This course is highly laudable; as whatever may be the result of the determination of Parliament with reference to the Timber duties, there can be no doubt but that the agriculture of the Province must be more (Royal Gazette 4w.) generally attended to; and its inhabitants should become less dependent upon other countries for their supplies of the necessaries

We have received a communication signed VERITAS, relative to the conduct of the Stipendiary Constables at a Magistrates' Court held during the past week; the charge un-der consideration being that of riding on the sidewalks, or rather mud-puddles on each side of the street.
