They are too extensively pre-valent, however, not to be deserving of serious consideration; and the more so, as they are scarcely enjoyed any privileges that have not been conferred upon other protestant dissenters; and the Roman Catholics have received a larger amount of pecuniary assistance. Nor is this all for it was after juster views seemed to be, and as your memorialists believe, were maintained that a measure more obnoxious to Presbyterians, than any that had ever taken place in Canada was carried into effect, by which rectories were established throughout the province. The disapprobation expressed at the Colonial Office, in regard to this ill-advised proceeding, could not fail in some degree to restore the confidence of the imits of the jurisdiction of the rectors, may to a certain extent allay the fears that were excited in the prospect of the new arrangement. Your Memorialists would consider themselves warranted in lodging these complaints with your Lordship, though the Presbyterians formed only a small section of the population in the provinces. But their case commends itself more to the ordinary sympathies of mankind, and assumes a greater importance in a political point of view, when it is considered that the Episcopalians constitute the smallest of the four great religious denominations in the Canadas; while the Deschyterians at least in the Unper Prothe Presbyterians, at least in the Upper Province, if not the most numerous, are at least as numerous as any of the denominations. The people of Westmorland however had the law of the law. The people of Westmorland however had the law of the law o it is difficult to state with accuracy, the relative numbers of different religious denominations .-But your memorialists, after much anxious in-quiry, the grounds of which they are prepared to lay before your Lordship, think that they are warranted in making the above statement.— Your Memorialists are also persuaded that the Presbyterians, as loyal and useful subjects and citizens, are on a level at least with any of the religious sects in Canada. The great body of the merchants-many ef the most successfu farmers—the best class of servants—are of the Presbyterian Church. These statements are made on the authority of respectable individuals both the Clergy and Laity in Canada. And your Memorialits are prepared to submit to your to this effect, if required by your Lordship. It is readily conceded, that, of the learned professions and of those who are of the greatest wealth and longest standing in the province, the majoover supply owing to the multiplication of ject would be prepared to make amendments. ists are convinced that your Lordship will not for a moment admit the justness, or sound policy of what has yet long been practically acted upon, that the rights of one class are to be sacrificed to the learning, or wealth, or station of another, and that a more limited portion of the community. And, besides, it is among the greatest grievances that Presbyterians in Canada complain, that while in the earlier periods of the history of the Province, many of the most respectable Scottish families were forced to becommunity. And, besides, it is among the at St John, to afford information during the come Episcopalians in consequence of no provision being made for a Presbyterian Clergy—the policy of the local government has been always Mr. Hill said probably t so directed as to act as a bounty for Episcopacy. A proposal had been formerly made, that a gether party, and that then the learning and wealth and power, which have been thus secured to that other party, should be employed as an argument for perpetuating the injustice.

Your Memorialists have only further to encroach upon your Lordship's time, by adverting to the strong feeling that exists amongst the Scottish settlers upon this subject. The Clergy Reserve question has been justly stated in a high quarter, as "the all-important question."
