ST. JOHN LETTER.

The State of Massachusetts with about ten times the population of this province, has nearly 700 public libraries containing about 7,000,000 books valued at nearly \$10,000,000. Aside from these it has 1344 religious and Sunday school libraries with a total of 856,064 volumes.

Members of the Hundred Clubs which are springing up all over the United States are pledged to endeavor to live more than a hundred years, to strengthen others in longevity, and to aid in the collection and dissemination of ideas relating thereto.

By the death of Hunter Duvar at Hernewood, P. E. I. on the 26th ult., Canada has lost one of its foremost men of letters, a poet, an essayist and a novelist, who will be read and admired among many of his contemporaries who are now better known, are forgotten.

Landsmen have a very imperfect idea of the carrying capacity of ships arriving and departing from this port. The Amethyst that sailed for Glasgow last Thursday carried away 107 car loads of timber, 250 standards of deal, 243 head of cattle, 83,048 bushels of grain, 11,596 sacks of flour and oatmeal, 555 boxes of cheese, 757 barrels of apples, 1496 bales of pulp, 1,114 bales of hay and quite a lot of miscellaneous cargo.

A Salvation Army congress attended by about 100 officers from all parts of the Maritime Provinces is in progress in this city and will continue four days.

A furiously driven hack dashed into a street car at the corner of King Street and Market Square last Thursday night, smashing the plate glass windows and endangering the lives of the passengers.

There are no further changes in the prices of flour although millers claim that the present cost of wheat is such that they are selling at a loss. There is a good deal of speculation in Chicago and the market prices of wheat are very uncertain.

St. John, Feb. 4. "Soudan."

CAIRO, Jan. 21.—The Official Gazette publishes a convention between Great Britain and Egypt relating to the future government of the reconquered Soudan

provinces. After reciting that the provinces were reconquered by the joint military and financial efforts of the British and Egyptian governments, and setting forth the desire to give effect to the claims that have accrued to Her Britannic Majesty's Government by right of conquest—the claim to share in the present settlement and future working and development of the administration of the territories—and pointing out that the territories of Wady Halfa and Suakin may be most effectively administered in conjunction with the reconquered provinces, the convention proceeds as follows:—"It is hereby agreed and declared between the undersigned, duly authorized, that the word Soudan in this agreement means all the territories south of the 22nd parallel of latitude, which have never been evacuated by the Egyptian troops since 1882 or, which, having been administered by the Khedive's Government prior to the late rebellion, were temporarily lost to Egypt and have been reconquered by the British and Egyptian governments acting in concert, or which may hereafter be reconquered by the two governments acting in concert.

"The British and Egyptian flags shall be used together on both land and water throughout the Soudan, except in Suakin, where the Egyptian flag alone shall be used.

"The supreme military and civil command in the Soudan shall be vested in one officer, termed the governor-general, appointed by Khedival decree with the consent of Great Britain, and to be removed only by Khedival decree with the consent of Great Britain."

The next clause gives the governor-general absolute power to make, alter or abrogate by proclamation laws, orders or regulations for the good government of the Soudan and for the regulation, holding, disposal and demolition of property of every kind situated in the Soudan, but all such proclamations must forthwith be given notice of to the agent of Her Britannic Majesty at Cairo, and to the president of the Khedival council. No Egyptian law, decree or enactment is to apply to any part of the Soudan, save by the proclamation of the governor-general.

Regarding the condition under which Europeans shall be permitted to trade, reside or hold property in the Soudan, the convention says: "No special privileges shall be accorded the subjects of any one or more powers. Import duties shall not be levied on goods from Egyptian territory, but they shall be leviable on goods from elsewhere. In the case of goods entering from the Soudan at Suakin, or any other Red Sea port the duties must not exceed the amount leviable upon foreign goods entering Egypt. Duties may be levied upon goods leaving the Soudan, the rates to be prescribed by proclamation.

The convention provides that the jurisdiction of the mixed tribunals shall apply to no part of the Soudan, except Suakin, and the whole Soudan, except Suakin, shall remain under material law until the governor-general proclaims otherwise. No consular agents shall be accredited to or allowed to reside in the Soudan without the previous consent of Great Britain.

The importation or exportation of slaves is absolutely prohibited, and special attention is to be paid to the enforcement of the Brussels Act of July 2, 1890, in respect to the import, sale and manufacture of firearms, munitions and distilled or spirituous liquors.

The convention which is dated at Cairo Jan. 18, 1899, is signed by the Khedival minister of foreign affairs, Boutros Pasha Chali, and by Lord Cromer, British agent and consul-general in Egypt.

Makes People Well. Paine's Celery Compound the Chosen Medicine of All Classes in Our Dominion.

The reputation of Paine's Celery Compound extends from day to day. Those who stand in need of the healing and recuperative powers of nature's health restorer are advised to use it by those who have been made well and strong. In the house, on the street, and where people congregate, Paine's Celery Compound is ever recommended and kindly words spoken in its favor.

The wealthiest families of the land, the best and most observant people in our cities and town, and the common-sense people in our agricultural districts, place Paine's Celery Compound far above all other known remedies.

The past and present history of Paine's Celery Compound is one grand continued story of sick people made well—of fathers, mothers, sons and daughters restored to perfect health.

Competent medical authorities declare that Paine's Celery Compound is the one great medicine for run down and physically weak people. When the vital forces are low and the nervous organism shattered, then it is that the marvelous medicine manifests its wondrous healing virtues.

Canada's Future.

Canada's future is a subject which has been taboed for some time, but is again to the front in enlarged proportions. In the January number of The Canadian Magazine, three articles are devoted to a discussion of our foreign relations. John Canuck points out that our sales to the United States are not increasing like our purchases; while on the other hand our purchases from Great Britain are declining while our sales to the Motherland are increasing.

Billy—So ye didn't git nuthin' but a jacknife and a sled for Christmas? Tommy—Yes. Dat's all I got worth speakin' of. Dere wuz a suit uv clothes, and a overcoat, and a bat or two, and some underclothes, and a bible, and a book uv poems, and some stockin's and gloves, and collars and cuffs, and a few other trifles like dat, not worth speakin' of.

Two Irishmen were one day discussing the respective merits of the sun and moon. "Sure" said Patrick, "the sun gives a stronger light than the moon." "True answered Brian; "but the moon's the most sensible." "How do you prove that?" says Pat. "Aisy," responds Brian "for the moon shines in the night when we made it and the sun comes out in the broad daylight when a one-eyed man can see without it."
