Local Legislature Opens.

FREDERICTON, March 23.—At 11 o'clock this morning Chief Justice Tuck swore in the members of the House. All were present excepting Messrs. Laforest and Gagnon, of Madawaska, who are in a snowed-up train, and Messrs. Mott and Pugsley, engaged in legal cases.

The formal opening of the Legislature took place at 3 o'clock. The weather was beautifully fine, and the turnout unusually large. Many St. John people being among those on the floor and in the galleries. The Lieut. Governor drove to the House, accompanied by Major Hemming, D. O. C.; Lt. Kaye, aide-de-camp, and R. Smith Barker, private secretary. He was received by a guard of honor from the Infantry School, under the command of Capt. Nagle, and the band of the 71st, while a salute of fifteen guns was fired from a battery on the river front. His Honor, after taking his seat and learning that the Speaker had not been selected, retired, and then Mr. Geo. F. Hill, of Charlotte County, was chosen Speaker. Then His Honor returned, greeted the new Speaker, who was supported by the clerk and deputy clerk, the sheriff and coroner, and delivered the following address:

Mr. Speaker, and Gentleman of the Legislative Assembly:
It gives me great pleasure to welcome you as the people's representatives returned at the recent general election.

We have great cause for thanksgiving that the many blessings which our people have in the past enjoyed are through the mercies of a kind Providence still continued to us.

You are already aware that since the last session of the Legislature Her Majesty has been pleased to appoint the Earl of Minto Governor General of Canada. I am sure that you will join with me and the people of Canada generally in extending cordial greetings to His Excellency, in whom we shall, I feel assured, find a constitutional representative of our beloved Queen.

The expression of welcome which we loyally accord to the new Governor General will not lessen in any degree the regrets which we experienced at the departure of the Earl of Aberdeen, whose untiring zeal and devotion to the Canada signally characterized his administration and served in a marked degree to cement the bonds which attach our people to the Empire.

The increased prosperity of the Dominion during the past year in trade and commerce, and the extent to which the resources of Canada are becoming known throughout the empire and the world, encourage the trust that there will be not only a continuation of such conditions, but greater activity in all industrial efforts during the current year over all portions of the Dominion, and that the high hopes of the people as to the future of our country will be abundantly realized.

The interesting character of the exhibit made by this province at the Sportsmen's Show, held in Boston in March last, did so much to bring to the notice of the people of this continent the unrivalled opportunities which we offer to the sportsmen and tourist, and was in all respects so promotive of good results, that the expectations of my government in undertaking the display were, I am pleased to say, more than realized.

The awakening interest which I am glad to note is being taken in the mineral resources of our province has encouraged my government to take further steps to secure the prospecting and development of such heretofore dormant wealth of our country's undeveloped resources, and a measure having this object in view will be submitted for your consideration.

The efforts already put forth by my government in the past to stimulate and advance the agricultural interests of New Brunswick have been fraught with such favorable results that further advances in this same direction are deemed desirable, and there will be presented to you propositions to develop and promote that branch of animal husbandry known as pork raising, with a view of the promotion of pork packing establishments in our midst thus enabling us as a province to more successfully compete with other provinces and states in the markets of Great Britain and other countries.

The pronounced success which has attended the efforts of my government to advance the cheese industry has encouraged them to make additional strenuous efforts to induce the manufacture of creamery butter throughout the province during the whole year. To this end their has been erected a model creamery and butter making establishment at Sussex, which is now in successful operation, and has so fully demonstrated the fact that butter of the best grade can be advantageously made in the province, at all seasons, that the government confidently anticipates that similar industries will be established as the result of private enterprise at all suitable points; already one such industry has been started at Woodstock. This establishment at Sussex has incidentally enabled the government to provide the very best facilities for a provincial dairy school.

The desirability of encouraging the settlement of our public lands by our own people and by suitable immigrants from other lands has been recognized in the past by the government, and I feel assured that there is no abatement of that desire upon the part of the present Legislature and the people generally. The authority given at their last session has been acted upon, with results that promise favorably, but it is realized that if we are to encourage any appreciable flow of desirable settlers from the old lands it will be necessary to have more and better information; in succinct form, as to the natural features and varied resources of our whole province, and if its facilities for every branch of industry, than has heretofore existed, with a view of its judicious dissemination and distribution among the people of Great Britain and other European countries.

The interest which is being taken by our people in the subject of improved highways, and the construction and maintenance of our common roads, has resulted in much intelligent discussion as to how these objects can best be obtained. In view of this, you will be asked to make provision for the introduction of modern road machinery, so as to demonstrate to the people, as far as possible, its utility in making and maintaining proper roadways.

The long-standing claim of the province against the Dominion in the matter of the Eastern Extension Railway has, during the recess, received attention, and you will be gratified to learn that my government has the strongest encouragement to hope that a speedy and satisfactory settlement will be effected in the near future.

The recent decision of the Judicial Committee of the Imperial Privy Council, dealing with the subject of the fisheries, and the respective rights therein of the provinces and Dominion, confirms the claim made by the provinces to valuable and extensive fishing rights over which the Dominion government have hitherto assumed the exclusive property and control, and define more fully than had before been done the respective jurisdiction of the Federal and Local governments over the subject matter of the fisheries, at the same time leaving unimpaired the duty cast upon the Dominion to foster and protect all fisheries. A committee of my government, early in the year, held a conference on the matter with a committee of the Federal government, and their report will be submitted to you, from which it will appear that the Department of Marine and Fisheries claims that, while the judgement of the Privy Council is explicit upon most points it still, unfortunately, leaves open to question the claim of the province to proprietary rights in those shore fisheries located within the three-mile limit, and below low water mark. In view of the interests involved, it is desirable that my government should be placed in a position to enable them to deal fully, effectively and promptly with the whole subject matter, and with all conditions and phrases of the questions which are liable to arise, and to this end a measure dealing with the subject will be submitted to you.

The unprecedentedly high price realized from the sale of Provincial 3 per cent. bonds issued in February, 1898, to redeem outstanding debentures then maturing, was most satisfactory, demonstrating, as it did, the very excellent standing of the province in financial circles. Since then my government have effected the sale of 3 per cent. bonds at par, thus evidencing the fact the financial credit of the province not only stands very high, but is advancing in a marked degree. A measure will be submitted to you giving authority to redeem, from time to time, as they mature, bonds bearing a rate of interest above three per cent. by other bonds to be issued and to bear interest at a rate not exceeding three per cent.

I have directed the accounts of the income and expenditure for the past year, as well as a statement of the receipts and payments of the current year, up to the opening of the present session, to be laid before you.

Estimates of the probable income and expenditure for the current year will be submitted to you, and I trust that you will learn that the estimates of expenditure have been prepared with careful regard to economy and the requirements of the public service.

In addition to the legislation already mentioned as being in contemplation, bills relating to the settlement of crown lands; to amend the law relating to the protection of game, and various other measures of importance will be submitted for your consideration, and I confidently trust that your deliberations, under Divine guidance, will insure to the general welfare and prosperity of the people.

REPAIRING R. C. CHURCH.—Mr. McCullough of St. John, has been engaged to complete the work on the R. C. church Mill Road. The pews will now be put in place, and some other improvements made.

White's Cove.

March 28.—Miss Gertie McLaughlin of Mill Cove, who has been sick since Jan., died on Sunday morning. The funeral will take place at the R. C. Cemetery at the Den on Wednesday afternoon.

There is still lots of sickness in the place. Mrs. L. F. Farris and Mrs. Henry Durost are down with lagrippe and several others.

Mr. Parker did not get to all his appointments on Sunday owing to the very heavy travelling, he was here in the evening and two members were added to the Methodist Church.

Geo. W. Slocomb, of City Market is here buying up beef, apples, eggs, butter etc. He bought a large quantity of apples and will ship by the Central.

The wharf contractors are getting ready to repair the High Water Wharf and are getting the lumber ready. It will be over a week before the May Queen will get in the Lake as there is yet some ice.

Working Night and Day.

The busiest and mightiest little thing that ever was made is Dr. King's New Life Pills. Every pill is a sugar-coated globe of health, that changes weakness into strength, listlessness into energy, brain-fag into mental power. They're wonderful in building up the health. Only 25 cents per box. Sold by all Druggists.

COOK'S ANODYNE LINIMENT.

PERSONAL.

Mr. and Mrs. Wm. McAllister of Fredericton returned home on Friday after visiting friends in Petersburg.

Messrs Joseph and Clement Mahoney were in Fredericton last Wednesday.

Mr. Weldon Hunter was visiting friends in Scotchtown last week.

Miss Cassie McKeague spent a few days last week at Mr. Wm. Hamilton's.

Mr. Silas Rice of Wickham who has been spending a few days with Mr. and Mrs. Jas. Barnett has returned home.

Mrs. Jas. A. Stewart is visiting friends at Hopewell Cape Albert Co.

Misses Nellie and Lee Purdy of Jemseg are spending a few days with Miss Dottie Blyea.

The Rev. Mr. and Mrs. Golmer and family of Mouth of Jemseg, are visiting at T. H. Gilbert's Esq.

Mr. John Hunter spent a few days last week the guest of Miss Stilwell of Scotchtown.

A DYSPEPTIC'S RELEASE.

Suffered from this Distressing Malady for Many Months—Found only one Medicine to Help Him.

The farming community at Port Robinson, and many miles around, are intimately acquainted with Mr. Harvey Horton. He is a young man, only 23 years of age, who farms in summer and follows a steam thresher in autumn and winter. While yet so young he has had his share of pain and sickness. Our reporter hearing of Mr. Horton's affliction sought an interview with him. When he learned the reporter's errand he readily consented to impart full details, which are given practically in his own words:—"I do not court newspaper notoriety," said he, "yet I am not afraid to say a kind word for Dr. Williams' Pink Pills for Pale People. In the summer of 1897 I was sadly afflicted with stomach trouble, a deranged liver and general debility. My entire system was in a morbid condition. I felt as though I had an oppressive weight on my stomach and eating was sometimes followed by nausea. My nights were made hideous by unpleasant dreams. I tried a good physician. He doctored me for liver trouble and dyspepsia, but without avail and for a year I could find no remedy that could cure me. I felt perfectly worn out, had no strength, appetite or energy. I was prevailed upon by a friend from a distance to try Dr. Williams' Pink Pills. I purchased two boxes in June, 1898. Although I thought myself beyond cure, yet the first box had such a surprising effect that I took courage as my strength began gradually to return. I continued taking the pills and now after using nine boxes I feel as good a man as ever and am in splendid flesh. I can eat, digest and sleep well, while before all food soured on my stomach and caused awful distress. I can now enjoy life and am satisfied that Dr. Williams' Pink Pills have saved me from untold suffering."

Good Road Association.

The Annual Meeting of the "New Brunswick Good Road Association" will be held in the Old Court Room Legislative Building, Fredericton, on the evening of Thursday the 30th inst. and will continue Friday the 1st April. The meeting on Thursday may be only preliminary.

All are invited to attend, especially all road commissioners and councillors.

Papers on good road subjects will be read and interesting discussions will take place.

The premier has announced it as his policy to obtain full sets of macadamising machinery including rock crushers and road rollers, and to make a beginning in constructing sample stretchers of improved roads in as many parts of the province as possible. It is therefore important that all the municipalities and town should be represented by their best road builder, who in the discussions will be able to give valuable information as to the most frequented roads suitable for the purpose, to make themselves familiar with the most suitable stones for use, and to be in touch with the movement for
