NAPOLEON A MYTH.

WE live in such an enlightened age now, that the very existence of our grandfathers is doubted by the keen eyed critics. It is indeed doubtful enough if the whole world as it appears about us, is not the idle dream of some conscious and speculative protoplasm, and not a world with a blue firmament lit up with a million stars, a globe covered with land and sea and diversed with hill and dale, mountain and meadow. Old Descartes it was, if our little reading has not misled us, who pondered for many years whether he was alive or not, or whether it was not a mere atom floating about in the abyesmal depths that was dreaming; but having satisfied himself that he thought at anyrate or dreamt, he set down the first canon of his philosophy cogito, ergo sum, -- I think, therefore I am. Like all of his school, he set

out with a doubt, and lost himself. The latest piece of modern skepticism is Bonaparte et son Temps by Colonel Jung, a Frenchman who has undertaken to "clear away the rubbish" from the figure of Napoleon, that the public may get a look at the man as he is. He has had access to libraries of every kind, and eyen to manuscripts yet unborn, and he discovers after all this, a poor, weak man under the mantle of the Em-! peror. He first doubts about "Napoleon" being Napoleon at all, and tells a long story of two babies born in Corsica, and says these two bables got so "mixed up" that Napoleon did the mercury freezed, and wild beasts not even knew himself, or who or roamed about half starved seven

Irish National Land League of United States.

Boston, Feb. 4 and the American People:

The crisis has been reached in Ireland. It is not the unexpected that has happened. The suppression of free speech, arrest without bail, darkening the land with spies and remedy-all these were inevitable. England moves but slowly towards justice.

1,248,638 To the outrage upon her people's representatives, to the attempt to place Ireland upon her knees, to beat and scourge her 2,000,000 before righting her wrongs, to the arrest of 12,000,000 Michael Davitt, let America answer in 245,166 protest. As the fire flamed upon all the 6,000,000 hills in that olden time when the edict went 1,000,000 forth, so now in America let fires of your indignation blaze. Call public meetings everywhere at once; as you saved the Irish people from death and roused them from despair, show your sympathy is still with 47,000,000 them in their grand struggle for justice. Members of leagues, knit close together, add 3.000,000 to your number, form new branches in every place where friends of the cause can be found and place yourselves in immediate communication with us. Ireland moves fast to her supreme crisis. We must be close together when the hour strikes. Trust to the wisdom and prudence of the Irish leaders. They are cheered and sustained by your sympathy.
