HOLLOWAY'S OINTMENT.

Fifty Ulcers Cured in Six Weeks.

Extract of a letter from John Martin, Esquire, "Chronicle" office, Tobago, West Indies:—
February 4th, 1845.

TO PROFESSOR HOLLOWAY.

SIR,—I beg to inform you that the inhabitants of this Island, especially those who cannot afford to employ medical gentlemen, are very anxious of having your astonishing Medicines within their reach, from the immense benefits some of them have derived from their use, as they have been found here, in several cases, to cure Sores and Ulcers of the most malignant and desperate kind. One gentleman in this Island, who had, I believe about fifty running Ulcers about his legs, arms, and body, who had tried all other Medicines before the arrival of yours, but all of which did him no good; but yours cured him in about six weeks, and he is now, by their means alone, quite restored to health and vigour.

(Signed) JOHN MARTIN.

Piles, Fistulas, and Bearings-Down.

A remarkable Cure by these Pills and Ointment.—A half-pay lieutenant, lately residing at St. Helier's, Jersey, whose name by request is omitted. had for three years suffered from piles and fistula, besides a general bearing-down, of the most distressing nature. He had twice undergone an operation, but to no purpose, and at last gave himself up to despair. Yet, notwithstanding this complication of complaints, together with a debilitated constitution, he was completely cured of all his infirmities and restored to the full enjoyment of health by these justly renowned medicines, when every other means had failed.

Extraordinary cure in the West Indies of Leprosy and other dreadful skin diseases.
June 3rd, 1844.

MR. LEWIS REEDON, of Georgetown, Demerara, writes under the above date—that Holloway's Pills and Ointment have cured bad legs that no doctor could manage, ulcers and sores that were of the most dreadful description, as likewise leprosy, blotches, scales and other skin diseases of the most frightful nature, and that the cures effected there by these wonderful medicines are so numerous and extraordinary as to astonish the whole population.

Cancered Breasts.--A Wonderful Circumstance
February 9th, 1845.

TO PROFESSOR HOLLOWAY.

Sir,—The Lord has permitted to be wrought a wonderful cure of Cancers or Abscesses, of twelve years' standing, in my wife's breast. In the latter part of the time, eleven wounds were open at once. The Faculty declared the case as past cure, several pieces of bone had come away, and I expected that my poor wife would soon have been taken from me. It was then that a friend recommended the use of your Pills and Ointment, which to our utter astonishment, in the space of above three months, healed up the breast as soundly as ever it was in her life. I shall ever remain

Your most grateful and obedient servant.

(Signed) RICHARD BULL.

Wheezing on the Chest and shortness of Breath.

Copy of a letter from Mr. Jeremiah Casey, No. 1, Compton place, Compton Street, Brunswick Square, London, April 25th, 1845.

TO PROFESSOR HOLLOWAY.

Sir,—I beg to inform you that I believe I had been for more than three years, one of the greatest sufferers in the world with Chronic Asthma. For weeks together my breath was so short that I was afraid every moment of being choaked with phlegm. I never went into a bed; very often, indeed, I have been obliged to pass the night without being able to recline sufficiently to lay my head on a table, lest I should be suffocated. No one thought I should live over the winter, nor did I expect it myself; but I am happy to say that I am now able to work from morning to night, and that I sleep as well as ever I did in my life; and this miracle (I may say) was effected by rubbing your invaluable Ointment twice a day into my chest, and taking ten of your Pills at bedtime, and ten again in the morning, for about three months.

(Signed) JEREMIAH CASEY.

In all Diseases of the Skin,

Bad legs, old Wounds, and Ulcers, Bad breasts, Sore Nipples, Stoney and Ulcerated Cancers, Tumours, Swellings, Gout, Rheumatism, and Lumbago likewise in case of Piles; the Pills in all the above cases, should be used with the Ointment; as by this means cures will be effected with a much greater certainty, and in half the time that it would require by using the Ointment alone. The Ointment is proved to be a certain remedy for the bite of Mosquetoes, Sandflies, Chiegofoot, Yaws, and Cocoa-bay, and all skin Diseases common to the East and West Indies, and other tropical climes.

Burns, Scalds, Chilblains, Chapped Hands and Lips, also Bunions and Soft Corns, will be immediately cured by the use of the Ointment.

Sold by the Proprieter, 244 Strand, (near Temple Bar.) There device may be had gratis, and by all respectable Venders of Patent Medicines throughout the civilised world, in Pots and Boxes at 1s. 9d., 4s. 6d. and 7s. each. where is a very considerable saving in taking the larger sizes.

N. B.—Directions for the guidance of Patients are affixed to each Pot.

UNITED KINGDOM
LIFE ASSURANCE COMPANY
OF LONDON.
Capital, £1,000,000 Sterling.

AGENT, ALEX. BALLOCH, SAINT JOHN.
MEDICAL OFFICER, LEBARON BOTSFORD, ESQ., M. D.
STANDING COUNSEL AND SOLICITOR, *None as yet required.*

THE high estimation in which this Company is held in Great Britain is evinced by the great increase of its business, and the hitherto unprecedented *division of Profits granted the Assured*, whilst the *unprecedented numerous* highly respectable Persons in this City already participating in its success, bear ample testimony to its merits.

This Company possesses nearly all the advantages of a Mutual Insurance. without making the assured liable for Losses, and invites comparison with other similar institutions, without fear of suffering by it in the estimation of the Public.

"The very essence of Life Assurance consists in its converting a contingency into a certainty of enabling a man to accomplish in a few days, or even hours, an object which he may never have realized in any other way during a long life. Whilst in health is the time to insure, not when, or after, accidents or sickness occur, rendering the risk then liable to be rejected altogether, or charged at an increased rate of Premium."

The Proposals are forwarded by Steam Packet to a Board of Directors in London, and the acceptance or rejection of the Risk advised by return mail *immediately following*, thereby affording the greatest possible despatch.

Rules of the Society, Blank Forms of Application, and all information connected therewith, furnished by the Agent, at his Office in Dunn's fire-proof Building, Prince William Street.
