

IF LAURIER WINS, BUY.

A SIGNIFICANT BUSINESS LETTER FROM WINNIPEG.

Shrewd Purchaser of Western Real Estate

Will Not Close a Deal Till Assured Prosperity will Continue.

WINNIPEG, Oct. 27.—The Free Press has received the following letter from Mr. Robert Young, one of Winnipeg's most respectable citizens...

POLITICAL POINTERS.

Election day. The work will soon be over. To-night will settle a lot of election disputes.

The numerous St. John Tory organs will begin to cut one another's throats to-morrow.

The Sun's Portland editor loses his job to-morrow.

The people settle Sir Wilfrid Laurier's majority at the polls to-day, and they will give him 50.

The guarantee of Sir Wilfrid Laurier is satisfactory to St. John.

Vote for O'Brien and McKeown and you are voting for the only party that ever did anything for St. John.

The Sun's mud throwing doesn't lessen the force of Wm. Thomson & Co's arguments in favor of St. John as the terminal of the G. T. P. R'y.

The Telegraph speaking in scare heads what it lacked in argument.

The Telegraph says illness in Mr. Blair's family was the reason for that gentleman not taking the stump against the government.

The Times says Mr. Blair is bound on an extended holiday trip. Really the evening satellite should not give away the Telegraph's buncomb game so plainly.

To-day will prove that the electors of St. John, in common with the people of every part of Canada, have every faith in Sir Wilfrid Laurier's pledges.

A Liberal victory in St. John means the friendliest relations with a government already friendly to this port.

Think carefully before you cast your ballots. Think what St. John's experience has been with the two political parties. Everything from the Liberals, nothing from the Conservatives.

The trade figures at this port published in this paper tell the story of business progress in the eight years of Liberal rule, and the stagnation of trade in the eighteen years of Conservative rule.

New Brunswick will return at least ten Liberal members to-day.

The best proof of popular content under the Laurier government is the briskness of business even in the middle of the election campaign.

PLENTY OF LOBSTERS ALONG MAINE COAST.

(From the Lewiston Journal.)

The shipment of lobsters from Rockland at present doesn't seem to indicate that the lobster is disappearing very fast from Maine waters, but that the crustacean is being sent out of Maine by the thousands.

Twenty-five or thirty tons are shipped, on an average, weekly from Rockland by express to supply the demand in the big cities, and some days seven or eight tons are sent westward. The season of big catches is now on, and the smack men are busy along the coast gathering in the crustaceans for the dealers.

GRASPING AT STRAWS

THE FALSE HOPES OF THE TORIES AND THE TELEGRAPH.

Saint John Liberals

Understand Their Full Duty and Will Do It To a Man,

The great hope of the Conservatives is that the Liberals will loyally support both candidates. They will not get much comfort out of that idea. The Liberals are not fools. They understand that they have the strength to elect two candidates, and that their doing so means a strong united party here for the future.

A PARTY WITH A PAST

The Tory Scandal Record in the Light of History.

When the Tory leader asks the public of Canada to enter into with power the 'party of popular interests,' which he nominally leads, and which has stained Canada's fair fame with the following foul blot, he asks too much:—

'Send me another \$10,000'—Sir John.

Rykert Timber Limit Scandal—'Something for my old age.'

Langvein-McGreedy Scandal—\$700,000.

Senecal's commissions—\$30,000.

Curran Bidding Scandal—\$270,000.

West Basin Dredging Scandal—\$174,787.

Quebec Harbor Works steals.

Levis Graving Dock Scandal.

Esquimalt Dock Scandal.

Section B Scandal.

Harris Land Job, St. John.

Cochrane (East Northumberland)—Scandal.

Montague's Fraud on Indians.

Bribery Conspiracy against Ontario government, 1884.

Tay Canal Scandal.

Little Rapids Rock Scandal.

Langvein Block Scandal.

St. Charles Branch Scandal.

Northwest Land Grabbing Scandal.

Caranquet Railway Scandal.

Threefold White Scandal.

Dead Meat Scheme.

Bind Shares Scandal.

Oxford and N. Glasgow Scandal.

WATER AND SEWERAGE BOARD.

Important Meeting Held Wednesday Afternoon.

The Water and Sewerage Board met Wednesday in the city hall with His Worship Mayor White in the chair. There were present Superintendent Murdoch, Director Cushing and Common Clerk Wardroper, besides Aldermen Brennan, Carleton, Tilley, Frink, Hanan, Macrae, Maxwell, Bullock, Christie, McGoldrick and Robinson.

The first business of the board was to listen to an appeal from Mrs. Wilkes of White street, who wished to be relieved of water assessment for the past year. The matter was deferred pending enquiries.

As matters pertaining to the Mispege mill were to be brought before the board, Manager Grossett was present and gave much information regarding cost of heating, insurance, etc. Just now the mill is closed down and the manager reported to the board that there was a danger of a frost and dampness during the machinery and he would suggest closing in the lower floors of the mill where the machinery is located and thereby confining the heat to that portion of the building.

There are at present about 75 tons of coal and 120 cords of hard wood now stored. This could be used during the winter for heating and drying purposes. By caring for this particular part of the mill property there would be no unnecessary delay in starting the mill as the machinery would then be in running order and in readiness for use at any time.

Regarding the insurance on the property which is about 3 per cent, would suggest reducing the same. Besides the mill property the city owns about a mile and a half working interest in the Mispege river, and about 1000 acres of land on the Quispic road, five hundred acres in the Caples property, one hundred acres in the Ritchey property, one hundred and fifty in the Powers, and eleven hundred in the Stevens property.

The property also embraces horses harness, four cows, donkeys, and other animals.

The chairman, Mayor White, stated that he was already in receipt of communications from parties in Canada and in the United States, asking for selling terms and other information regarding the property, and as these enquiries were numerous, he suggested a circular and illustration of mill property be secured at once.

Others of the board had received like enquiries. Ald. Bullock moved that the matter be left to a committee to deal with.

The board decided to do what to what guarantee the city could give that the property would always be able to get a water supply, opened up a lengthy discussion which resulted in the board deciding to give no guarantee in the matter.

The board decided that the mill in the July and August when the stream was low, then the mill was run by steam.

Superintendent Murdoch reported having made a test and found from four million to twenty-eight million gallons of water per day passing mill water-wheel.

A committee consisting of the chairman, Ald. Bullock, McGoldrick, Carleton, Frink and the director will visit the property Friday morning and report at the next meeting.

With reference to the insurance now on the property, Ald. Christie and others raised objection to the percentage now charged, viz., three, the aldermen claiming the property was a good risk being isolated and not in operation.

Ald. Christie and Frink were moved as a committee to ascertain lowest rate obtainable.

The letter of Mr. F. A. Barbour, expert on the water supply, giving estimate cost of Venturi water meters, was read and discussed. The cost of two meters landed here would be \$2,512, with a cost of \$1.88 for placing same in vaults now used by city near Catholic cemetery.

As there was a question raised regarding the position selected for an accurate figure as to the quantity of water through the property, this was moved as a committee to ascertain lowest rate obtainable.

The letter of Mr. F. A. Barbour, expert on the water supply, giving estimate cost of Venturi water meters, was read and discussed. The cost of two meters landed here would be \$2,512, with a cost of \$1.88 for placing same in vaults now used by city near Catholic cemetery.

Made in Canada

The Canadian Magazine is entirely made in Canada.

The paper is made by Canadian paper mills.

The engravings are made by Canadian engravers, even the coloured cover cuts and the four-colour frontispiece plates.

The articles, stories and poems are by Canadian authors and are mainly concerned with the various phases of Canadian life.

There are sixty or seventy photographs or drawings in each issue, mostly by Canadian photographers and artists.

THE CANADIAN MAGAZINE is written for both men and women. There is a special department for the latter which is entitled 'Woman's Sphere.'

It is also a suitable magazine for boys and girls as it will help them in their study of Canadian history and geography.

It has the most artistic collection of Canadian advertising.

Wanted Tenbers

WANTED—TENBERS addressed to the undersigned, and endorsed 'Tender for Great Salmon River Breakwater,' will be received at this office until FRIDAY, November 18, 1904, inclusively, for the construction of a breakwater at Great Salmon River, St. John County, Province of New Brunswick, according to a plan and specification to be seen at the offices of E. P. Sheven, Esq., Resident Engineer, St. John, N. B.; Geoffrey Stead, Esq., Resident Engineer, Chatham, N. B., on application to the Postmaster at St. John, N. B.; and at the Department of Public Works, Ottawa.

Tenders will not be considered unless made on the printed form supplied, and signed with the actual signatures of tenderers.

An accepted cheque on a chartered bank, payable to the order of the Honourable the Minister of Public Works, for five hundred dollars (\$500.00), must accompany each tender. The cheque will be forfeited if the party tendering declines the contract or fails to complete the work in accordance with the terms and conditions of acceptance of tender.

The Department does not bind itself to accept the lowest or any tender.

By Order of Public Works, Secretary.

Department of Public Works, Ottawa, October 31, 1904.

Newspapers inserting this advertisement without authority from the Department will not be paid for it.
