**Temperance Journal.**

THURSDAY, OCT. 14, 1886.

It is to be hoped you have already sent in your returns. If not, do so immediately.

Which Division will take the 10 yearly subscriptions to the JOURNAL offered to the one having the most initiations during the quarter upon which we are now entered.

Those who propose visiting the Grand Division session at Moncton on Wednesday next, will find something to interest them in Bro. Price's communication in another part of the paper.

There are many indications of a political contest in the near future. It will be well for the temperance men to begin to WAKE UP. We may be designated cranks, fanatics, or what not, but above all things let us be true men, let us vote straight for the candidate who we know will be all right for temperance, regardless of politics. Don't howl temperance four years and vote for a rummy on the fifth.

At the re-dedictory service by the W. C. T. U. of the old York Division Temperance Hall, on Monday last Sir Leonard Tilley spoke most feelingly of the grand work done in the past by "Old York," and the regrets he had that it was necessary for another dedictory service. Members of our order can well feel proud and gratified to know that, while at all times willing to encourage and help along any temperance work, Sir Leonard is first a Son of Temperance and always a Son of Temperance; others may honor him on account of his titles, his ability, or his other good qualities, but we honor him as a staunch Son of Temperance.

Mayor Howland of Toronto, in a practical way shook up some of the old dry bones in this city, on last Saturday and Monday evenings; and they wanted shaking up badly. If there is a chance to get on a public platform or figure in anyway, there are lots and lots of temperance men in this as well as every other place. What the people want is reliable, every-day temperance workers to take hold of the several temperance societies and help do the general temperance work that has to be done in every community. The real temperance men, the workers that deserve the credit if there is any going are those who are identified with the societies, and are showing by their daily work which way their "musket is a pintin." Our souls rises in holy indignation sometimes, when we see these specimens and their manœverings. They remind us of the owls. They only turn out at night—in the evenings—turn the light on them and see them blink. As Mayor Howland very pertinently remarked we "don't give a continental" for any of them, and they are not worth a continental anyway. Oh! for more cranks. Men that don't care whether show keeps or not, but will stand for principle every time, and are not afraid to speak right out. They are the men that do the good in the world; they are the men that lead. Make up your mind to be one of them.

**BUTERNUT RIDGE, NO. 251**

A public temperance meeting was held in the Methodist Church, on the evening of Thursday 30th Sept. under the auspices of Div. No. 251. The chair was ably filled by Dr. Thorne. The speakers of the evening were O. N. Price, Councillor, Licentiate McLeod of Studholm, Rev. W. T. Corey, Rev G F Miles, and P. Girdwood all of Havelock. Several pieces of excellent music were interspersed among the speeches and added much to the enjoyment of the evening. The crowded church showed the interest felt in Temperance by the people of this locality. We would suggest that this should only be the first of a series of such, here and in the surrounding districts.

The Division was at a pretty low ebb during the summer months, but some four or five weeks a public meeting was held in consequence of which a reaction has set in, new members are joining every night of meeting, until now we have a fairly full house of the best class of members, and the future for the Division look brighter than it has done for some time, with the debating, musical, and business talent comprised within the membership, your correspondent believes that many pleasant and profitable evenings will be spent by the members in the Division room during the coming Winter.

Cardwell Division has just passed through a very quiet summer it being situated in a farming community there fore the attendance has not been as large during the summer months as your correspondent would like to have seen. However we are now going to work with a will to try and capture the prize which you have so kindly offered to the Division that initiates the most new members during the quarter.

A pie social was held on the evening of Sept. 20th, to raise funds to paint the inside of our Hall, and the very handsome sum of eleven dollars and seventy four cents was raised for that

purpose. Due credit must be given the sisters who so ably managed the affair.

We contemplate holding a supper in the near future to raise funds to pay off debt on our Hall, an account of which will be forwarded to the JOURNAL.

Yours,

 Penobscus, Oct 8th. 1886.

**COLLINA DIVISION NO. 129.**

On Monday afternoon the 4th inst., the fair sons and daughters of Collina Division No. 129 assembled on the public grounds adjoining their hall to spend a few hours of that bright Autumn day in social amusements.

Prizes were awarded the most successful in their several games, and much skill was manifested by those competitors who endeavored to carry off the rewards.

These over the crowd went into the hall where a large number of baskets neatly decked with evergreens and flowers and filled with choice viands were sold for the benefit of the Division, the sale of which amounted to the neat little sum of \$30.00. During the ensuing hours a truly social time was enjoyed over those baskets; for though very inviting from without, it could give no true idea of the dainties stowed within.

The baskets and tables being cleared away, an entertainment was given consisting of vocal and instrumental music, dialogues and recitations, at which the people laughed heartily considering the way in which they had settled the baskets. A number then addressed the meeting, prominent among them was Rev. S. Keirstead.

We have a good staff of officers installed for the present quarter, two initiated last evening and the outlook favourable. We meet every Thursday evening. Any brother or sister passing near by will please call in.

Hoping you may find room in your valuable JOURNAL for the above, I remain,  
 Yours truly,

Collina, Kings Co., Oct. 8th 1886.

**CENTERVILLE DIVISION, NO. 287.**

MR. EDITOR.—Saturday evening the 2nd of Oct. being our first night of the present quarter, after the business of the Division was done the doors were thrown open to the public and we proceeded to install our officers who were elected on the last night of meeting; the following officers were installed by our Worthy deputy Bro. H. W. Folkins assisted by Bro. J. A. Liepcer as Grand Conductor

- James Smith, W P;
- Morris Folkins, W A;
- Wm C Parry, R S;
- Julia Chapman, A R S;
- G N Wright, F S;
- Hannah Bunnell, Treas;
- Lewis Folkins, Chap;
- Wm. Scholfield, W C;
- Bertie Folkins, A C;
- Herman Erazee, I S;
- Ivan Wright, O S;
- J W Folkins, P W P.

Our Worthy Patriarch gave a short speech followed by the Rev. Mr. Kirby who gave an eloquent speech on the importance of temperance especially to the young urging them to join the divisions against the common foe of mankind. The Rev. Mr. Lock followed with a very eloquent speech on temperance, also to the young both being listened to with great attention, and I think that the speeches given will be the means of much good to our young members as well as the old. Our Worthy deputy responded to a call and spoke a few words to the officers and members of the division especially on the duties devolving upon them. Mr Talbot gave a short address which was quite interesting and said he expected to join us very soon. The evening being far spent we closed by singing the National Anthem and separated, each one being well satisfied with the entertainment. Not wishing to take up any more of your valuable space I will close,

Yours in L. P. and F.

**THE WORK.**

MR. EDITOR.—No doubt you will be pleased to learn of the onward march of our principles through many parts of our province. For the past six weeks I have labored in Queens, Victoria and Carleton

Counties, in the interests of Independent Order of Good Templars, and God has remarkably blessed my labours, and crowned my weak efforts with success. During that time I have organized 21 lodges, eight in Queens, one in York, four in Carleton and eight in Victoria, while arrangements have been made for more in a few days. The Country generally is ready for Temperance work, and there is now a general advance in every department of this holy field of labor. In Victoria Co especially is this work taking hold of the hearts and affections of the people, and causing many prayers and much work for God and humanity.

Where only a few weeks since was found only two lodges there is now ten; and they not working alone as individual societies but bound together in one strong and compact County Lodge.

The fruits of Templarism in that County is marvellous. Many erring ones have been reclaimed, many weak ones strengthened, and many sad homes made happy through its influences; not alone are these things being realized, but character is being formed, and principles inculcated, which will not only tell upon a lifetime, but eternity will realize its blessings.

God be thanked for the noble band of Temperance Workers in that County, for they are a power before which the rum demon is now quailing in abject fear, and through there united efforts, and the blessing of God the day will come, when the cursed rum traffic will no longer do its hellish work over that fair land.

Brothers let us not be satisfied with present victories, but let us push on the work, until we have obtained what we so much desire—the prohibition of the liquor traffic. God grant that that day may soon come.

Yours faithfully,

**OUR ST. STEPHEN LETTER.**

At our last regular meeting the attendance was somewhat larger than we have had for some time.

After a full discussion of the matter it was decided to invest two hundred dollars in stock in the building to be erected by the W C T U.

Work has already begun on the cellar and the work is to be pushed forward as rapidly as possible. The building is to be of brick, the ground floor to be fitted up for Coffee and Reading rooms and the hall overhead to be arranged for Howard Division to meet in. It will cost between four and five thousand dollars, and the location is one of the best in town for the purpose for which it is intended.

It is under the control of a joint stock company composed entirely of temperance people, care being taken to sell only to those who were known to be in sympathy with the object for which the building is to be erected, the promotion of temperance in the community.

It is the desire of the W C T U in the near future, if God prospers them in their work, to become sole owners of the building, and we hope they may find the success which they anticipate.

They have shown considerable pluck and business ability in the management of the enterprise so far, for which they deserve great credit and especial praise is due Mrs. Dr. Todd and Mrs. J. D. Chipman, the soliciting committee, who so ably performed their duties disposing of all the stock in so short a time.

Taking advantage of the presence of Mayor Howland of Toronto in town we have arranged for a public temperance meeting in Chipman's hall tonight, at which he has kindly consented to deliver an address. We expect to greet him with a crowded house and I wish all the temperance workers in this vicinity could hear the man who has made for himself such an enviable reputation by the stand he has taken on the side of temperance and morality.

In company with Bro. Hugh Stevenson I had the pleasure of visiting Rising Sun division at Heathland last Tuesday night, and at the request of my brother Deputy of that division, of installing their officers for them. The work done by this division has made a marked change in the district, and the reformation of the man who has been exalted to to honorable position of W. P. for this quarter is in itself worth all the sacrifices th
