HAY'S LINIMENT. TO FICTION.—This extraordinary chemical composition, the result of science and the in vention of a celebrated medical man, the introducion of which to the public was invented with the solemnity of a death-bed bequest, has since gained a reputation unparalleled, fully sustaining the correctness of the lamented Dr. Gridley's last confession that "he dared not die without giving to posterity the benefit of his knowledge on this subject," and he therefore bequeathed to his friend and attendant, Solomon Hays, the secret of his discovery.

It is now used in the principal hospitals, and the rivate practice in our country, first and most cerinly for the cure of the Piles, and also so externiveand effectually as to baffle credulity, unless where is effects are witnessed. Externally in the followng complaints:

Headache, Sick or Nervous.

The extraordinary reputation that Dr. Spohn's emedy for this distressing complaint is every day gaining is certainly a matter of much astonishment. That so much suffering should have expisted for ages without any discovery of an leffectua preventive, or cure, is truly a subject of much regret, but Dr. S. now assures the public that such a remedy has been invented as will convince the most credulous. -The principles upon which it acts are simple and lain. It is an admitted fact that this complaint, whether called Sick Headache, or Nervous Headache, arises primarily from the stomach—those who think they have the Nervous Headache may rest assured that this organ, the stomach, is the first cause, that the system has become vitiated or debilitated, through the stomach, and that only through the same channel must they expect a restoration of the nature and healthy functions of the system This object Dr. Spohn's remedy is eminently cal-culated to attain. The truth of this position cannot be controverted, and the sooner sufferers with the headache become convinced of it, the sooner will Port, Madeira, Sherry, Brandy, their sufferings end in restoration of health -- Dr. Spohn pledges his professional reputation on this

Agne, though to relieve the patient for the time being is a very easy task.

Moffat's Life Pills and Phonix Bitters have been thoroughly tested, and proved to be a positive and radical cure of Fever and Ague. Hundreds of his fellow-citizens in the West, have voluntarily come forward to assure Mr. Moffat that the Life Medicines are the only medicines that will Thoroughly effect.

Their hopes are blasted—their business energies destroyed—their El Dorado becomes a desert, and the word of promise, made to the ear, is broken to the hope.

To these individuals, Mr. Monat would say—"Try the Life Medicines, and you will yet anticipate your most sanguine expectations, for they will

"Try the Life Medicines, and you will yet anticpate your most sanguine expectations, for they will

Fever and Ague is a complaint which requires to
be met at its first approach, and combatted at every
stage. Seldom fatal of itself, it reduces the strength,
and impairs the functions of the organs, so that upon the manifestation of disease Nature is unable,
unassisted, to resist the inroad. The Life Medicines,
when taken strictly according to directions will cure when taken strictly according to directions will cure it, and give to the weak and trembling victim of dis-ease, new health, life, and strength.

OFFAT'S VEGETABLE LIFE PILLS AND PHENIX BITTERS.—The universal estimation in which the celebrated Life Pills and Phenix Biters are held, is satisfactorily demonstrated by the ncreasing demand for them in every State and sec-ion of the Union, and by the voluntary testimonials o their remarkable efficacy which are every where offered. It is not less from a deeply gratifying confidence that they are the means of extensive and inestimable good among his afflicted fellow creatures, than from interested considerations, that the propriband a large assortment of Window Glass, from 7x9 to 12x18, which he is now selling at greatly reduced prices, by the box or retail, for cash only. tle is a guarantee that some persons will be relieved from a greater or less degree of suffering, and be improved in general health; for in no case of sufferng from disease can they be taken in vain. proprietor has never known or been informed of an instance in which they have failed to do good. In the most obstinate cases of chronic disease, such as chronic dyspepsia, torpid liver, rheumatism, asthma, nervous and bilious head ache, costiveness, piles, general debility, scrofulous swellings and ulcers, scurvy, salt rheum and all other chronic affections of the organs and membranes, they effect cures with a rapidity and permanency, which for a rapidity and permanency which few persons would theoretically believe, but to which thousands have testified from happy experience. In colds and coughs, which, if neglected, superinduce the most fatal diseases of the lungs, and indeed the vicera in general, these medicines, if taken but for three or four days, never fail. Taken at night, they so promote the insensible perspiration, and so relieve the system of febrile action and feculent obstructions, as to produce a most delightful sense of convalescence in the morning; and though the usu al symptoms of a cold should partially return during the day, the repetition of a suitable dose at the next hour of bed-time will almost invariably effect permanent relief, without further aid. Their effect upon fevers of a more acute and violent kind is not less sure and speedy if taken in proportionable quantity; and persons retiring to bed with inflamquantity; and persons retiring to bed with inflammatory symptoms of the most alarming kind, will awake with the gratifying consciousness that the fierce enemy has been overthrown, and can easily be subdued. In the same way, visceral turgesence, though long established, and visceral inflammations, however critical, will yield—the former to small and the latter to large doses of the Life Pills; and so also hysterical affections, hypocondriocism, restlessness, and very many other varieties of the Neurotical class of diseases, yield to the efficacy of the Phenix Bitters.
