

any. There object is simply to retain for the Anglican Church the advantage actually enjoyed by every other body of Christians in New Brunswick, of having one place of public education in which young men may be trained up as Ministers of the Gospel.

On this head I perceive indeed that one question on which any doubt has been thrown. It relates to the Act be- test to be taken by Graduates in the tests taken at Oxford, for me proposes to substitute for the tests taken at Oxford, a declaration of the Trinity. Now, if it were proposed that Theological Degrees should be granted Christians of every denomination, I could understand the motive which might suggest such an innovation. But when it is proposed that the graduates are to be Members of the Church of Eng- land, the imposition on them of a test at once so new and so indefinite, is recommended by no reason which I can ei- so discover or conjecture. Whatever opinions may be en- tertained regarding the Oxford tests by those who dissent from the Church of England, it would seem entirely at vari- ance with the spirit of Religious liberty to forbid the im- position of those tests by those and on those who concur in holding them sacred.

If the Council and Assembly will concur in providing for the appointments of such a Commission as I have suggested, and for defraying the necessary expenses of it, I trust that no insuperable difficulty would arise in the choice of com- petent Commissioners. Aided by their report, a law might be framed either for altering the Constitution of the Col- lege in accordance with it, or for enabling the Crown to issue a Charter for that purpose. The whole of this question might thus be withdrawn from debate in a popular Assem- bly, to a more tranquil, and for this purpose, a more compe- tent tribunal. Without the excitement of those feelings which must animate and occasionally discompose the delib- erations of the Representative Branch of the Legislature, it would, I trust be settled on such a basis as to conciliate the feelings, satisfy the judgement, and promote the inter- ests of all classes, as far as such results are attainable in affairs of this nature.

In that hope Her Majesty's decision on the act under con- sideration will be postponed until you shall have ascertained and reported how far the Legislative Council and Assembly are willing to concur in the course of proceeding which I have thus pointed out.

I have the honour, &c. STANLEY.
