Queens County Gazette.

GAGETOWN, N. B., NOVEMBER 8, 1899

WE HAVE NO FEAR.

The departure of our soldier boys for South Africa draws our particular attention to events that are taking place in that part of the world. The fact that all our men have been picked out with care as to their physical condition and fitness for field duty leaves no doubt in our minds that if it should be their good fortune to meet the enemy they will distinguish themselves and uphold the honor of Canada and the glory of the grand old flag for which they fight. It will not be the first, and probably not the last time, that Canadians will fight side by side with English soldiers. We fought together in Canada to repel invaders, and our men have fought and died in almost every quarter of the globe. We cannot forget that it is only a few years ago that Capt. Robinson of St. John, lost his life in the wilds of Africa—displaying unquestioned bravery while helping to fight some rebellious natives. And so it is that we have no fear but that in due time we will receive reports from our own little fighting force, that they have shown bravery and displayed high fighting qualities in conflict with the enemies of the British Empire.

B. A. S.

ST. JOHN LETTER.

Great Britain has a squadron of eight battleships and six cruisers in the vicinity of Gibraltar with 10,000 men behind the guns. At the Philippines the United States has one battleship, five cruisers, two monitors and thirteen gunboats. Such an assemblage has rarely been seen before in the history of the world, and it has a mighty significance. It signifies that the Anglo Saxon is the great civilizing, commercial and Christianizing power of the country; that henceforth the Anglo Saxon of the Empire and its colonies and of the United States are one people—that hereafter the flags of the Anglo Saxon in Europe and America will wave side by side on sea and land when either nation desires the assistance of the other. It signifies more; that Anglo Saxon unity presages the termination of all iniquitous wars, for Great Britain and the United States can frame and control the policy of the world. This is a fact which is being recognized by the great powers and one emphasized by recent events. These two nations represent the true civilizing progress of the age. And this civilization represents the difference in degree between the Indians of the West, or the natives of the Philippines, with the highest and most refined type of the graces of modern life. The higher civilization demands more products of the earth, of the factories, of the fine arts; and these in turn make a demand for more labor, for more shops, for a greater productive and distributing force, which means higher employment for men and more general happiness and thrift throughout the world.

The 500 fish in the Carleton pond are being shipped.

The custom receipts in this city last month were \$10,488.21 larger than in October, 1898. The total amount was \$73,180.70.

Twenty-two deaths from infectious diseases occurred in the city during the year ending November 1st.

Collector Ruel has received nearly \$4,000 for the Transvaal contingent fund.

There has been a sharp advance in beef during the last week, probably due to the war, of about \$2 per barrel. The following are some of to-day's quotations:

Table with 2 columns: Item and Price. Includes Extra plate beef, Plate, Boneless, Clear pork, Mess pork, Pure lard in tubs, in pairs, Beans, P. R. Molasses, Codfish, New Fraser River Salmon, Second catch.

Geo. S. deForest & Sons are receiving Union Blend Keys by mail every day and the sale of the teas has increased to 2,000 pounds per day.

EDWARD EDWARDS.

St. John, Nov. 4.

Heavy Storm.

NEW YORK, Nov. 1.—A hurricane came up from the Caribbean Sea and swept over New York yesterday and last night. Its fury is expected to expend itself today. At times the wind blew between fifty and sixty miles an hour, and was accompanied by heavy rain, that ceased about noon today.

Hurricane signals were set yesterday from Maine to the Carolinas, but notwithstanding this warning, shipping suf-

WHAT IS PAINE'S CELERY COMPOUND?

It Means Life, Health, Strength and Freedom from Disease.

Paine's Celery Compound, so popular with the people, is the one remedy that can be trusted to make a person well.

It stops the drain on the nervous system, dispels the harmful humors from the blood, and increases its volume and its nourishing capacity.

Its ability to relieve those ailments that seem to be peculiarly the misfortune of women is overwhelmingly proved by the many testimonials from women of the highest standing in the communities where they live.

Its regulating power does away with "disheartened and cast-down feelings."

The aggravated causes of disordered liver and kidneys, mental depression, hysteria, and kidney troubles, are recognized and dealt with by Paine's Celery Compound in a radical and scientific manner that embodies the most advanced medical ideas of this latter part of the

century. Paine's Celery Compound strengthens the stomach when it is irritable and inclined to indigestion, and prevents dyspepsia; it relieves palpitation of the heart that results from irregular nerve supply to that vital organ, and puts new life into the entire nervous system.

Persons in sound health are not continually reminded of their heart, stomach or liver by distress of these organs. Whenever languor or pain attack the body there is no question as to the urgent need of strengthening the health by Paine's Celery Compound. Women in trying occupations, not only housewives, but saleswomen, teachers, book-keepers and others penned up for long hours behind desks and counters, will find their health and strength greatly improved by the use of Paine's Celery Compound.

A soundly nourished nervous system

and a rich, pure blood supply brought about by Paine's Celery Compound are the best bulwark against such diseases of debility and impoverishment as rheumatism, neuralgia, headache and sleeplessness. This great invigorator, in addition to curing these diseases, builds up the system and prevents the disease from gaining a lodgement in the body.

When one hears it confidently declared by so many well-known and representative men and women everywhere that Paine's Celery Compound positively and permanently cures diseases that at first glance seem so remote from each other as chronic constipation, hysteria and nervousness, inquiry into these diseases shows that their common origin is a run-down, exhausted nervous system and vitiated blood, and Paine's Celery Compound builds up the one and purifies and strengthens the other.

Captured by a Widow.

WASHINGTON, Oct. 30.—Admiral Dewey announced to some of his more intimate friends tonight the fact of his engagement to Mrs. W. B. Hazen of this city. Mrs. Hazen is the widow of General Hazen, formerly chief signal officer of the army, who died about 10 years ago and is a sister of John R. McLean, Democratic candidate for governor of Ohio. Mrs. Hazen has no children and since her husband's death has made her home with her mother. She is a woman of large means, about 40 years of age and popular in the best social circles of Washington. The date for the wedding has not been fixed.

DIAMOND DYES

Are Home Protectors.

Imitation Dyes Are Vile Deceptions.

The thousands of women in our Canadian cities, towns and farming districts stand in need of the protection afforded by the never failing Diamond Dyes. These marvellous coloring agents have been before the public for over twenty years and have always been true to name and promises made. The magnificent shades produced by Diamond Dyes are everywhere extolled, and the colors have in every case proved fast under the action of sunlight and soap.

The plain and simple directions on every package of the Diamond Dyes enable a child to use them with perfect success.

There are imitations of Diamond Dyes sold by some dealers for the sake of long profits. These imitations are deceptions, and wherever used they cause annoyance, ill temper and loss of money and valuable materials. The colors are muddy and dull, and they cannot stand washing with ordinary soap.

To insure perfect protection and security, ladies should ask for the Diamond Dyes and take the trouble to see that the name "Diamond" is on each package. A little care in this direction will save a vast amount of trouble.

Counterfeit Dom. Bill.

MONCTON, Oct. 30.—The recent discovery of the circulation of counterfeit two dollar Dominion notes in Moncton has developed into more than a local matter. As a result of the enquiries made by the Moncton officers a Shediac man by the name of Legere was arrested charged with circulating the money, but no evidence was forthcoming to connect the suspect with the passage of the money in this city. Legere, however, gave the authorities information to the effect that the counterfeit bills were being put in circulation through a Nova Scotia party living in Colchester county. It further appears that a considerable number of the same denomination of money as circulation in Moncton has been in circulation in the towns of New Glasgow, Stellarton, Westville, Pictou and other vicinity, and I. C. R. Police Inspector Skeffington and his officers have been engaged on the case for the past month or more. A web of suspicious circumstances was being woven about the Nova Scotia parties whose names were given to the Moncton officers by the Shediac man, but owing to the evidence not being as straight and conclusive as was thought desirable arrests up to this time have not been ordered. A statement on the part of the Shediac man, Legere, that he had been communicated with by the Colchester man with a view to his using the counterfeit money has been made.

A Maniac's Crime.

EGANVILLE, Ont., Nov. 2.—A murder marked by fiendish details is reported from Germanicus, a small place near here. On Tuesday night, William Yaster, a farmer, secured an axe and entered the room in which his wife and eldest daughter were sleeping, cleft the

skull of the two women in twain, and then beat the heads of both into an unrecognizable condition. He pulled the bodies out onto the floor and slept the remainder of the night in the bed. In the morning he awakened the two younger children and sent them to the neighbors with news of his crime. When they were gone he mixed a dose of Paris green. It failed to kill him. Then he filled his mouth with gunpowder and touched it off with a match. This distorted his features awfully, but did not kill him. Then he mixed another dose of Paris green and died after suffering horrible agonies, last night. He had been regarded as crazy for a year past.

Robbed the Grave.

A startling incident, of which Mr. John Oliver of Philadelphia, was the subject, is narrated by him as follows: "I was in a most dreadful condition. My skin was almost yellow, eyes sunken, tongue coated, pain continually in back and sides, no appetite—gradually growing weaker day by day. Three physicians had given me up. Fortunately, a friend advised trying 'Electric Bitters,' and to my great joy and surprise, the first bottle made a decided improvement I continued their use for three weeks, and am now a well man. I know they saved my life, and robbed the grave of another victim." No one should fail to try them. Only 50 cents a bottle, every bottle guaranteed at any Drug Store.

Dreyfus's Heavy Burden.

PARIS, Oct. 24.—One feature of the Dreyfus case has not been fully touched upon—the exceedingly large sum of money which the Dreyfus family has been forced to spend. The trial of 1894 cost a very fair sum, limited chiefly, however, to lawyers' fees. The large outlay was caused by the efforts of the family to discover the real culprit after the departure of the unfortunate prisoner for Devil's Island. M. Mathieu employed two sets of detectives. The French detectives were watched by a set of English detectives, and the family, of course, footed the bills in both instances. This work went on for two or three years, until the discovery of the famous petit-bleu, designating Esterhazy as the culprit. Then came the expenses leading to the revision of the case, the lawyers and the memoirs and other documents which had to be published. But the deserved compensation given M. Mornard, M. Demange, and M. Labori was not the only outlay which the Dreyfus family had to support at Rennes. As they lost their suit, they had to pay all the witnesses, a round sum of nearly \$10,000. Thus Dreyfus was placed in the curious position of paying the car fare and the board bills of his deadliest enemies. It is estimated that up to the present more than \$200,000 has been employed in this brave fight.

WANTED—SEVERAL BRIGHT AND HONEST persons to represent us as Managers in this and close by counties. Salary \$900 a year and expenses. Straight, bona-fide, no more, no less salary. Position permanent. Our reference, any bank in any town. It is mainly office work conducted at home. Reference. Enclosed self-addressed stamped envelope. THE DOMINION COMPANY, Dept. 3, Chicago.
