tion of a Master in Chancery, and who was required to be daily in attendance on the House throughout the session.

Hon. Mr. WYER said, that no doubt in 1843 the pecuniary resources of the Province were very much embarrased but they were now in a very different situation. It appeared that the House of Assembly had restored the original Salaries of Light-Housekeepers; and why should they not do the same with the Master in Chancery in attendance on this House? He would certainly go against this paltry grant of $25.

Hon. Mr. SHORE observed, that the danger to arise from not bringing forward the matter at once was this, that by neglecting to do so, this House, by its own act, would be perpetuating this reduction of the Grant. It might be a question, whether it would be worth while to risk the grant altogether, by throwing it out, or to create a chance of a colision with the other House, but there was no difference of opinion as to the insufficiency of the appropriation.

Hon. Mr. BOTSFORD said, that if it were now suffered to go by, a new House might consider it as an established precedent, and refuse to increase the grant; but if this House brought it to a question now, the new House would know the reason and grounds of their opposition to the present grant. The sum of £25, was altogether too small a stipend for such an officer; and therefore he (Hon. Mr. B.) was disposed to go against it, because he thought that officer ought to be put on a proper footing, with regard to his rank and standing, and the nature of his service to this House.—If this House conceived that any grants made for the service of their own officers were insufficient, it was their duty to reject them; because otherwise, they would be tacitly concurring in opinion with the lower House on such matters.—He should therefore go against this grant.

The question been then taken, as to the passing of this item of appropriation, the "*Non-contents*" had it, without division.

The Chairman, therefore, on the House resuming, reported that the Committee had agreed to the several appropriations before them, *with the exception* of that to the Master in Chancery.

UNITED KINGDOM

LIFE ASSURANCE COMPANY

OF LONDON.

Capital, £1,000,000 Sterling.

AGENT, ALEX. BALLOCH, SAINT JOHN.
MEDICAL OFFICER, LEBARON BOTSFORD, ESQ., M. D.
STANDING COUNSEL AND SOLICITOR, *None as yet required.*

THE high estimation in which this Company is held in Great Britain is evinced by the great increase of its business, and the hitherto unprecedented *division of Profits granted the Assured*, whilst the *unprecedented numerous* highly respectable Persons in this City already participating in its success, bear ample testimony to its merits.

This Company possesses nearly all the advantages of a Mutual Insurance, without making the assured liable for Losses, and invites comparison with other similar institutions, without fear of suffering by it in the estimation of the Public.

"The very essence of Life Assurance consists in its converting a contingency into a certainty of enabling a man to accomplish in a few days, or even hours, an object which he may never have realized in any other way during a long life. Whilst in health is the time to insure, not when, or after, accidents or sickness occur, rendering the risk then liable to be rejected altogether, or charged at an increased rate of Premium."

The Proposals are forwarded by Steam Packet to a Board of Directors in London, and the acceptance or rejection of the Risk advised by return mail *immediately following*, thereby affording the greatest possible despatch.

Rules of the Society, Blank Forms of Application, and all information connected therewith, furnished by the Agent, at his Office in Dunn's fire-proof Building, Prince William Street.
