resides Mrs. William Angle, who, after months of suffering, has found a cure from the use of Dr. Williams' Pink Pills. Mrs. Angle relates as follows the experience through which she has passed. "Four years ago this spring, while a resident of Buffalo I had an attack of typhoid fever and the disease left me in a wornout and extremely nervous condition, so that the least noise startled me. I could not sleep at times for a week on account of terrible attacks of heart trouble. Then again my head would trouble me and I had bad dreams. I had no appetite and lost twenty-two pounds in weight and had become so very thin that my friends were alarmed. While in this condition I was treated by two physicians but with no avail. I tried everything recommended but still found no relief. Finally a relative persuaded me to try Dr. Williams' Pink Pills. After I had taken the first box I could see a change for the better, so I continued the use of the pills until I had finished six boxes and the results were most gratifying. I now have normal sleep, there is no more twitching in my hands, the palpitations have ceased, and I have gained in weight and strength. My whole system seems toned up, and I feel entirely well. I feel grateful to the Dr. Williams' Medlcine Co., and hope they will keep up the good work of administering to the afflicted." Dr. Williams' Pink Pills cure by going to the root of the disease. They renew and build up the blood, and strengthen the nerves, thus driving aisease from the system. make it a success. Dinner and tea will be served in the Church Hall by the members of the Episcopal church. There will be a concert in the evening. Proceeds go towards paying debt on the parsonage.

A very pleasant evening was spent at the Rectory on Friday last. Both vocal and instrumental music was rendered, Mr. and Mrs. Gollmer performing the greater part. The old familiar song "Coming through the rye" was beautifully rendered by Mrs. J. C. Johnson, and Miss Brayley with F. C. Nevers, Bariton. The chief event of the evening was a duett, played by Mr. Gollmer and F. C. Nevers, which received great applause and was encored severel times. The party dispersed about 11 o'clock all seeming well satisfied with the evening's entertainment. Despite the heavy downfall of rain and darkness of the night, all tion was the youngest son of the late reached home in safety.

Another Steamship Ashore.

British steamer Prodano, Capt. Scroggie, twelve days from Baltimore for Leith, with a general cargo, went ashore Sunday night at Peter's River, St. Mary's Bay, Nfld,, during a dense fog, and is a total wreck. Eight men were injured, one seaman having his leg broken and two others being seriously hurt. The forepart of the ship's bottom was torn out by the rocks, but the cargo on her upper deck, which is above water, will probably be saved. The crew were taken off by fishermen.

COOK'S ANODYNE LINIMENT.

Damaged by Wind.

SACKVILLE, Oct. 7.-The immense new Unniversity residence here was badly damaged by the wind last night, both side walls of the main ell above the first floor being blown down. The actual loss in material and labor is estimated by the contractors at \$300, but the loss in time is more important, as the building was being rushed to get the roof on before cold weather, The accident casts no reflection on the builders, as the walls had just been finished, and the mortar was not set.
