Queens County Gazette. GAGETOWN, N. B., SEPT. 3, 1902.

ST. JOHN LETTER.

The exhibition was opened this evening and financially bids fair to be as successful as the exhibitions that have preceded it, but as an educational and industrial affair it is likely to fall short of its purpose.

An attempt at robbery on the yacht Scionda the other night resulted in a fight and the arrest of two men who are now in jail.

A North End hoodlum, 13 years old, is in jail for general lawlessness. He is not a public school pupil.

A lad named Wheaton was run over by a team driven by George McLaughlin on Main street last Friday and very seriously injured.

Daniel Sudbear, for whipping his wife, was fined \$20 last Friday. He should have had twenty lashes additional.

An effort is being made to procure the postponement of the trial of Higgins, the Park murderer, which is set down for next Tuesday. It will be very unfortunate for the community if this is done.

Our reformers are talking less of the suppression of Sunday soda and fruit, and more of the suppression of crime, but it is the people who will have to act in this matter—not the reformers.

Steamer Lake Superior stands firm where she was stranded and may continue to do so until she is budged by the Autumn gales.

The features of the market are unchanged since last week.

Harry W. deForest has in transit from India, Ceylon and China between one hundred and one hundred and twenty tons of tea, all of which is due to arrive before the close of the year.

The second prize in the Miles art distribution of Nov. 19, is a large allegorical picture by J. C. Miles, representative of human progress from youth to age.

Edward Edwards, St. John, Sept. 1. Charged With Murder.

QUEBEC, Aug. 26.—The coroner's jury in the case of Beauchamp, found dead on Cove field, returned a verdict today to the effect that deceased came to his death by hemorrhage caused by severance of femoral artery in the right leg by a knife or sharp instrument, and held Maxime Fortin criminally responsible.

Will Not Let Boer Generals Enter Belgium.

THE HAGUE, Aug. 21.—General and Mrs. Botha started for Brussels this afternoon. The general expects to return here within a week.

LONDON, Aug. 21.—It is announced here in a special despatch from Brussels that the Belgian government has requested the Boer generals, Botha, DeWet and Delarey, not to enter Belgium, and that the station master at the Northern railway station has been instructed to summon troops to keep order in the event of his receiving notification of the presence of the generals on board a train from Holland.

Chief of Police Shot.

ROANOKE, Va., Aug. 27.—It developed today that the shooting to death of Chief of Police Fleming at the mining town of Cooper (W. Va.) last night, may have been the work of striking miners. A representative of the Associated Press was advised at the general offices of the Norfolk & Western Railroad today that there had been a sudden change in the situation in the Roanoke coal fields.

Drowned at Idaho. WELSFORD, N. B., Aug. 28.—The sad news has just been received by Geo. Lyon, of Welsford, of the drowning of his brother, Ludlow B. Lyon, in the Spokane river (Idaho). He had been working in the gold mines in British Columbia all winter where he had several claims. He thought he would go down to Post Falls (Idaho) to see his brother Leveritt Lyon, and take a rest.

After being there about a month he started out one day to shoot ducks in the Spokane river, which runs past his brother's ranch. He was out a while and then came back and worked around, then went out again and did not return.

His brother, thinking he had gone to call on some friends, did not go to look for him that night, but the next morning he got uneasy about him. So they formed a party of 28 men and searched the woods closely for two days, but no trace could be found.

The police in nearby towns were informed and an advertisement put in two papers, and still there was no trace.

On the 17th of August, after searching for six days, Mr. Lyons thought he would search the Spokane river and there he found the body floating. The river has walls, in places perpendicular, of 50 feet, and it is thought the unfortunate man had lost his footing on one of these places and fallen over and was drowned. He was a good swimmer, but it will never be known how he was drowned for he was alone. He leaves his aged mother and three brothers, one brother Bradford Lyon, living in Eureka (Cal.), Leveritt Lyon, of Post Fall (Idaho), and George Lyon, of Welsford, Queens Co.

Another Poisoning Sensation.

Victoria county has a poisoning case which is creating some excitement and no end of talk among the people of that section of the province. A few days ago a young married woman named Rogers, who lives near the American boundary line, was placed under arrest on a charge of attempting to poison her husband by putting rough on rats in his food. She was lodged in jail at Andover, and the preliminary examination was commenced at that place on Monday before Police Magistrate McQuarry. Titus J. Carter, late of St. John, appeared for the prosecution, having been engaged by relatives and friends of Rogers to institute the proceedings against Mrs. Rogers.

From the somewhat meagre information which has reached here it appears that Rogers was taken ill several weeks ago, and a physician whom he called in pronounced it a case of poisoning. Since that the man's condition has showed but little sign of improvement; his eyebrows and finger nails are dropping out and his general health seems to be considerably impaired. While he has a chance for recovery it is feared by his friends that it is a very slim one.

Mrs. Rogers' explanation of the affair is that she had been using rough on rats in the house, and a rat, after swallowing a quantity of the poison crawled into a jar of cream and died. Her husband afterwards drank some of the cream and her theory is that he got poisoned in this way.

The preliminary examination of the prisoner has not yet been completed as it was found necessary to postpone it in order to give the prosecution an opportunity to procure additional evidence as to the exact condition of the man supposed to have been poisoned.—Fredericton Herald.

South African Line.

MONTREAL, Aug. 26.—Particulars of the contract of the South African line have come to hand. It provides for a five years' service once a month. The steamships must fly the British flag and have electric light and cold storage plant. There must be no preference against Canadian shippers or goods. Freight and passengers are to be accepted as they come, in rotation. The contract is to be subject to the law of Canada during the time of existence. The rates are to be fair and reasonable and subject to the approval of the Canadian government. Ships are free to coal at any Canadian port. If freight offers they may put on more steamers subject to the same conditions. The total subsidy is thirty pounds sterling, not forty-five thousand, as previously reported. Canada contributes two-thirds. James Thom, manager of the Furness, Withy line, says that the rates will be higher than the New York rate, but lower than the combine price.

A Familiar Name.

In the homes of Canada and the United States there are few names more familiar and none more reverently spoken than that of Dr. A. W. Chase, the great physician and receipt book author. He is blessed for the suffering he has relieved and the diseases he has cured; his remedies are used and endorsed by the best people in the land; they are popular because they cure when others fail.

Fatal Fire.

New York, Aug. 28.—One woman was killed and several others suffered from shock and burns as a result of a fire which started on the first floor of a five story flat house in West 121st street early this morning. The dead woman was Mrs. Eva Arendet, who lived on the fourth floor of the house. She jumped from a window and died in a hospital of her injuries. The other women who were hurt will recover.

Burden Bearer must Make Choice.

Paine's Celery Compound Takes Away The Load of Disease and Leads to New Life, Health and Happiness.

The unhappy victim of disease who has just dragged through the summer, and who is now racked with suffering and almost a physical wreck, must make immediate choice of two paths. One leads to increased misery and certain death, the other to new life, health and happiness.

The use of Paine's Celery Compound is a necessity for all who seek the path of health and long years. Victims of rheumatism, neuralgia, kidney disease, liver trouble, dyspepsia, nervousness and blood diseases, quickly and surely find new life, vigor and strength in Dr. Phelps' medical prescription—Paine's Celery Compound. It builds up the system, purifies the blood, braces the nerves and regulates digestion as no other medicine can do.

"I can honestly say that I would not be living to-day if it had not been for your wonderful medicine. For a long time I suffered terribly from nervousness, sleeplessness, head and stomach troubles, and never received much benefit from ordinary medical treatment. I heard of your Paine's Celery Compound, and I have good reason to thank God that I used it. I can now eat well and sleep soundly, and my nervousness is a thing of the past. I now feel perfectly rested after a night's sleep, which has never been the case before using the Compound. My neighbors are surprised at the grand cure made by your medicine, and some are using it now. I thank you sincerely for the honest results given by Paine's Celery Compound."

Best Is Taken to Charleston to Die.

SALEM, Mass., Aug. 29.—John C. Best, the condemned murderer of George E. Bailey, who is to die in the electric chair during the week beginning September 7, was secretly taken to Charleston yesterday. A large crowd had gathered at the railway station at Salem to see the murderer, but Best was taken to the north street crossing by Sheriff Johnson and Deputy Sheriff Kearney and put aboard the train before the crowd was aware that the party had left the jail. The train left Salem at 7:52 a. m., over the western division, and arrived in Boston at 8:25.

Scene of World Interest.

LONDON, Aug. 28.—Discussing, in the National Review, international relations in the Persian Gulf, Capt. Alfred T. Mahan, U. S. N., (retired), characterizes the problem there presented as second only to the Chinese question, and as one certain to claim world notice so soon as a stable equilibrium is established in the farther east. Comparing the various interests bound up in the Persian Gulf, Capt. Mahan says: "While Russia and Great Britain have nominally equal interests, Great Britain's ultimate predominance is probable owing to the necessity of her safe-guarding her trade route by way of Suez to India. Germany's interests coincide so closely with Great Britain's that it is reasonable to expect them to work hand in hand, while Russia will hardly undertake an aggressive move in Southern Persia until she has completed the Siberian railway which will absorb all her available money and energies for some time to come."

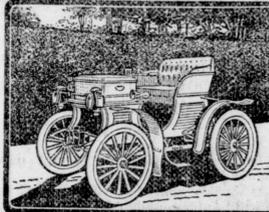

St. Paul's In Danger.

LONDON, Aug. 26.—A full report is expected soon from Somers Clarke, the architect in charge of St. Paul's Cathedral, but there seems to be small question, in spite of the hesitating denials of the dean, that the chapter is seriously worried over the condition of the cathedral, whose foundations have been weakened by bad draining coupled with extensive excavations in connection with the tube railroads and other sub-surface work. It is said on good authority that prompt and extensive repairs, estimated to cost \$1,100,000 are imperative to insure the safety of the historic building. As the cathedral authorities are decidedly pressed for funds it is not improbable that the public may be appealed to.

Shot to Death by Mob.

MONROE, Mich., Aug. 29.—Walter Lemerand, lately of Toledo, came home this noon and found a man in the house with his wife. A quarrel ensued, the unknown finally running from the house. An officer attempted to arrest him, when he ran, a crowd pursuing. The cry "Assaulter" was raised, and the mob began to shoot. The unknown ran into a cornfield where he was surrounded and shot dead, a bullet penetrating his heart. The woman there was any assailant.
