THE LABORATORY METHOD

The new way trains the student to transact business and keep books by the natural method that is followed in

learning all other professions requiring the skill that comes from technical training.

The schools that continue to follow the old text-book plan of teaching bookkeeping are at least a quarter of a century behind the age.

HONEST TALK.

Is it not high time that all the world should know and understand that the drink traffic is an accursed business, that its gains are gains of ungodliness, and that its wealth is the price of blood? Years ago this was not fully understood. and good men engaged in this bad business; but if in past years God had winked at "the time of this ignorance" does he not now command all men everywhere to repent?

In America we should hardly expect a great brewer to be treasurer of a religious society, or chairman of a missionary meeting, or prominent in working for the welfare of his kind. In England it is somewhat different, as indeed it was in America a half a century ago. There is much to be done to get good men out of bad places and bad business.

"Some time ago," says Profesor W. G. Blackie, "I received a letter from an eminent London brewer, a philenthropist, asking for a subscription for the Reform-

occuping positions which hundreds would having counted the cost, to proceed withstrive a lifetime to attain, come to beg- out fear or favor, to enforce the law. When gary from drink. AN IMPORTANT CASE.

A Pedlar Sent to Prison for Representing an Imitation. Pill to be the Same as Dr. Williams' Pink Pills-A Far Reaching Decision.

MONTREAL, Jan. 24, 1898.-A case of more than ordinary interest to the public came before Judge Lefontaine here today, the facts being as follows: For some time past one H. E. Migner has been going about pedling a pill which he represented as being the same as Dr. Williams' Pink Pills. The Dr. Williams' Medicine Co. placed the matter in the hands of Detective Haynes, of the Canaatory Union. I took the liberty of asking dian secret service, who soon had collect-
