LETTERS TO THE EDITOR

OLD BIBLES. To the Editor of The Telegraph, Sir—A gentleman of your city has just called my attention to an article in your issue of September 14, referring to two very old Bibles in the maritime provinces, especially a "Breeches" Bible owned by K. J. MacRae, and printed in 1608. I do not wonder that he believes it to be the oldest in the maritime provinces. We have no magazine that deals with such matters, and the only way book lovers may communicate with one another is through newspapers—an excellent way, however. Now, in the library of Acadia University there is a "Breeches" Bible of earlier date, 1584. It was "printed at London by Christopher Barker, printer to the Queen's Majesty." This copy was presented to Acadia Library in 1910 by Rev. D. A. Steele, of Amherst (N. S.), and once formed part of the library of Rev. Charles Tupper, D.D. There was a statement in the London Times, the weekly edition, July 30, 1909, that in a sale of rare books brought the sum of £230, which would equal about \$1,130 in our currency. It may be that this price was partly an account of the peculiar binding, which was a very remarkable example of the needlework binding of the late Elizabethan period. Our copy is fifteen years older, but it has a plain leather binding, and an astronomy of the opinion that ours must be the oldest Bible in the maritime provinces; but if there are others that are older, I would be glad to hear of them. MARY KINLEY INGRAHAM, Librarian, Acadia University, Wolfville, N. S., Sept. 19.

Shipbuilding in the United Kingdom is showing some improvement in consequence of the settlement of the trade disputes and the readjustment downward of wages, according to a report to the United States Bureau of Shipping from its Glasgow agent. As there is no real demand for new tonnage, however, shipyards and engine works generally are still on short time and some are closed down altogether. Orders have been received for the resumption of work on contracts previously suspended and instead of an absolute dearth of new work a number of contracts have been placed for vessels of special types.

A 20 per cent reduction in northbound and southbound tariffs will be made effective Sept. 22 to Santo Domingo and return from Atlantic and Gulf ports, it was learned at New York this week. All commodities are affected except rice, lumber, explosives, cement and spaghetti, on which the rates are unchanged. No explanation was given for the cut, which was done by conference action, other than that the movement of traffic was expected to be stimulated. In some quarters it was pointed out that a break in Porto Rican rates might make it profitable to transship for Santo Domingo and that this was the real cause of the conference action. This was denied, however, and it was said that there had been no change in the Porto Rican rates sufficient to introduce the possibility of profitable transshipment.

LT. COL. POWELL GOES TO HALIFAX

Popular and Efficient Officer Transferred to Military District No. 6.

Lieut.-Col. A. H. H. Powell, assistant adjutant and quartermaster general for the military district No. 7, has received notice of his transfer to Military District No. 6, with headquarters at Halifax, to be put into effect as soon as possible. Due to the absence of Colonel John Houston, D. S. O., general officer commanding the district, it has been impossible for Colonel Powell to arrange for leaving yet and he will carry on his duties here for a short time. Lieut.-Col. H. C. Sparling, D. S. O., will take over Colonel Powell's duties when he leaves until another officer can be appointed. Colonel Sparling is general staff officer of the district and will carry on in both positions until a new man is appointed.

Colonel Powell has been second in command in St. John for some time, having been associated with Major-General A. H. Macdonell and Colonel A. T. Ogilvie when they were commanders as well as with the present G. O. C., Colonel Houston. His place will be ably filled by Colonel Sparling but, in spite of this, there will be a great deal of regret, not only among the officers and men of the district but also among a large host of friends he has made in the city during his stay.

Colonel Powell has had a brilliant record with the militia, both in peace times and during the war, and holds decorations from home and foreign governments. Altogether he is a soldier and citizen and St. John will lose a valuable man when he is transferred.

STRANGE CASE OF BRITISH NURSE. New York, Sept. 14.—Phyllis Kathleen Hosking, aged eighteen, to whom was denied the right to enter this country because she was born in South Africa of English parents, will be permitted to enter under parole in the custody of her father, James Hosking, of Bayonne, until further investigation on the ruling has been made.

Her parole extends until Oct. 1, but she may be admitted permanently before that date. A letter from Senator Walter E. Edge, of New Jersey, granting the parole was received by P. P. Garven, prosecutor of Jersey City. Senator Edge has been active on behalf of the Hosking girl, who arrived Sept. 3, but was excluded because the rules of the Immigration and Customs Service, which have not been completed. She protested that she was a British subject of British parents, and had lived nearly all her life in England. During the war she was a nurse on the British battle front. The immigration officials were adamant. She has been at Ellis Island ever since. The ruling as it stands now holds that the person's country is the land of birth rather than the nationality of parents. Under this ruling many persons have been forced to return to Europe, and families have been separated from each other. An effort to have it stated more clearly and the ruling changed slightly in the interest of clearness is under way in Washington.

AGED WOMAN BURNS HERSELF TO DEATH

Mentally Deranged Woman Obsessed With Idea of Ending Her Life—Returned Soldier Jumps From Window and Dies.

Montreal, Sept. 19.—An obsession to burn herself to death was eventually realized Monday afternoon by Mrs. Gideon Plouffe, a seventy-year-old resident of the town of St. Laurent, a few miles from this city. Setting fire to her clothing, outside her home, she was so badly burned that she died a few hours later. When the victim had been carried into the house it was found that she was so severely burned that nothing could be done for her and she died during the evening. The coroner's jury returned a verdict of suicide while suffering from mental aberration.

The victim's daughter told the coroner that her mother had been ill for several years, and that recently she had been driven to the idea of ending her life. She always wanted to burn herself to death, and for this reason it was considered safer to keep matches hidden from her. The burnt end of a match found near her, after the fire in her clothing had been extinguished, however, showed that she had been holding a match in her hand and family had been futile.

Around 5 o'clock she left her mother outside the house while she herself went to the barn. She had been gone only a short time and when she returned found her mother a mass of flames. Crawling through the window of his room to the veranda, James Foster, aged forty-six, a returned soldier, jumped from the roof of the veranda at 4:30 o'clock this morning to the cement-pavement.

Empire Daughters Memorial

Four overseas scholarships will be offered this year to graduates of Canadian universities under the Imperial Order of the Daughters of the Empire War Memorial scheme.

The memorial, which aims at perpetuating the memory of men who gave their lives in the war by providing education facilities for ex-service men and the dependents of the fallen, provides bursaries in each province at Canadian universities and overseas scholarships for graduates.

Under the present scheme not permitted nine overseas scholarships to be awarded each year, and an arrangement was made by which four scholarships worth \$1,400 each should be given in 1920, one each in Ontario, Quebec, Manitoba and Saskatchewan and five in 1921, one each for British Columbia, Alberta, New Brunswick, Nova Scotia and Prince Edward Island, making a total of nine overseas scholarships in two years. This year four scholarships are to be given, as in 1920, to students from Ontario, Quebec, Manitoba and Saskatchewan, and five to students from the other provinces for the scholarships.

A selection committee has been appointed for each of the four provinces, comprising three representatives of each province on the national war memorial committee and two members of the Imperial Order of the Daughters of the Empire. Selection will take place during the month of November.

The scholarships are open to men and women, the chief conditions being as follows: Candidates must be British born, naturalized aliens and not married. They must have had five years residence in Canada and be unmarried, must have passed their nineteenth birthday but not their twenty-seventh in the October of the year in which they began their course except in the case of those who served in the war, in which case they must not have passed their twenty-ninth birthday, and must hold a degree in a Canadian university or be in the final year preceding a degree.

In selection of candidates, in addition to the literary and scholastic qualifications of the applicant, attention is paid to personal character. Other conditions being equal, preference is given to dependents of fallen former service men.

DEATH RECALLS A NOTED INCIDENT

Dexter, Me., Sept. 19.—The recent death at Waterville of Charles William Curtis, formerly president of the Dexter Savings Bank, recalls a famous tragedy which had a remarkable sequel. Mr. Curtis was ninety-three years of age and had been long an authority on mathematics. About forty years ago bank robbers entered the Dexter institution, killed the cashier, Oscar Barron, and plundered it of a large sum of money. After a long investigation David Stain and Oliver Cromwell, both residents of Massachusetts, were arrested and convicted of the crime. They served several years in the Maine state prison at Thomaston, but were eventually pardoned and liberated when it was proved that they were innocent.

Witnesses who testified at their trial were shown to have sworn falsely. The murderers were never captured.

VISITED THE WEST.

Rev. J. C. McLean, Souris; Rev. A. McAuley, St. Peters Bay, and Rev. R. J. McDonald, St. Columba, Prince Edward Island, were in the city yesterday afternoon, homeward bound, after a trip to the west as far as Seattle. On their tour the clergymen visited Archbishop Casey at Vancouver and Bishop McDonald at Victoria (B. C.).

CONDENSED DESPATCHES

Startling Triple Tragedy in Village Near Bangor—Storekeeper Jealous of Spouse and May Die—His Brother Sent to Hospital for Observation.

Bangor, Me., Sept. 18.—That section of Bangor known as Bangorville was the scene of a double murder and an attempted suicide late Thursday afternoon when Adalbert W. Wilson, proprietor of a small store at Bangorville, shot and killed his young wife, Nellie, and her mother, Mrs. Lettie Darling, and then after telling his oldest son and a neighbor of the shooting, turned the gun on himself and inflicted a wound in his left breast which may prove fatal. Wilson was taken to the Eastern Maine General where he was reported as being on the dangerous list. Wilson's brother, Eugene, was taken to the Bangor State Hospital after the tragedy for observation, Eugene having talked strangely concerning the affair.

The double murder was one of the most brutal crimes that Sheriff Fernandez has ever had to deal with. The tragedy was the culmination of domestic troubles which have been existing for some time and jealousy is believed to have been the ultimate cause for the shooting. Wilson, who is forty-nine years of age, married Miss Nellie Darling about ten years ago, Miss Darling being sixteen years of age at the time of the marriage. Wilson had previously been married and had two children by his first wife. His second wife's mother, Mrs. Lettie Darling, came to live with him and his wife and during the ensuing years his wife gave birth to four children. It is understood that Wilson was very jealous of his wife.

Threat of Arrest.

The culmination of the trouble took place Wednesday afternoon when it is said that Wilson's actions caused his wife to inform him that she had notified the sheriff to come and arrest him. In a statement made to a neighbor after the shooting, Wilson said that he never would have shot his wife if she hadn't called up the sheriff to have him arrested. If Mr. Wilson makes any such statement to her husband, she simply did it to frighten him, for no call was received at the sheriff's office until after the shooting affair.

At the time of the shooting, Wilson's oldest boy was keeping store and Wilson was alone in the house, which is close by the store. Some time after 11 p. m. Mrs. Lela G. Nason, who lives near the Wilson home, heard one shot followed by two more. Shortly after that Wilson came out of the house with a revolver in his hand and entered the store. He told his oldest son that he would shoot the man who had shot at him and then he walked over to Mrs. Nason's and told her what he had done.

A most gruesome sight greeted the authorities on their entrance, for in the dining room Mrs. Darling with a bullet hole through her left breast; in the parlor Mrs. Wilson was lying on a table with a bullet hole in her left breast and nearby her lay her husband, Adalbert Wilson, alive but with a bad wound in his left side above the heart. Apparently after re-entering the house he had gone to the spot where his wife lay and, turning the gun on himself, attempted to commit suicide.

SUSSEX RESIDENT IS BEFORE COURT

The case in which Dallas Carleton, of Sussex, is charged with speeding and causing serious injury, came up yesterday afternoon before Magistrate M. H. Parlee at Hampton. Only the evidence for the prosecution was taken and the case was then postponed until tomorrow afternoon. Provincial Constable Robert Crawford is conducting the prosecution while J. Herbert McEwen, of Sussex, is representing Carleton.

Testimony was given yesterday by E. J. Wall, the complainant in the case, his wife, his son, Edmund, Mrs. James McCullough, Roy Whitney and C. L. Lorne. Their evidence was to the effect that no horn was sounded by the accused when he was coming out of a side road at an excessive rate of speed. They declared that one woman was thrown from Wall's machine when the Carleton machine crashed into them, while two other occupants were knocked unconscious by the shock of the collision. He swore that the Wall car was hurled twenty feet off the road and was completely doubled up by the force of the impact. The woman who was thrown from the car was not in court as she is still under the doctor's care.

POTATO WAREHOUSE PLANS READY SOON

The matter of a frostproof warehouse for the shipment of potatoes is still being pushed strongly by those originating the project, and business in connection with it is being rushed along as fast as possible. The report of Alexander Gray, federal public works department engineer in charge of St. John harbor, relating to the cost and the work necessary to fit up No. 14 shed to accommodate potato shipments, has been forwarded to Ottawa. T. W. Caldwell, M. P., of Florenceville, is at present at Ottawa in connection with this matter.

Mr. Gray's report gave the probable cost of frost-proofing shed No. 14 as about \$20,000. This would give a warehouse of 210 by 80 feet capacity for the storage of potatoes. The end of this is already fixed up as a cattle shed and has been used in this way for about a year.
