The rain has been coming down steadily for forty-eight hours. The wise ones say we have had from three to four inches and as the general opinion is we only have seven inches of water in the course of a year we have had more than our share.

One of our genial St. John boys, James Ewen, is doing a big business at his Dental Parlors, Park House. He is pulling teeth broadcast, figuratively speaking.

DeVeber Neales, of Gagetown is also booming business at the Hub.

Lorrimer and Edward Baird, formerly of Chipman, are having a clearance sale of boots and shoes.

R. J. Lafferty is slowly recovering from severe illness.

Why do not the farmers of Queens go in to the raising of dogs. Here they are asking twenty-five, thirty and forty dollars for little bull dog pups; and five hundred dollars for a Boston terrier is small to what some pay. Would it not pay better than buckwheat. But then there are dogs that can do almost everything but talk, as is shown by Corrine, the Boston terrier owned by Joseph McMullin of this city. She can tell a counterfeit bill from a good one, a good half dollar from a bad-will go from a room on the top floor to the parlor and bring back what she is told to get.

The excitement here over the loss of the battleship Maine has quieted down a little, The general opinion is that the ship was destroyed by a torpedo. Two distinct shocks were felt by Sailor Thos. Melville, which strengthens the torpedo theory. Captain Sigsbee was warned of danger to his ship two weeks ago by a Spanish circular that yelled for "death to the yankees." A sailor, name not given, alleges that he saw a floating torpedo approaching the warship.

President McKinley announces that if the disaster was not an accident prompt measures will be taken.

Congress has unanimously voted money to build a new Maine. A Maine survi. vor will dive under the wreck to ascertain the cause of the disaster.

The Harvard cadets are all for war. It is a dreadful thing to contemplate that the poor human caterpillar has multiplied so fast, that the social cabbage is more than covered.

Sussex.

Feb. 25.-On Monday eve the 21st. inst., the thrilling drama, "The White Slave," was presented in Oddfellows Hall by the Boston Comedy Co." H. Price Webber, who is a general favorite with Sussex audiences is manager of the company and also takes the part of "Jock Whirlgig," a pedlar from Cow Cross in this piece. The leading lady of the company "Edwina Gray," delighted the audience with her charming impersonation of Ellianer De Fourville", an heiress, and the heroine of the play.

The evening's performance was concluded with the laughable farce "Rough Diamond."

The Minstrel show given in the Opera House, Thursday evening, the 17th inst., by the members of the Sussex Band was a grand success in every particular. The attendance was the largest ever seen in that building on a similar occasion.

The performance throughout was of the highest standard and justly merited the liberal patronage accorded it. The Petersville Church.

Red Bank.

We again intrude upon your valuable

space to let you know we still live. Health and happiness is enjoyed by all in this place. The only real trouble that seems to be creeping in amongst us is "Kiondicites" and we fear that ere long it will be the means of taking some away that we cannot well spare. Not long ago we noticed in a St. John paper that many young women had repaired to the "Land of Gold," not so much gold hunting as husband hunting. And since that time we learn of trunks being packed and hand

sleds rigged up, and breastplates for dogs, etc. And there is one thing sure if the great tide of immigration which our gov ernment is seeking to institute does not import some stalwart young men whose desire it is to build up our country we shall "welt" the road in the spring for the "Far away Alaska where the Yukon River flows."

We noticed in your issue of Feb 16th notes from Boston in which reference was made to Mrs. MacDougal and family. And I am sure I voice the mind of the people of this place when I say we rejoice to know of their comfort and prosperity and wish them every success in

life and even what might seem to be more than their share of the blessings that are to be bestowed upon the human family.
