FOR SALE.—District School Assessment Blanks and School Tax Notices for sale at the GAZETTE office.

FOR SALE.—Notes of hand and receipts for sale at the QUEENS COUNTY GAZETTE office.

HOLIDAY TRIP.—The steamers from the city on Saturday were crowded with people on their way to the country to spend the 24th.

VICTORIA HOSPITAL FUND.—The subscriptions to the Victoria Hospital fund, of Fredericton, has reached the sum of \$8,308.75.

THE RIVER.—The water in the river has fallen three feet the past week, and will, no doubt in the course of two weeks be as its usual height.

THANKS.—The Misses Currie wish through the columns of the GAZETTE to thank their many friends for the kindness shown in their late trouble.

COLLECTING FOR THE DEAF AND DUMB INSTITUTION.—Mr. J. P. G. Woodridge, of Fredericton, is in town collecting for the Deaf and Dumb institution of that city.

TROUT FISHING.—Judge Ebbett and Messrs. J. W. Dickie and G. DeVeber spend last Friday fishing trout at Otnabog. They returned with a good catch of speckled beauties.

A LARGE CATCH OF SHAD.—Mr. Abner Belyea caught one hundred and fifty shad in Hart's Lake, on Monday night. The fish were of good size and pronounced very fine. This is a good catch for one man.

DEATH AT BLISSVILLE.—The death is announced at Blissville, Sunbury Co., on the 14th inst., of Thomas E. Smith, a prominent resident of that district, in the 62nd year of his age.—Gleaner.

BRAYLEY'S ENGAGEMENTS.—Brayley, the lightning chalk artist, gave an entertainment in Hampstead on Monday evening. He will give entertainments in Sheffield Academy on Thursday evening and on Saturday evening at Sheffield.

LARGE BEAR.—The carcass of a bear weighing about 400 pounds was brought down river on Saturday on the David Weston by a resident of Belyea's Cove, who shot the animal on the Washademoak. The carcass was taken to the market, where the hide was sold for \$30.—Sun.

VERY HELPLESS.—A man by the name of Hamilton stayed in town Monday night and took the up river steamer Tuesday. The lower part of his body is paralyzed and he had to be carried to and from the steamer. He hurt his spine while working in the woods in Prince Edward Island.

WHEELED FROM ST. JOHN TO FREDERICTON.—Messrs. W. McLellan, F. Ferguson, J. P. Barnes, and W. F. White, of St. John, arrived in Gagetown on Sunday night from the city on their bicycles. They left again for Fredericton on Monday morning to take part in the bicycle procession in that city on Monday.

MISSIONARY MEETING.—Miss Robertson, of St. John, delivered a very interesting and instructive lecture in the Methodist church on Wednesday evening last on missionary work in Japan. Quite a large audience was present and Miss Robertson's address was highly appreciated by all.

LOST HIS HAND.—A serious accident happened at McDonald & Co. mill, Cambridge, on Monday. Eston Beach, one of the men employed in the mill, had the misfortune to have one of his hands cut off by the big circular saw. Dr. M. C. McDonald rendered the necessary surgical aid. At last accounts the young man was doing well under the circumstances.

QUEEN'S BIRTHDAY.—The Queen's birthday was very quietly spent in Gagetown. The stores were open and with few exceptions it was not observed as a holiday. This was undoubtedly due to the fact that Her Majesty's diamond jubilee is so near at hand. In the evening quite a display of fireworks took place under the management of the small boys.

COUNTY COURT.—The county court opened on Tuesday morning. Judge Steadman presiding, Mr. A. W. Ebbett acting as clerk of the court. The following petit jurors were summoned by Sheriff Reid:—Wm. H. Bulyea, C. S. Babbitt, John McKinney, Wm. Woods, J. P. Bulyea, Fred Dingee, Wm. McKeague, Henry J. DeVeber, Isaac Fox, Howard Weston, Enoch Carrier, and James McAllister.

MORE COMING.—Will arrive on Wednesday another supply of Thomas Phosphate Powder, the only English phosphate sold in Canada. It is only produced in Bohemia, Germany, and England, and notwithstanding the fact it is produced in Germany, the Government report of that country shows the English manufacture to be twice as good as the German. It is more lasting than any other phosphate in the market. It is a mineral and chemical phosphate, and does not wash away in the soil. One ton of this phosphate contains 400 pounds of phosphoric acid or nearly as much as 100 tons of farmyard manure. Give it a trial. For sale by C. E. Lockett.

CHRISTIAN ENDEAVOR CONVENTION.—The first New Brunswick Christian Endeavor Convention will be held in St. John, commencing Wednesday evening, August 11th and closing on Friday, August 13th. A good programme is being prepared. Each society is entitled to send two delegates, and also the pastor and the junior superintendent. The St. John Local Union is preparing for the reception and entertainment of the visitors.

THE STEAMERS.—Quite a lively scene was witnessed around and about the Public Wharf, on Monday, at noon, when the steamer May Queen arrived. The wind was blowing a gale, and the current very strong. The May Queen reached the wharf and put out two hawsers, which snapped like pipestems, thus leaving the steamer adrift. The Olivette which was close at hand, then tried to make the same landing, but she too was driven back by the wind, and dropped an anchor to save her from going on the bank. The anchor-chain was not fastened, and they left the anchor and chain at the bottom of the creek. In the meantime the May Queen, through the good management of Capt. Brennan again made the wharf, and this time was successful in landing her passengers and freight. The Olivette again tried to reach the wharf, but could not do so, and a passenger had to be taken out in a small boat.

TEACHERS' INSTITUTE.—The teachers' Institute of Queens and Sunbury counties met at Hampstead on Thursday, the 20th of May. The Chief Superintendent, Inspector Bridges, Mr. Brittain, of the Normal school, and about 40 teachers were in attendance. Wm. M. Veazy, B. A., was elected president; H. A. Sinnott, B. A., Vice President and H. G. Perry, Secretary-Treasurer. Miss Briggs and Miss Cambridge were also elected additional members of the executive. During the afternoon Mr. Brittain gave a lesson in drawing and explained in his practical way, after supplying paper and pencils to the teachers, how to proceed to draw a map. Dr. Inch and Inspector Bridges took part in the discussion which followed, and warmly complimented Mr. Brittain on the excellence of the lesson. In the evening a public meeting was held, at which Mr. Veazy presided. Dr. Inch was the first speaker, and gave a sketch of the progress education had made in this province during the forty years since he first entered the teaching profession. The Rev. Mr. Foster was glad to see the interest manifested in the work by the teachers, and congratulated them on the improvement made. Inspector Bridges was of the opinion that the idea of loyalty was not so largely instilled in the pupil as it should be, and took issue with Mr. Brittain on the mode of teaching the geography of foreign countries before that of our own. Mr. Brittain thought the reading required in the common schools was not the best that might be procured, and that lessons from Nature or from something which the pupil could see for himself could well be substituted. On Friday morning Mr. Brittain took the teachers on a botanical excursion, and an interesting time was had. During the morning session papers were read by Mr. Dykeman on "Music in the Schools," and by Mr. Sinnott on a plea for the spread of literature. Both papers called forth considerable discussion from Dr. Inch, Rev. Mr. Foster, Inspector Bridges, Mr. Cox, Mr. Brittain, Mr. H. H. Bridges, the president, and others. In the afternoon Mr. Brittain gave a second lesson in drawing and Mr. Veazy read a paper on the "Relations of Teachers to the Profession, and to the District." This paper also called forth considerable discussion, somewhat adverse to the Maritime Teachers' Agency, and a motion was passed that the President of the Queens and Sunbury Teachers' Institute correspond with the presidents of other provincial institutes looking to the forwarding of a teachers' fraternity, by which those out of schools might be notified of vacancies. After the passing of votes of thanks to Dr. Inch, Inspector Bridges and Mr. Brittain for attendance, the Institute closed to meet in Gagetown on the Thursday and Friday proceeding Labor Day, 1898. The members of the Institute speak very highly of their treatment by the people of Hampstead and returned warm votes of thanks to Mr. Forster, Mr. Shultz and others, who so kindly assisted them in the work.

DEATH OF MR. THOS. E. SMITH.—Once more the grim messenger has put in his sickle and another ripe sheaf has been garnered, and we are called to mourn the loss of one of our best known and most respected neighbors, Mr. Thos. Endicott Smith, who died at his residence in Blissville, on Friday, May 14, aged 61 years and 7 months. Less than a year ago heart trouble developed, and, despite the best medical skill, made rapid progress. He met the last enemy with patient resignation, upheld by a firm faith. The interment took place on Sunday morning, and though the notice of the time was necessarily short, a large number followed the remains to the grave. An afternoon service of a funeral character, was held at the hall, and the great throng which gathered there bore eloquent testimony to the high esteem in which Mr. Smith was held. Rev. H. E. Dibblee, missionary in charge of Blissville and Gladstone, conducted the funeral services, by special request of Mr. Smith, and delivered a thoughtful and impressive discourse on the intermediate state, and recognition of friends in the other world. A large choir sang several very appropriate hymns. Mr. Smith was a descendant of the Loyalists, and was born in the home in which he died. His father, Daniel Smith, was the first person to be buried

in the graveyard where his body now lies. Mr. Smith leaves a wife, one son and two daughters to mourn a loss which is shared in by a very large circle of sympathizing friends.

Rev. H. E. Dibblee held divine service in the hall at the Junction, on Sunday evening last, and preached an excellent sermon on lessons from the life of Baalam. Mr. and Mrs. Dibblee and son left on Monday morning for Woodstock. The next service is announced for Tuesday evening, June 1st, at 8 o'clock. Rev. George E. Foster, of Hampstead, formerly pastor of the P. C. B. church at the Junction, and Tracy, is now here on a short visit. His many friends are glad to greet him. The run of Gaspereau has been very limited this season, presumably on account of the extensive rafting operations in the river. "Wedlock joys, so soft and sweet," are very soon to be experienced by more than one couple, in the very near future, if dame rumor is to be credited. We extend congratulations in advance. Farmers in this vicinity are beginning to tickle the soil, but the response is rather cool. Grass is springing fresh and green, about the only green thing in this place.

What a blessing it would be to humanity if all suffering men and women knew just what Paine's Celery Compound is able to do. The work that cannot be done for the sick in long years of experimenting with other medicines is successfully carried to victory by Paine's Celery Compound in a few short weeks. The cure of Mrs. Hopper fully proves the assertion made above. After years of failures, misery, agony and despondency, Paine's Celery Compound made a "new woman" of one who had become a mere wreck—one who was fast nearing the grave. Have faith, sufferer! A strong deliverer is ever ready to help you! From to-day let your hope be centred in Paine's Celery Compound and its power to cure. It has never disappointed any; it cannot fail with you. Read Mrs. Hopper's wonderful testimonial: "With very great pleasure and satisfaction I wish to add my testimonial to what has already been said in favor of Paine's Celery Compound. For a very long time I suffered from general debility and run down system. Having heard of Paine's Celery Compound, I determined to give it a trial, and I am happy to say it has done for me more good than I can express. For ten years I was doctored with other medicines without any good results; but after using Paine's Celery Compound I am perfectly restored to health, can eat well, digestion is good, and my sleep is sweet and sound. Altogether, I am a new woman. I always recommend Paine's Celery Compound to my friends."

MARRIED.

At the residence of the officiating minister on the 18th inst. by the Rev. G. W. Foster, Mr. Chas. A. Donald of Peterborough, Queens County, to Miss Charlotte McFadden of Hampstead, Queens Co. N. B.

DIED.

At Hampstead, Queens County, on the 17th inst. Catherine VanWart, aged 80 years, leaving one son, four daughters and three brothers, with a large number of relatives and friends to mourn their loss, which we believe was her "eternal gain". Sister VanWart professed religion and was baptized by Elder Samuel Hart, Sept. 23rd 1833, and united with the Central Hampstead P. C. B. church, of which she remained a worthy member until her death. She was widely known, and highly respected by all who knew her; and especially by our older ministers, who ever found the doors of her home open, and a warm welcome awaiting them. Our sister has fought the last battle, conquered the last enemy, and entered her "master's joy". Her funeral services, which were largely attended, were conducted by the Rev. G. W. Foster, assisted by the Revs. C. B. Lewis, and G. F. Currie at the Central Hampstead church on the 19th inst.
