June 6.—June named after June the goddess of classics is the pearl month of New Brunswick when:

"Every little stream is bright,
And all the orchard trees are white."

This is a busy month for the farmers and he has little time for looking at the blooming beauties of nature, through poets eyes as the practical side claims all his attention.

Mother Earth promises to reward him well for all his care as she is daily unfolding the lovely forms that cultivation glories in with a lavish hand such as she seldom displays at this season of the year.

"What is so rare as a day in June?
Then, if ever come perfect days;
Then Heaven tries the earth if it be in tune,
And over it softly her warm ear lays."

The daily mail, which arrives by train early in the afternoon, is now extended to Briggs' Corner and the Forks of Gasperaux. This is a great boon to the people in these sections who feel grateful not only to the present Dominion government in general but to Senator King in particular, in being instrumental in obtaining increased postal facilities so long sought for in former years but denied on one pretext or another until it came to be looked upon as a forlorn hope.

Now we have the privilege of getting the daily news of the world the same day it is printed and the papers printed in St. John in the morning we get them a little after dinner just in time to come in by way of dessert to the principal meal of the day.

The engine of the new saw mill at Briggs' Corner is being put into repair and will probably be got ready for use to-day.

Last week while sawing was suspended the workmen were kept employed in putting in the mill a lath machine which is also ready to work when the mill starts this week.

While the little unpleasantness our neighbors are having with Spain has caused many mills to shut down it is gratifying to know that Queens county is doing more sawing this year than for a great many years past.

Oromocto.

Visitors from the city and other places begin to flock to the village.

Among those who arrived on Saturday's boats were Mr. and Mrs. Harry Doherty and Miss Saxon of St. John, also Mrs. Charles Coster of Carleton.

Miss Sarah Wright arrived home last week after a stay of three or four weeks in St. John.

At present the interval road between Scovil's ferry and Mr. Bates is not passable on account of the washouts, which occurred during the freshet. It is possible work will be done this week so that the people can move along in safety with their teams.

It is reported that Mr. LeEaron Hanselpecker will commence blacksmithing this week. The farmers and others will be only too glad to welcome him here.

The debate which the club has been discussing during the last three or four nights of meeting was decided on Tuesday night. The chairman Mr. G. B. Knight expressed himself as being in a very difficult position as the arguments were so strong on both sides. Mr. Knight dwelt on this point: Did the United States try other means of settling the difficulty between them and Spain before war was declared. It was proved that they did not. So it was decided in favor of the side who argued that the United States was not justified in going to war with Spain.

A Wonderful Letter From a Grateful Man.

Paine's Celery Compound Saves His Life.

Physicians, Medicines and Mineral Springs Failed Him in His Time of Need.

A Prominent Druggist Vouches for the Truth of Every Statement.

WELLS & RICHARDSON CO.,

GENTLEMEN:—I think it my duty, without solicitation from any one, to write in the interests of other sufferers, and give you a testimonial in favor of your (to me) almost miraculous remedy, Paine's Celery Compound. From more than a year I was suffering from the agonizing pains of sciatica, and after trying all that medical skill could devise, and using many remedies, patent and otherwise, I concluded to try the Hot Springs at Banff. I took the treatment thoroughly and carefully for six weeks, and came home at the end of that time racked with pain and weighing 43 pounds less. At this juncture, when hope had almost fled, I heard of Paine's Celery Compound. It seemed suited to my case, and I sent to my druggist, Mr. J. W. Higginbotham, of this place, and asked about it. He recommended it to me, and I took a bottle I soon began to feel better and after taking the second bottle I was a cured man and threw away my crutches.

I keep a bottle on hand in case of any return of the complaint. I am now 58 years old, and I feel as spry and healthy and free from pain as I ever did in my life. I was born in Norfolk, England, and came to Canada when only three years old. I was brought up in the township of Cornwall, Ontario, and came to Manitoba eight years ago. Have always been a farmer, and am as able to do hard work now as ever I was.

With a heart full of gratitude for the benefits derived from the use of your remedy, and a wish to influence others who may suffer, I gladly and freely intend this letter.

Yours gratefully,

JAMES LEVERINGTON,

Virten, Man.

Mr. J. W. Higginbotham, the successful and extremely popular druggist of Virten, vouches for Mr. Leverington's statements, as follows:

I have known Mr. Leverington for two years or more, and can confirm what he says in regard to his cure by Paine's Celery Compound. Ever since his cure he has been sounding its praises, and he is a perfect enthusiast on the subject of Paine's Celery Compound. I believe him to be thoroughly reliable.

Pork Packing.

The question of establishing a pork packing factory in St. John was further discussed by members of the Board of Trade on Monday evening. Members of the committee reported having canvassed the scheme and having met with great encouragement. None, however, had any subscriptions to the report excepting Mr. T. L. Hay, who offered to take \$1,000 in shares.

Mr. Pakenham addressed the meeting and gave further information on the subject. There was money, he said, in the packing business, and he had never heard of a failure in it. The stockholders could put a man in charge of the finances and he would put an experienced man in charge of the practical details.

Mr. James Pender expressed a willingness to invest in the enterprise if a proper person could be found to take charge of it.

Addresses were made by various gentlemen present on the matter, and Mr. Gross, president of the Middleton Board of Trade, told of the enterprise recently started there and felt that a similar establishment could be easily started in St. John. After some further discussion

Messrs. F. L. Flewelling and James Pender were added to the committee to go further into the question of forming a company.

A vote of thanks was tendered to Messrs. Pakenham and Wright for remaining over and for the valuable information they had given.—Globe.

Wife Murder in Lowell.

LOWELL, Mass., May 31.—Samuel Maxwell, hostler, aged 26, shot and killed his wife, Christina Marie, aged 28, in Lakeview avenue at about 8.15 o'clock to-night while the streets in the vicinity were well lined with pedestrians and people sitting about on doorsteps and piazzas. The murder was evidently premeditated. He fired four shots. One struck just above the nipple of the right breast and one just above the left nipple and entered over the heart, causing instant death. The fellow made no attempt to escape and was soon landed in jail. He admits the shooting and says he is glad he did it. Maxwell accuses his wife of infidelity, but the people with whom she has lived say the charge is unwarranted. They had not lived together for four months, she supporting herself by working in a restaurant.
