other residents living in its vicinity requesting them to have it removed as the stench and effluvia arising from were injurious to the public health. this case, our Board of Health refuse to take any action although they have been time and again solicited to take the matter in hand. I now ask these gentlemen by what right they enforce the law upon some and let those go free who are daily setting it and its officers at defiance? This nuisance has now got to such a pitch that if the lawfully appointed authorities will not enforce the laws and put a stop to its further connuance, those persons residing in its vicinity will be forced, for the sake of their own health, to take the matter in On Thursday last a young man named their own hands and illegally perform the lawful duties of the Chatham Board

ONE OF THE SUFFERERS. Anent the above we have this to say: We do not think the party from whose premises this nuisance comes ought to be obliged to open a drain beyond her own property. That is a matter for the town; but so disgracefully is this town mannuisance like this threatens us, there is apparently no way of suppressing it. Then with such laws when we have a Board of Health, each one looking at the other to commence, and all afraid to do their duty, those who have hopes that the nuisances will ever be suppressed are simpletons. The town laws are barbarous, vulgar farces; the Board of Health is the greatest farce of all - ED.

The mountain is the highest on the island, humping itself up to 2,204 ft high, or somewhat there abouts. The slope up to the top of this mountain looks innocently gradual, but on the seaward side there has been a land slip, making a sheer precipice on that side for about 400 feet from the very highest pinnacle of the mountain. There was a stiff gale blowing-a stiff gale is always blowing. I think—but the mountain was a shelter from it on the landward side. The lady commenced the ascent, and the mountain lured her on till she stood on the very

The gulls screamed at the sight. Poor lady, she went out of life in a moment, had no time to feel pain. When she was missed there was a search for her, anxious and continuous, and about six in the morning her remains were found on the mountain side.
