Latest War News.

New York, June 16. - A despatch to the Herald from Cadiz via Gibraltar says: There is great excicement here owing to fears of the American fleet coming to Spain. It has decided to send further reinforcements to the Balearic Islands, the Canaries and Ceuta.

The reserve squadron, consisting of two land in safety. ironclads, one torpedo boat, one cruiser, and two torpedo boat destroyers sailed at dawn yesterday, but returned in the evening. These mysterious movements are doubtless intended to mislead, and any alleged sailing of the fleet should be received with the greatest caution.

The auxiliary cruiser Ciudad de Cadiz has left here under sealed orders.

From hints gathered in official circles it is believed the squadron will sail singly or in pairs under sealed orders to meet at a given point, probably on the high seas, some rendezvous in the Saragosa sea, off the Azores, where the vessels will be outside the usual track of shipping and able to wait quietly for their consorts in order to sail together.

Captain Aunon has expressed great annoyance at the continued delays. He declares his intention of reforming the present system at the arsenals and of abolishing the red tape methods hitherto so prevalent.

The minister favors such drastic changes that it is uncertain whether the squadron is remodelled yet to his satisfaction. Anyhow the Alfonso XIII. is apparently a failure and probably will have to be replaced.

A consultation has been held between Marquis Camillas, the president of the Trans-Atlantica company, and Captain Aunon respecting the retention of the British engineer of the auxiliary cruisers. Bissett, an engineer on the Leon XIII., has signed for one.

General Valdez has arrived with more ammunition.

A report has reached Cadiz that Rear Admiral Dewey is short of ammunition. San Francisco, June 15.—The transports Zalandia, China, Colon and Sar sailed for Manila with the second Philippine expedition at 1.45 p. m. to-day under hit ten times and a marine in the cutter command of General F. V. Greene. The troops embarked were 10th Pennsylvania; 1st Colorado; 1st Nebraska; one battalion 18th United States Infantry; one battalion 23rd United States infantry; batteries A and B Utah artillery; detachment United States engineer corps with general and staff officers, surgeons, hospital corps men and post office employes. The total embarkation was 3,540 men. The fleet departed followed by the cheers of thousands, the blowing of whistles and the booming of cannon. The men on the transports cheered themselves hoarse. Arrangements are now being made for the sailing of the third expedition. It is believed the fleet will be ready by June

New York, June 16.—A despatch to the World from Tangier, Morocco, says: The Spanish reserve squadron, under the command of Admiral Camara, has not sailed from Cadiz yet. All the vessels belonging to the squadron were anchored there to-day.

New York, June 16.-A despatch to the World from Madrid, Spain, says: The situation is daily becoming more critical for the government. The ammany have been authorized to protect the Queen and the royal family in case of need as far as diplomacy can do so. The government has increased the peace and military precautions, but dares not take measures of repression so long as the Cortes is in session. Hence the desire of Sagasta, Silvela, Campas and even Romeo Robledo to close the debates. Sagasta is holding on to the premiership for sheer loyalty and dogged resignation of fate. This leaves the Queen Regent one more card to play. When the apprehended reverses at Manila, Santiago and Porto Rico take place, it is expected that if the dreaded revolutionary movement is not too violent, the Regent will call upon Senor Silvela and the Conservative generals to save the throne and make peace. The diplomatic corps regards the situation so grave that no member thereof has asked for the usual summer leave. None will leave the capital if the Queen remains, as it seems likely that she will.

KINGSTON, Ja., June 16.—The American marines who landed in Guantanamo Bay last week made their first aggressive movement against the Spanish guerillas on Friday and completely routed the enemy. A force of Cubans co-operated with the Americans. The Spaniards were attacked at a camp surrounding the which they depended. The well was destroyed and about 40 Spaniards were killed. One American marine was slightly wounded and two Cubans lost their lives.

The Cubans under General Rabi have occupied Acerraderos, eight miles from Santiago, and practically a suburb of the Spanish stronghold. The port has iron wharves, which will afford ample facilities | ing, the rev. gentleman was struck by for the unloading of General Shafter's invading expedition.

Yesterday at daylight the launches of the both of which points lie east of the range | Synod and was well known in that vicinof mountains surrounding Santiago bay. ity. The launches pushed their noses into a hornet's nest. The brush was fairly alive with Spanish troops, infantry and cavalry, and the fire opened upon the launches was so severe that their retreat had to be covered with the Vixen and the Texas. When the asked permission of Commodore Schley to take a hand, the commodore seized the megaphone and shouted to Captain Philip: "Yes, go in and give 'em —, Jack." The Texas landed several four-inch shells on the battery at Carbanas, completely demolishing it. Lieut Sharpe of the Vixen and Lieut. Harlow, in command of the launches, were both complimented by Admiral

Sampson for gallantry. Lieut. Harlow in his official report of the expedition warmly commends Cadets Hart and Powell, who were in charge of the launches, Coxswain O'Donnell and Seaman Bloom, as well as the marines and sailors, for their cool behavior under

Madrid, June 19, 7 p. m, —A private despatch received here from New York says General Shafter's expedition has landed near Santiago De Cuba and will attack the town immediately.

KINGSTON, Ja., June 18.—A hot brush between some Spanish troops and a reconnoitering party in cutters occurred at daylight Friday morning in a small cove west of Morro Castle, Santiago. The Massachusetts' steam cutter entered the cove to take surroundings and recon-noiser. When well inside the inlet a detachment of Spanish infantry opened fire ously returned by the marines who were in the New York's cutter, which had followed in. The New York's cutter was of the Massachusetts had the stock of his rifle shattered, but by great good luck no one was hit. The Texas opened fire with her six pounders and the Vixen steamed right into the cove and peppered the blockhouse with her rapid fire guns. Eventually the Spaniards retreated to the woods and the two steam cutters with-

The Yankee arrived here Thursday and Captain Brownson reported that on Mon day last while off Cienfuegoes a Spanish gunboat came out to meet the Yankee, evidently mistaking her for a merchant vessel. The Spanish, however, soon saw his mistake, turned tail and opened fire, which was hotly returned by the Yankee. The latter chased the gunboat until the Spaniard took refuge in the harbor, where forts opened fire on the American vessel. Thereupon the Yankee engaged the eastern and western batteries, but seeing no chance to catch the gunboat, Captain Brownson returned.

GIBRALTAR, June 18.—Four thousand troops, on transports, it is asserted, are with Admiral Camara's fleet.

New York, June 18.—The Evening World under Washington date says that at the cabinet meeting yesterday it was decided that the invasion proper of Cuba, and proposed attack on Havana shall not occur untit fall. The paper claims to have obtained this information from a high source, coupled with the assertion that President McKinley and Secretary bassadors of Austria, Russia and Ger- Alger were loath to consent to this long delay, but, having been convinced that the exposure to disease would be very great if the campaign should be conducted in the rainy season, they withdrew their objections. This does not interfere with the operations at Santiago de

GIBRALTAR, June 20.—There is a persistent report from Madrid that the Queen Regent proposes to abdicate in consequence of the critical condition of the country.

Killed on the Rail.

HALIFAX, N. S., June 11.—The unusual occurrence of two fatal accidents on the I. C. R. was made known to-day. when two trains arrived at Truro, each having the body of a man killed on the rails. The two bodies rested in the station and a double inquest was held, the verdict in both cases being accidental death. One of the victims was Isaac Boutileer of Cape Breton, killed by the Mulgrave express near Westport, and the other, Fred Edgett, a mill hand at Stewiacke, and killed by the milk train.

Bathurst, June 11.— A man supposed to be a Norwegian, who left the ship a few days ago and has been around Bathurst looking for a chance on one of the ships here, was run over and killed by the Maritime express passing here about noon yesterday, at the east end of Big River bridge, about four miles from

The fourth victim of the I. C. R. yesterday was killed on the Drummond county extension.

Mangled by a Car.

Montreal, June 11.—By a street car fatality, about half past seven last night, the Rev. R. J. Grant, B. D., of River John, Nova Scotia, was instantly killed. With five of his friends he had gond out for a spin on his bieycle, and returning along Notre Dame street in the even-

GENTLEMEN:-I feel it my duty to let the public know what Paine's Celery Compound did for me, and trust it will be a benefit to other sufferers. I was much reduced in flesh and in a

thoroughly broken-down condition, resulting from dyspepsia and nervousness. I was recommended to try the Compound; did shard three bottles has made me

a different woman. Previous to taking your Compound I had taken medicine from some of the best doctors in the city, but with no good results. Therefore I have every reason to be thankful for Paine's Celery. Compound, and take great pleasure in recommending it to others.

> MRS. M. THOMPSON, 610 Eastern Ave., Toronto.

In Memoriam.

In memory of Andrew B. Miller who died June 10th, 1898 aged 22 years.

Another youth is called away, Another home made sad, But he, Who hath bereft us, Can make the sad hearts glad.

Oh, how it yearned my heart when I be-His dear old mother grieving o'er her

Her youngest darling son, she loved so

Her sole remaining joy. Dear mother do not mourn for him, He's only gone before,

He's waiting with the angel band Upon the Golden Shore. Although you miss him sadly

As he lies beneath the sod, You know that he is happy With his Saviour and his God.

Then do not grieve dear parents, For the boy that was so dear, For Heaven's long years of bliss, shall

For all his children suffer here.

He is happy with the angels, Singing with the shining band, Reunited with brothers and sisters, Who have reached the Heavenly Land.

He is waiting up in Heaven For the loved ones left behind, May they be prepared to meet him When they leave this earthly clime.

God bless his father and mother And help them bear the pain, Until they meet dear Andrew And stand by his side again.

ADELIA E. BARTON. British Naval Manoeuvres.

London, June 18.—It is announced

that Great Britain will hold her usual annual manoeuvres this year. This has caused much speculation as to the reason for this step. In some quarters it is said it is due to lack of coal, owing to the Welsh strike. But in other quarters it is believed that important events are in sight. The officials of the British Ad-

mirality decline to give their reason for

abandoning the manoeuvres, and say it is

not because of lack of coal.
