#### A HUNDRED YEARS HENCE.

What wonders has half a century wrought for Canada! Half a century ago we bought flour, agricultural implements, carriages, pianos and organs, woollens, cottons, hardware of various descriptions and many other necessities almost exclusively in the United States; now we are exporters of most of these things and our products are known almost all over the civilized world. Australia is one of our good customers, so is Japan, and from South Africa they send here for hay, breadstuffs, fighting men and missionaries. Canada has become the most important of Britain's Colonies, barren, cold, ice-bound Canada, as it was pictured fifty years ago. And what will Canada become a hundred years hence? Progressing as she has during the last fifty years, for every bushel of grain, every pound of meat, butter or cheese, for every bushel of fruit or dozen of eggs or pound of poultry that she exports now, a hundred years hence she will export ten, and the increase in the output of her manufactures will be in the same ratio. Fifty years ago our facilities for transportation were limited, few of our farmers were able to do more than make a bare living, our mines were worked in a primitive way and so were our lumbering operations and our markets were restricted. Now all a Canadian has to do is to work intelligently and his reward is certain. A hundred years hence the area of cultivated land in Canada will be fourfold larger than at present and by better cultivation the crops per acre will be doubled. The farmer made Canada what it is and the farmer will make its future.

#### ST. JOHN LETTER.

Sir Robert Peel, a grandson of Great Britain's famous prime minister of the same name, who died in 1850, has decided to become an actor. He will go on the stage, powder his face, wear a wig and have chorus girls, subrettes, heavy men, old men and clowns for his associates. It is not likely that his social descent will be very marked or very distasteful for he has been what is called a "high roller." He was born in 1867, married a countess in 1897, and from his majority had an annual income of \$115,000. About a year ago he was adjudged a bankrupt, liabilities \$1,583,050, assets nil. This shows that his expenditures, from the day of his birth, were about \$163,000 a year, or upwards of \$450 a day. This young man is the author of a novel called "A Bit of a Fool;" it is presumed it is an autobiography.

Mrs. Girvan, aged 87, widow of William Girvan, who died about two weeks ago, was buried last Wednesday.

George Robertson, M. P. P., has gone to London to complete arrangements for the construction of the St. John Dry dock.

The river and Lake steamers are being patched up again for the summer service.

River and Lake navigation will be resumed in a few days—somewhat earlier in the season than usual.

An automobile has been brought to the city and will be placed on the road as soon as conditions are favorable.

Aside from hay Steamer Mohician takes 250 tons of flour from this port to South Africa.

A man named Colin attempted to walk across the harbor last Thursday evening. When arrested he was in the water to the neck.

A local poet of an Ingoldsby turn has written:

In every pound packet of Union Blend Tea  
 The blender has placed for the buyer a key:  
 A key that unlocks An iron bound box  
 That contains what the flippant denominated "rocks"—

In plain words, bank notes of various sizes,

That go to the buyers as Christmas surprises.

The flour market is rather firmer and millers are asking a slight advance on high grade Manitoba flours but so far the local market is unchanged. Beef and pork have advanced 50 cents to \$1.00 per barrel. Quotations to-day are clear pork, \$16.50, mess \$16, hamless hams \$17, extra plate, \$16.50 and plate \$16. Lard has advanced 1/2 cent per pound: tubs, 8 cents, pails 8 1/2 cents and tins 8 1/2 cents. The market for broom corn is still high and manufacturers advise that a further advance of 25 cents per dozen on brooms is likely to take effect at any time. Cheese is still out of the market. Choice prunes in 25 pound boxes are quoted at 6 1/2 and 7 cents per pounds. Of molasses there is only a small stock of P. R. on hand which is quoted at 42 cents. Butter continues very scarce and good stock is sought for at 18 to 30 cents per pound. Eggs are not plentiful and the small arrivals sell quick at 12 cents. Business has been very brisk during the past week and a great many schooners are making their first spring trips. Orders from different parts of this province are much larger than from Nova Scotia; probably because the conditions for lumbering are more favorable here than there.

Shortly after five o'clock yesterday afternoon a large quantity of fireworks in the hardware store of George Beverley on Germain Street became ignited and a terrific explosion followed. Plate glass and other windows in the market building and on the opposite side of the street were shattered and not only Beverley's store but others in the immediate vicinity, including Kane & McGrath's cold storage and Goodwin's fruit store were wrecked. Fortunately the firemen were soon on hand and a conflagration was averted. The damage to stocks and buildings will be large. It is said at this writing that no one was very seriously injured.

EDWARD EDWARDS.

St. John, March 31.

#### A Fatal Debauch.

CANTERBURY, Mar. 21.—Thomas Cunningham, a well known resident of Skiff Lake, was found a few days ago in an unconscious condition at the shop of John McCusker, where he had been imbibing too freely of the ardent, and died shortly afterwards. Coroner A. D. Coburn, at the urgent request of friends of the deceased, summoned a jury, and held an inquest. After examining several witnesses, and deliberating upon the evidence adduced, the jury returned the following verdict:

"We the undersigned jurors appointed to inquire into the cause of the death of Thomas Cunningham, find that the deceased came to his death from paralysis brought about by exposure while on his way to Canterbury, on February 27th and liquor given him by John McCusker, and from lying in an uncomfortable and a natural position in the shop of John McCusker during the afternoon and night of February 27th.

### HEALTH IN APRIL

Use The World's Greatest Spring Medicine

### Paine's Celery Compound

It is The One Remedy Gladly and Universally Recommended by the Ablest Doctor.

It is well known that almost every condition of winter life has been detrimental to the health of thousands of men and women.

The blood has become clogged and impure; the skin is unhealthy and muddy, showing eruptions and pimples; the eyes are dull and sunken; the nerves are unsteady; there is loss in weight, and stomach troubles, rheumatism and neuralgia make life a misery by day and night.

Paine's Celery Compound is the only spring medicine that the best physicians are now recommending, because no other remedy can so quickly bring new and vigorous health to the ailing, half-dead and breakdown.

Paine's Celery Compound cures disease by first purifying the blood and enriching and strengthening the nerves. It makes the weak strong; it regulates and invigorates the entire nervous system from the brain to the minutest nerve filament.

Seeing that the experience of tens of thousands has proven that Paine's Celery Compound is the greatest of all spring medicines—the one remedy that the world could not lose to-day at any price—it is foolish and suicidal to defer its use. One or two bottles used at this season will surely banish all symptoms of disease and fit you for the work and duties of spring and summer.

When you are buying Paine's Celery Compound see that you get the genuine with the name "Paine's" and the "Stalk of Celery" on the label; other compounds are frauds and deceptions.

#### A French Victory in Algeria

PARIS, March 29.—An official account has been issued of the victory of the French troops over the Arab army at Inrah, which assembled with the object of attacking the French expedition, which recently occupied the oasis of Insalah, southwest of Algeria. The French learned of the scheme and decided to storm the enemy's position, which was successfully carried March 19 by a column led by Lieut. Col. Eu. The town was first bombarded and then stormed, the Arab warriors making their last stand in the mosques. They left 600 killed and 100 wounded on the field. In addition 450 prisoners were taken. The French losses were nine native soldiers killed, 38 wounded and two officers wounded.

#### Murders in Maine.

ST. STEPHEN, March 29.—A man named Reynolds is under arrest in Calais for the murder of his wife and two children at Red Beach this morning.

The only particulars yet known here are that the wife and one child were killed with an axe, and the murderer then set fire to the house and fled.

The second child is dying.

Reynolds is said to have come from Pembroke to Red Beach about two months ago.

Reynolds chased one of his daughters for a long distance before he overtook her and struck her with the axe. He is believed to be insane. The coroner's inquest will be held to-morrow evening.

CALAIS, Me., March 29.—A horrible

crime, due, it is thought to insanity, was committed this forenoon by Reed Reynolds, a wood chopper, at Red Beach a small town about ten miles from here. Mrs. Reynolds and one son were killed with an axe, another son badly injured, and the house burned to the ground. Then Reynolds ran up the street flourishing his axe. He was eventually taken in to custody and brought to this place for safe keeping.

#### KENDRICK'S LINIMENT.

Agents:—Canadians won't be hoodwinked. Opposition books completely snowed under. Our mammoth Two-Volume work on "Boer-British War" and genuine "Life of Moody" sweeping everything from their path. Send your address and get outfits quick.

#### Russian Activity at Sebastopol

LONDON, March 30.—The Sebastopol correspondent of the Daily Graphic says: "War alarms till the naval headquarters here. The whole Euxine squadron is fully equipped for instant service. Troops with full war kits are daily arriving from the interior. The garrison will soon be a powerful army corps."

"There is much excitement among the staffs of both services, and all the talk is of bringing Turkey to her senses by forcible measures."

#### ABSOLUTELY FAST.

#### DIAMOND DYES Can't Be Washed Out With Soapsuds.

The Diamond Dyes in all the new and fashionable colors are made especially for home use. They will dye cotton, silk or wool or mixed fabrics of heavy or light weights, and produce colors that never fade or wash out.

No other dyes on the market can equal the Diamond Dyes in strength, brilliancy durability of color or simplicity of use. Long years of severe tests have made Diamond Dyes the most popular in every civilized land.

As some dealers sell inferior and weak dyes put up in packages to imitate Diamond Dyes, always insist upon getting the genuine with the name "Diamond" which is a sure protection to every home dyer.

No failures, no disappointments or loss of materials when you use Diamond Dyes. Are you interested in the making of hooked Mats and Rugs? If so send for our new illustrated "Diamond Dye Rug Book" free to any address. Wells & Richardson Co., 200 Mountain St., Montreal, P. Q.

"You had no idea Oxfords were so flashy"
