# REV. A.D. McCULLY'S ADDRESS AT GURNEY ANNIVERSARY.

Officers and Members of Gurney Division, and Sister Organizations.

Ladies and Gentlemen: -About thirty nine years ago, or rather what will be thirty nine years in two days from now, a steamer having on board thirty temperance workers from parts of Charlotte County and from Eastport, Maine, with flags flying, and band of music playing sailed up the harbor of St. John. These thirty temperance workers amid considerable excitement landed in St. John, not to lay the foundation of a great city here, as this had been done by our Loyalist ancestors some sixty years before, but to lay the foundation of all true temperance work in this province, and through it a healthy public temperance sentiment. That same night these thirty temperance workers with some citizens of St. John assembled in the Roman Catholic Temperance Hall which stood on Sydney Street where now stands the St. Joseph's School, and organized Gurney Division No. 5, Sons of Temperance.

While the division was being organized a

While the division was being organized a number of our Roman Catholic friends assembled in front of the hall, (for at that time there was considerable excitement between the Catholic and Protestant denominations in this City) and they having heard that a secret organization of an orange nature was being formed at their hall, made some noise about it. However, Mr. John Murray and Mr. McNulty assured their Roman Catholic friends that the organization which was

being formed in the hall was not an Orange ssociation, and they quietly dispersed. On the next morning these thirty temperance workers accompanied by the members of the workers accompanied by the members of the newly organized division formed a procession, and headed by their band, proceeded to their steamer, by way of King Street. When they were passing the old St. John Hotel which stood on the south corner of King and Charlotte Street, anyther of gentlemen, who were set that early a number of gentlemen who were at that early hour in the morning there drinking, threw up the windows of the hotel, and thrusting their want to go for their liquors to day and it in darkened corners, mostly in the back streets of grand-sons of the same gentlemen compelled as they will be by a strict prohibitory law will have to go into more darkened corners, and though a more circuitous route if they wish to get their liquors. For the information of the members of the division who wish to know of the early doings of Gurney Division, I refer them to the report published in the Daily Telegraph this carried with the fact of the division of the same of report published in the Daug Telegraph this morning. I will simply say that the first M. P. of Gurney Division was the late Mr. R. M. Burtis, and the first W. A. was Joseph Laurence Esq, of this City. Charles A Everett whom the citizens of St. John have lately highly honored, is the only charter member now belonging to the Division, and next to him in the line of holding continuous membership in this Division, is Mr. John Rankin the urbane deputy sheriff for this city and county. During all the thirty years this Divison has a continuous existance, it has only failed to meet for abstain from all that can intoxicate. Of course some of these have tallen away, but the good Gurney Division has done in restraining and saving men who have been slaves to appitite, can only be made known in eternity. During all these years the families of members of this Division have been and are now he ped when in needy circumstances. From time to time Gurney Division has sent out members to form connected with maniferable Divisions not only in this city and province, but we may say throughout the civilized world. Among some of the Divisions thus formed we may name Victoria Albion, Mainers and Mechanics Firemens; St. John, and Cold Stream, and I am not sure but what she may lay claim as being its youngest son of Silver Division which was formed a short time ago in this city. Not content with forming divisions in our own province her influence has come even beyond province, her influence has gone even beyond the seas- One of her members was the first to start the orders of the S. of T. in Newfoundland, and another has the honor of starting this organization in England.

Why, even the influence of this division has reached the antipodies, for we find that in Australia members of Gurney Division have been instrumental in starting this organization there. Howard and Portland Divisions however, also share in this great honor. During the thirty nine years of the existence of Gurney Divisions, many events of great interest have taken place, and if time would allow many might, be related. During the year that cholera raged in this city, it was noted that the only son raged in this city, it was noted that the only son of temperance who fell a prey to that scourge, was Wm Fisher a charter memter of Gurney Division. During the Crimean war this division made a grant of seventy five pounds, to be sent to the disabled soldiers in that war. During the time of the prohibitory agitation in this city some thirty years ago, Gurney Division took a leading and prominent part. This division has now a membership of 237 and has for its W. P. The one fact that renders a peaceful solution of these labor difficulties almost impossible, is the dramshop. The strike that blocks the wheels of trade, clogs the avenues of the transportation, and breaks the back of prosperity, brings harvest-time to the s'ums. The saloonist alone reaps gain at such a period, and the greater the violence the greater the chances gain. The dynamite of our civilization to-day is found in the grog-

Several of the cars in thinkers and workers.' the blockade were found to contain liquor. They were broken open, and four or five nights, and it was compelled to omit these meetings, because the hall it met in was burnt down. Over ten thousand persons have pledged themselves in Gurney Division, to contents.
