Gaspereaux,

Gaspereaux are becoming more plenti ful every year since the liberty to sein them has been taken away. The year after the privilege being cancelled, not more than 300 bbls. were taken at the North, while so far this season not less than 2,000 bbls. have been caught. The gaspercaux is taken in a set net.

A meeting of the S. W. Boom Directors was held yesterday in Judge Willistons office, Newcastle. They intend taking steps to have the navigation opened on the South West next week. A Caution.

The Harbor Master has informed the proprietors of the different ballast wharves that they will be obliged to build new side blocks to their wharves, to prevent the ballast falling into the river. The Hutchison wharf is in a scandalous state, and the proprietor should have been brought to book before this to answer for its condition. And this is not the only one.

Indeed, the substance of Mr McDade's argument went to show that as in ancient and mediæval times statesmen aided the progress of true civilization by favoring the diffusion of education among the masses, by creating institutions to repress the tribulent passions of the semi barbarous multitudes of Europe and by bringing them under the salutary influence of law and order, sc have they always maintained public prosperity and private security while they prevented any flagrant violation of individual rights and privileges.
